Histogram of price per year and type. Sheet 5

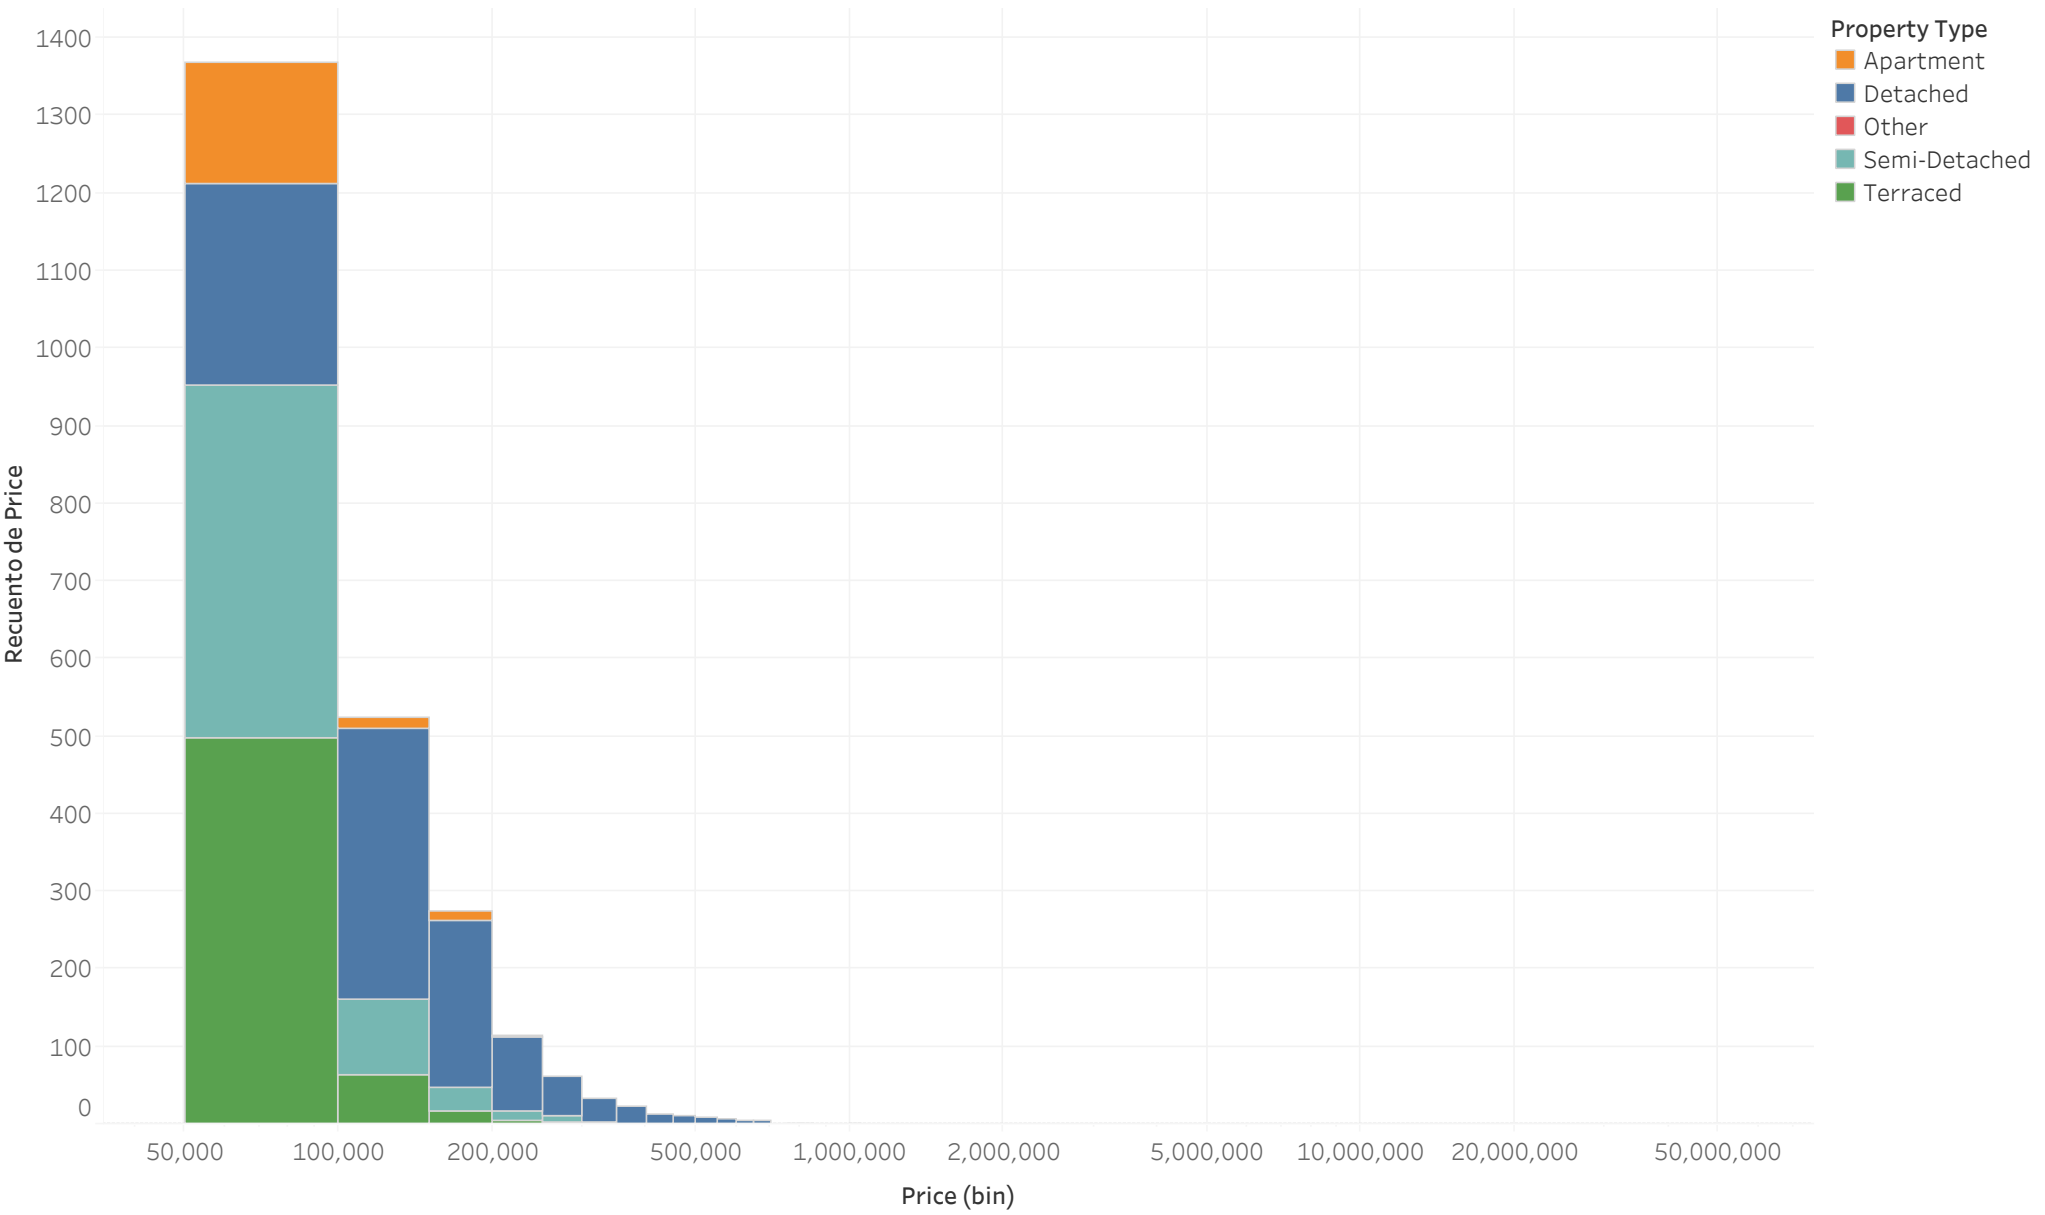

The plot of count of Price for Price (bin). Color shows details about Property Type.

Histogram of price per year and type. Sheet 5

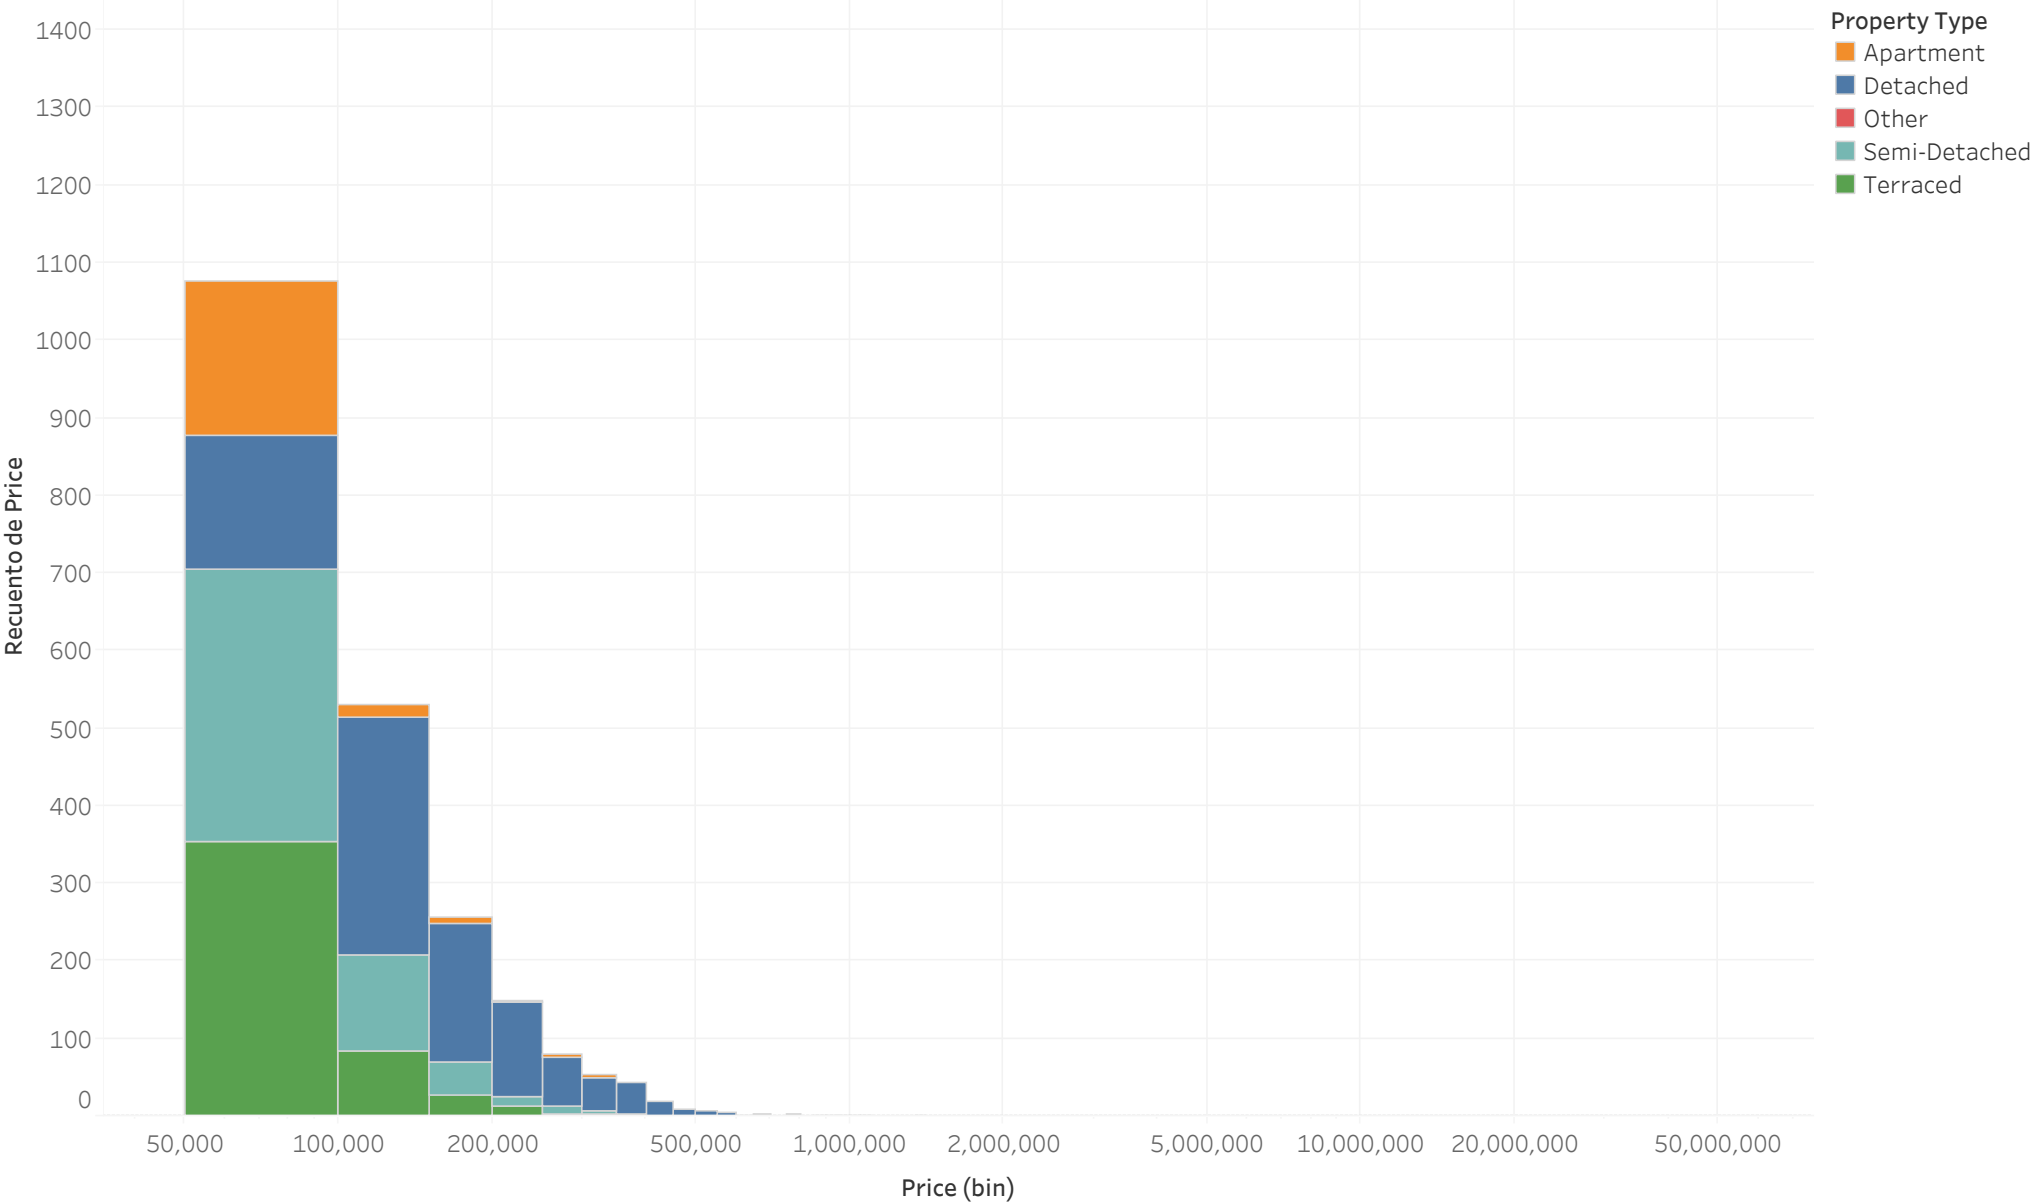

The plot of count of Price for Price (bin). Color shows details about Property Type.

Histogram of price per year and type. Sheet 5

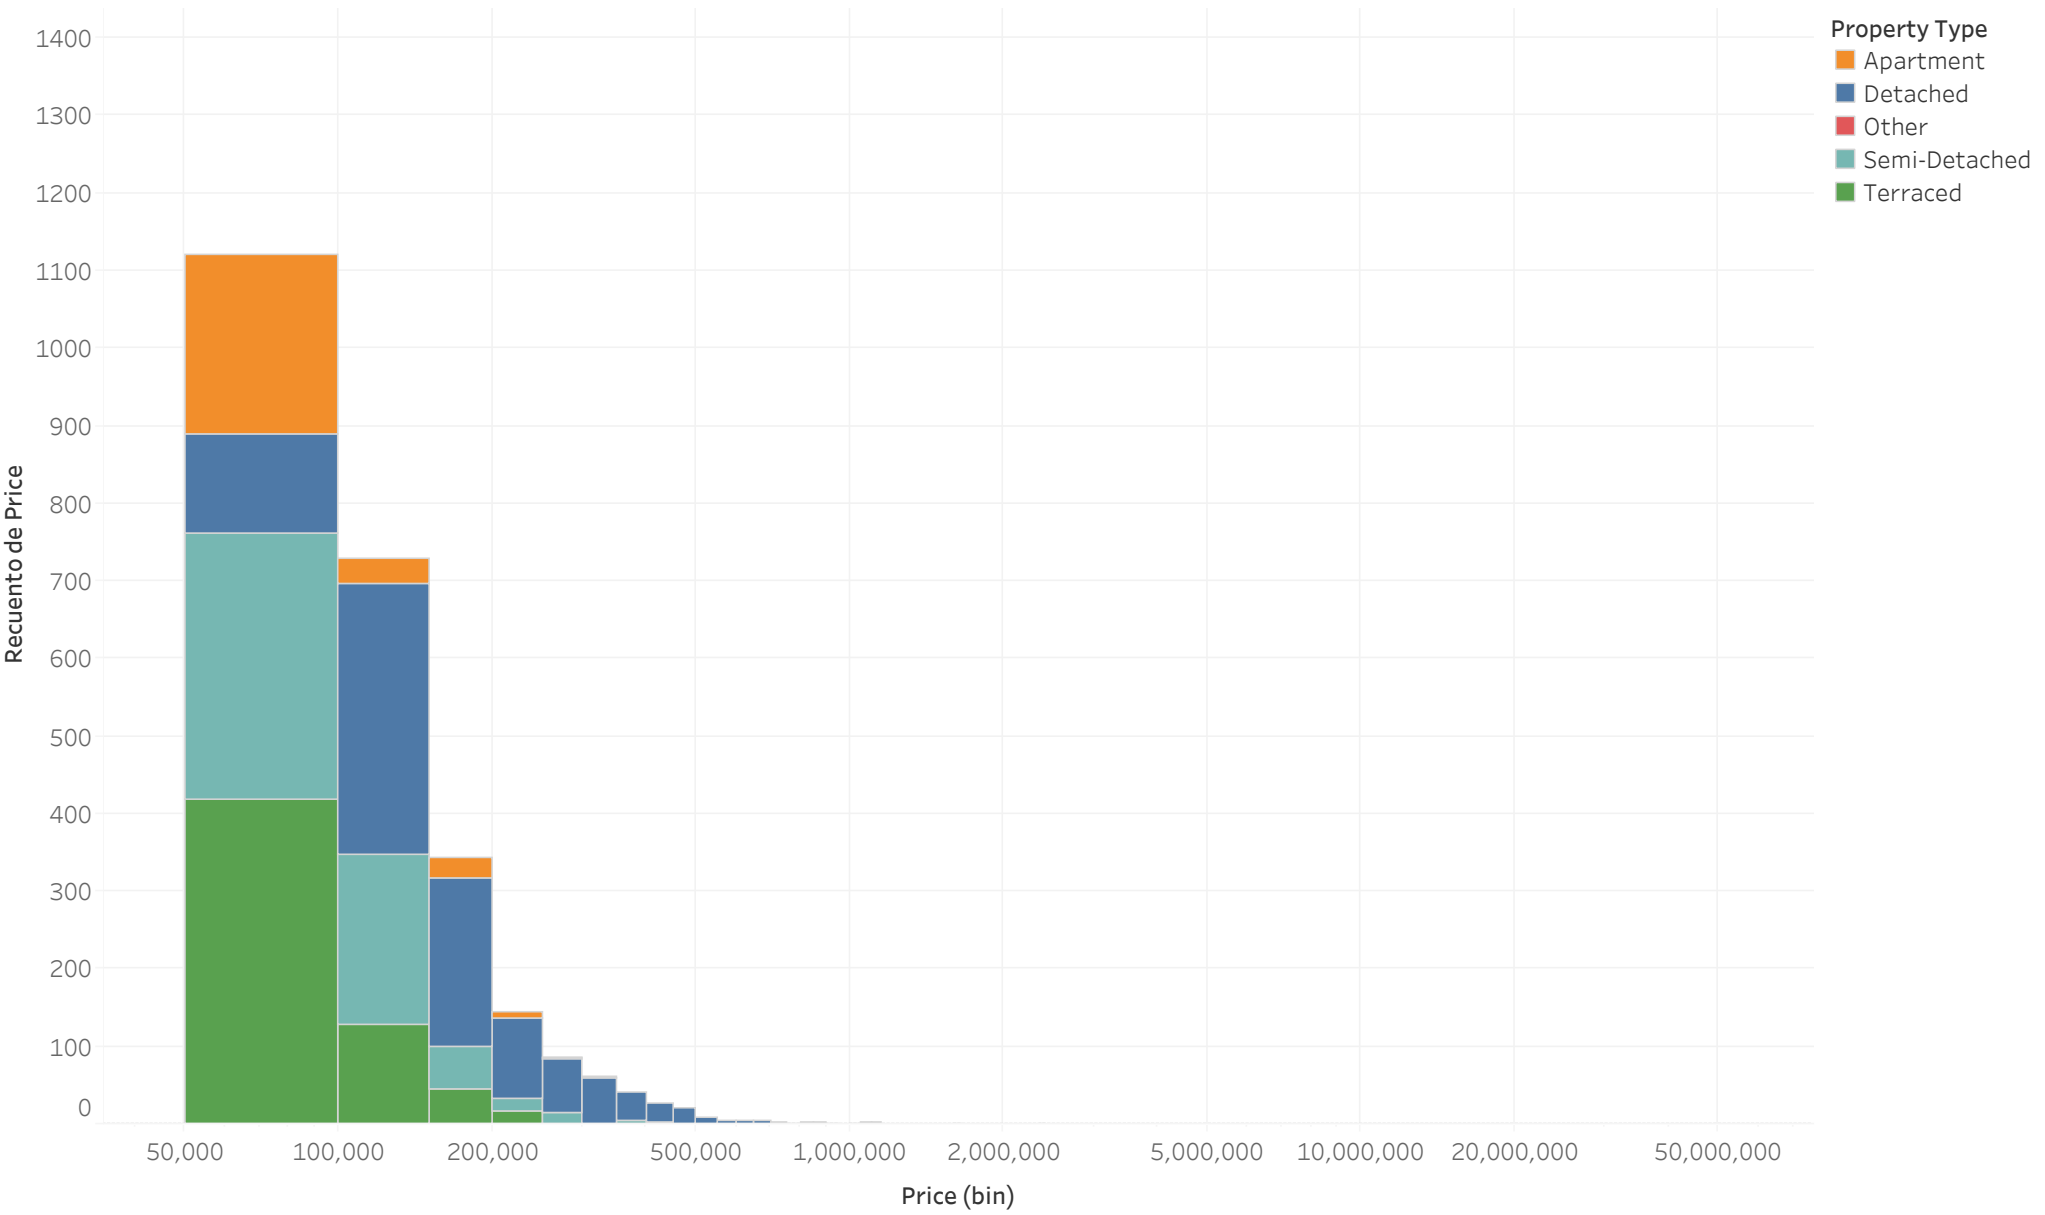

The plot of count of Price for Price (bin). Color shows details about Property Type.

Histogram of price per year and type. Sheet 5

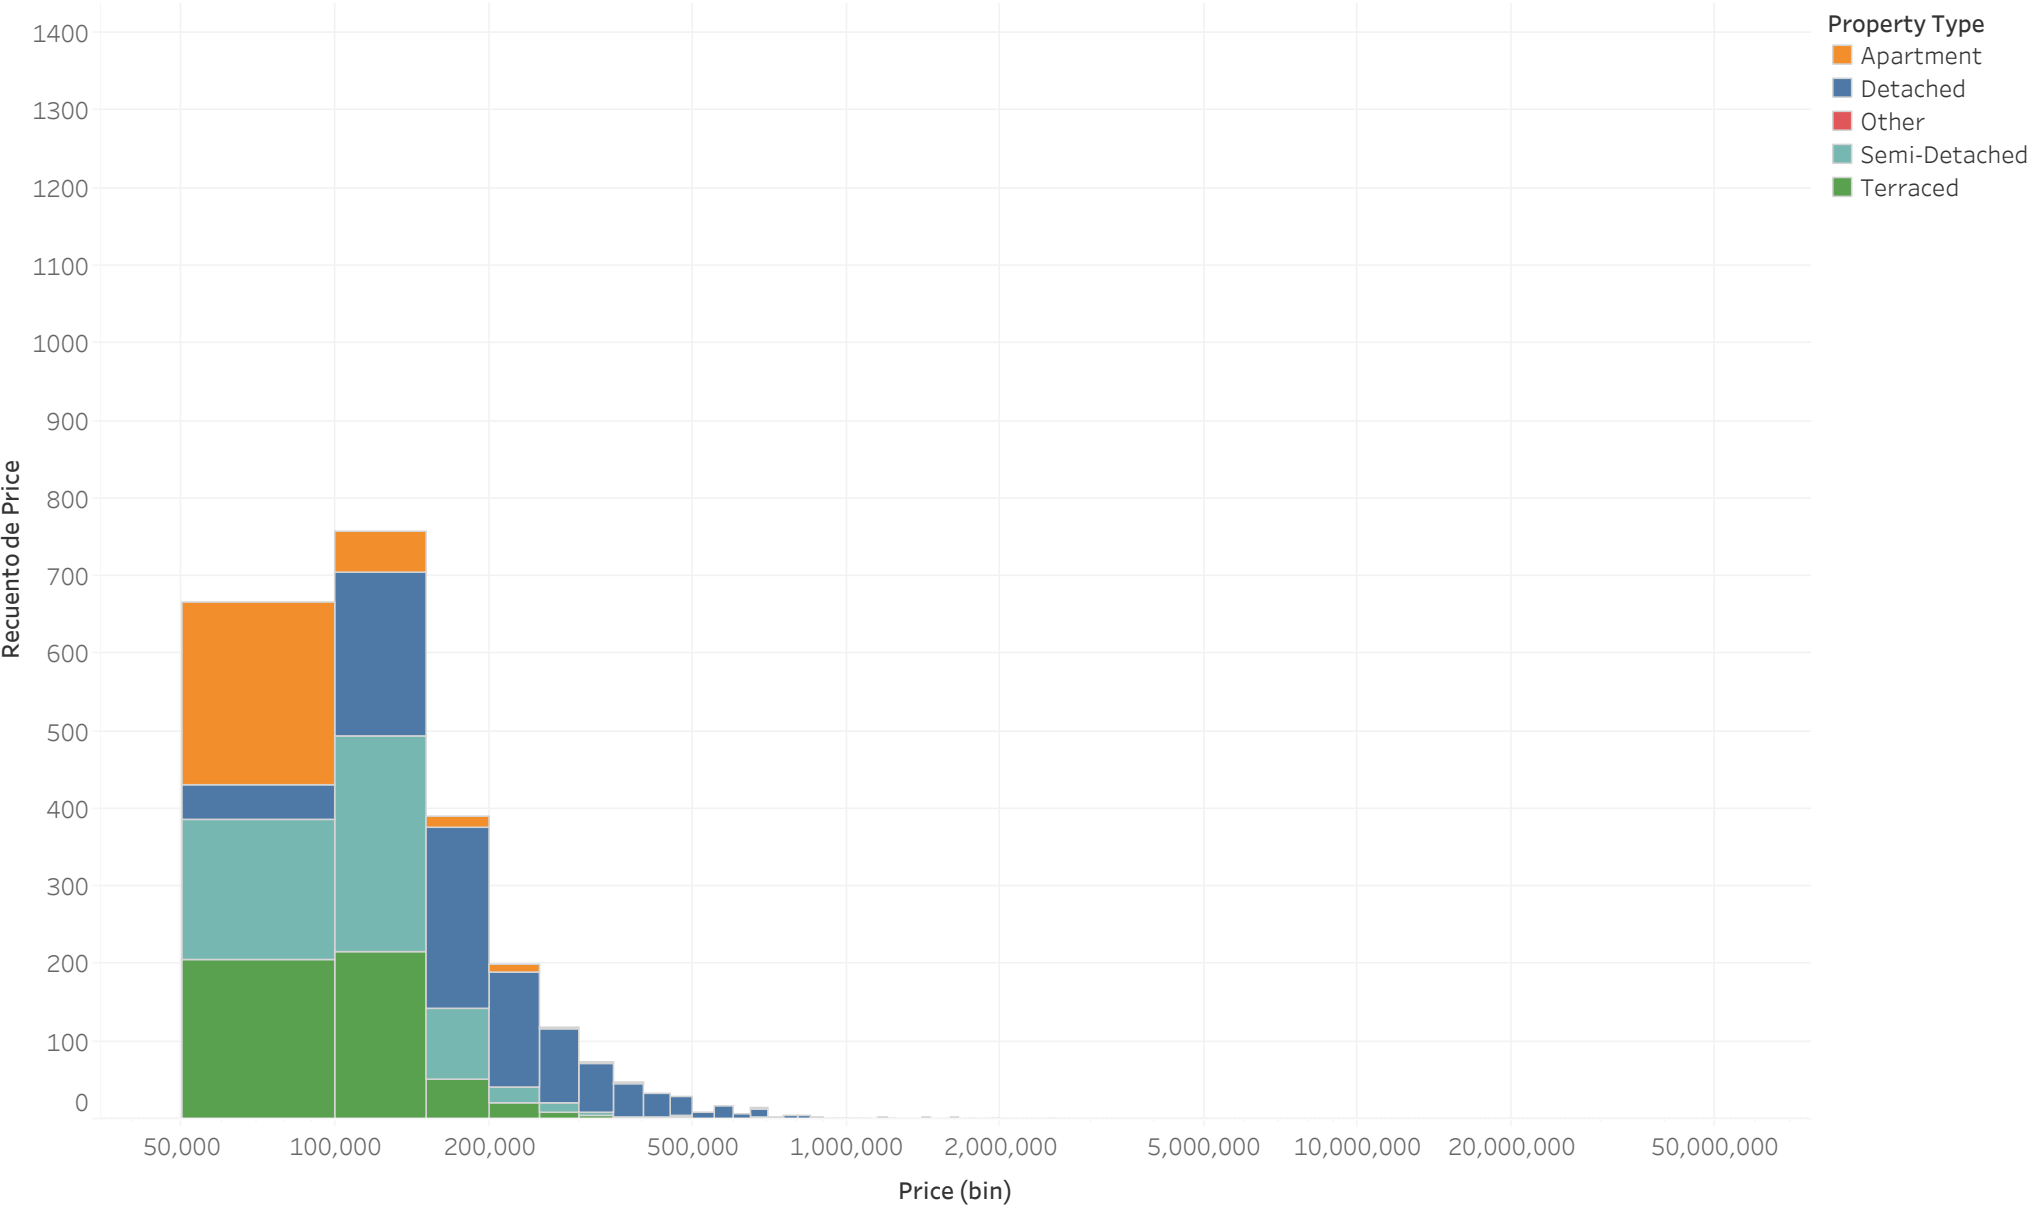

The plot of count of Price for Price (bin). Color shows details about Property Type.

Histogram of price per year and type. Sheet 5

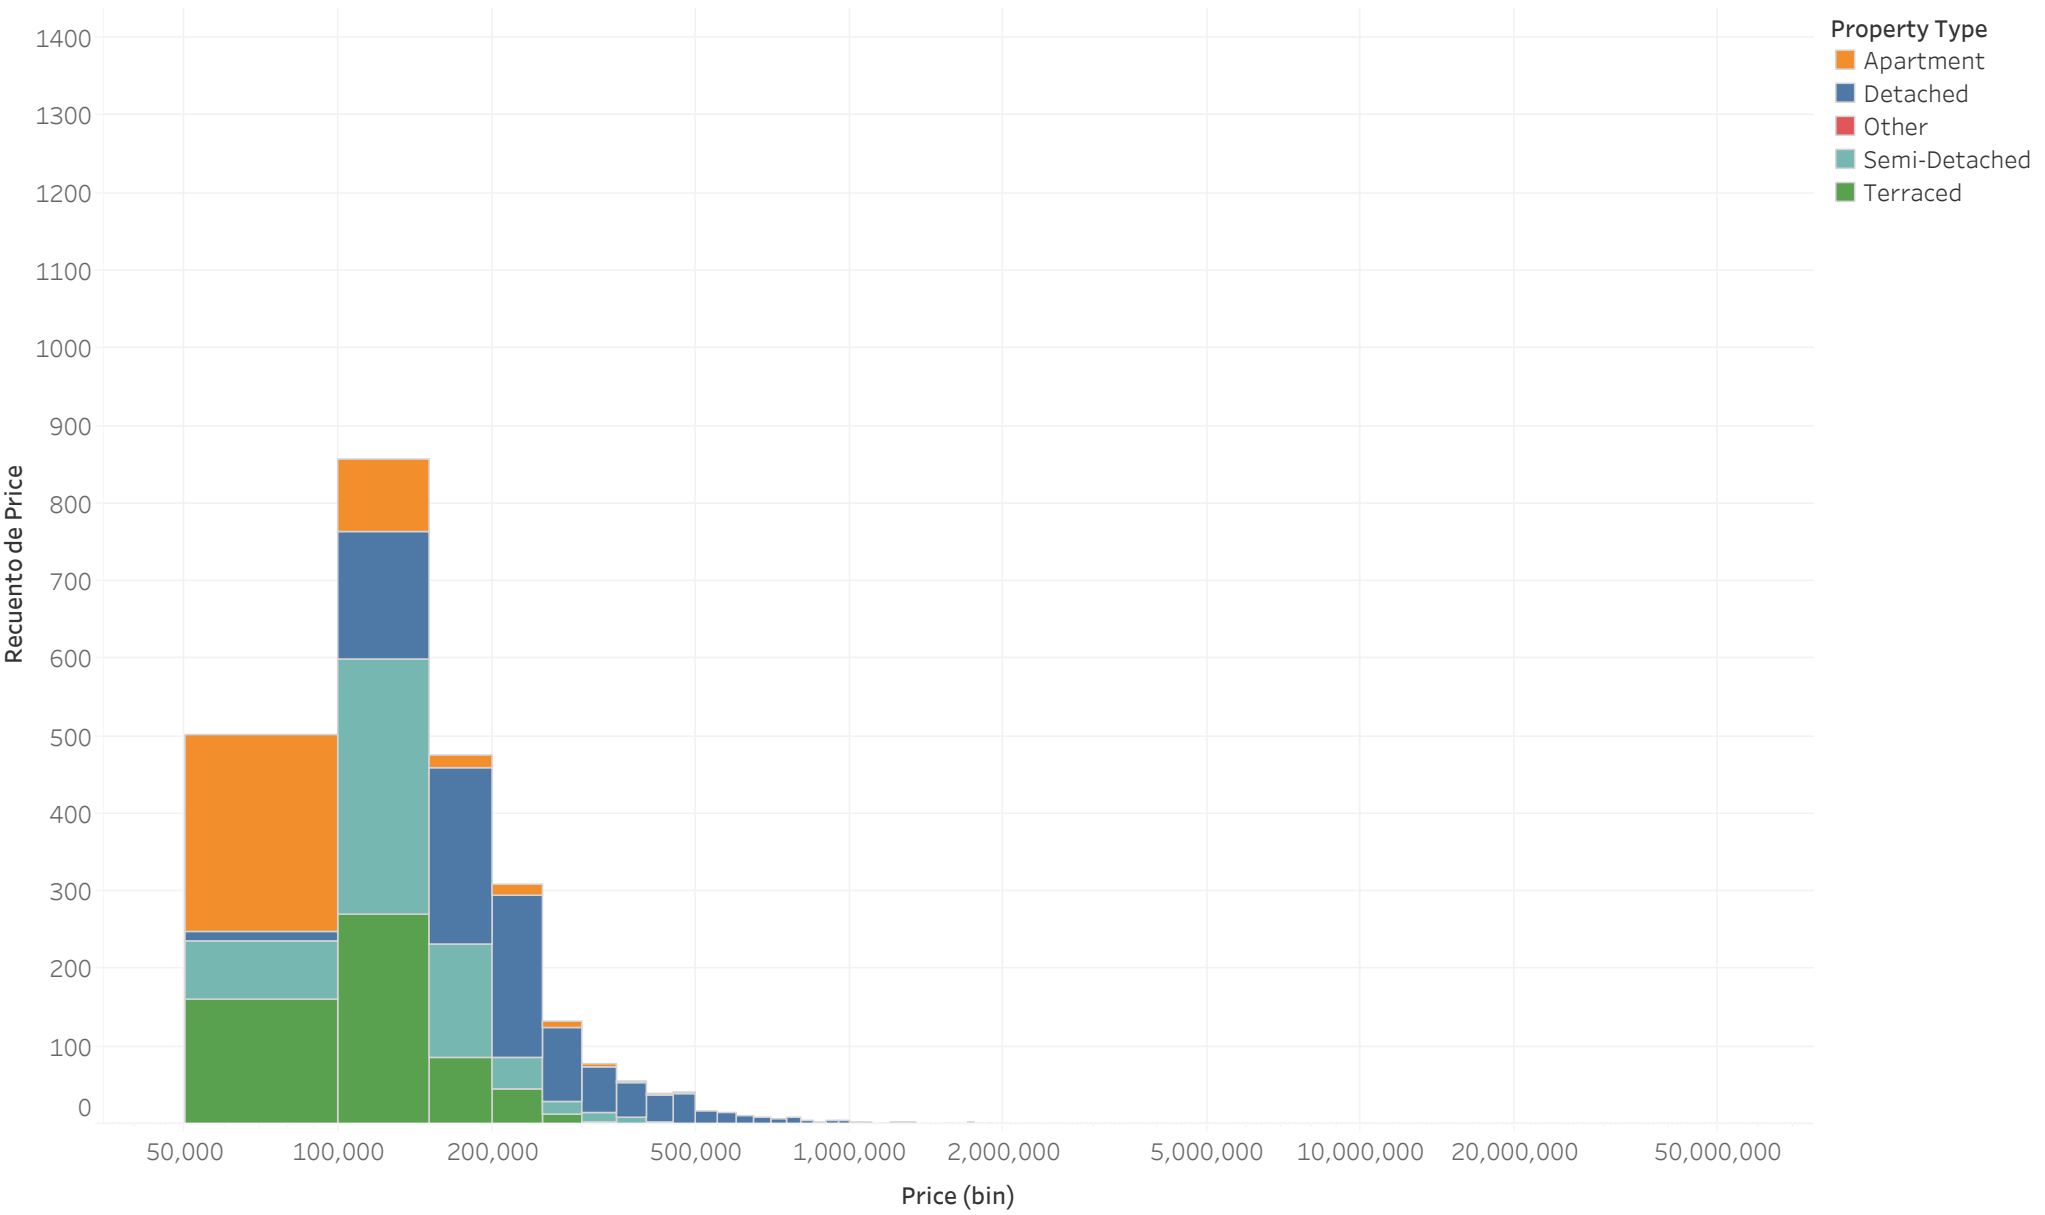

The plot of count of Price for Price (bin). Color shows details about Property Type.

Histogram of price per year and type. Sheet 5

The plot of count of Price for Price (bin). Color shows details about Property Type.

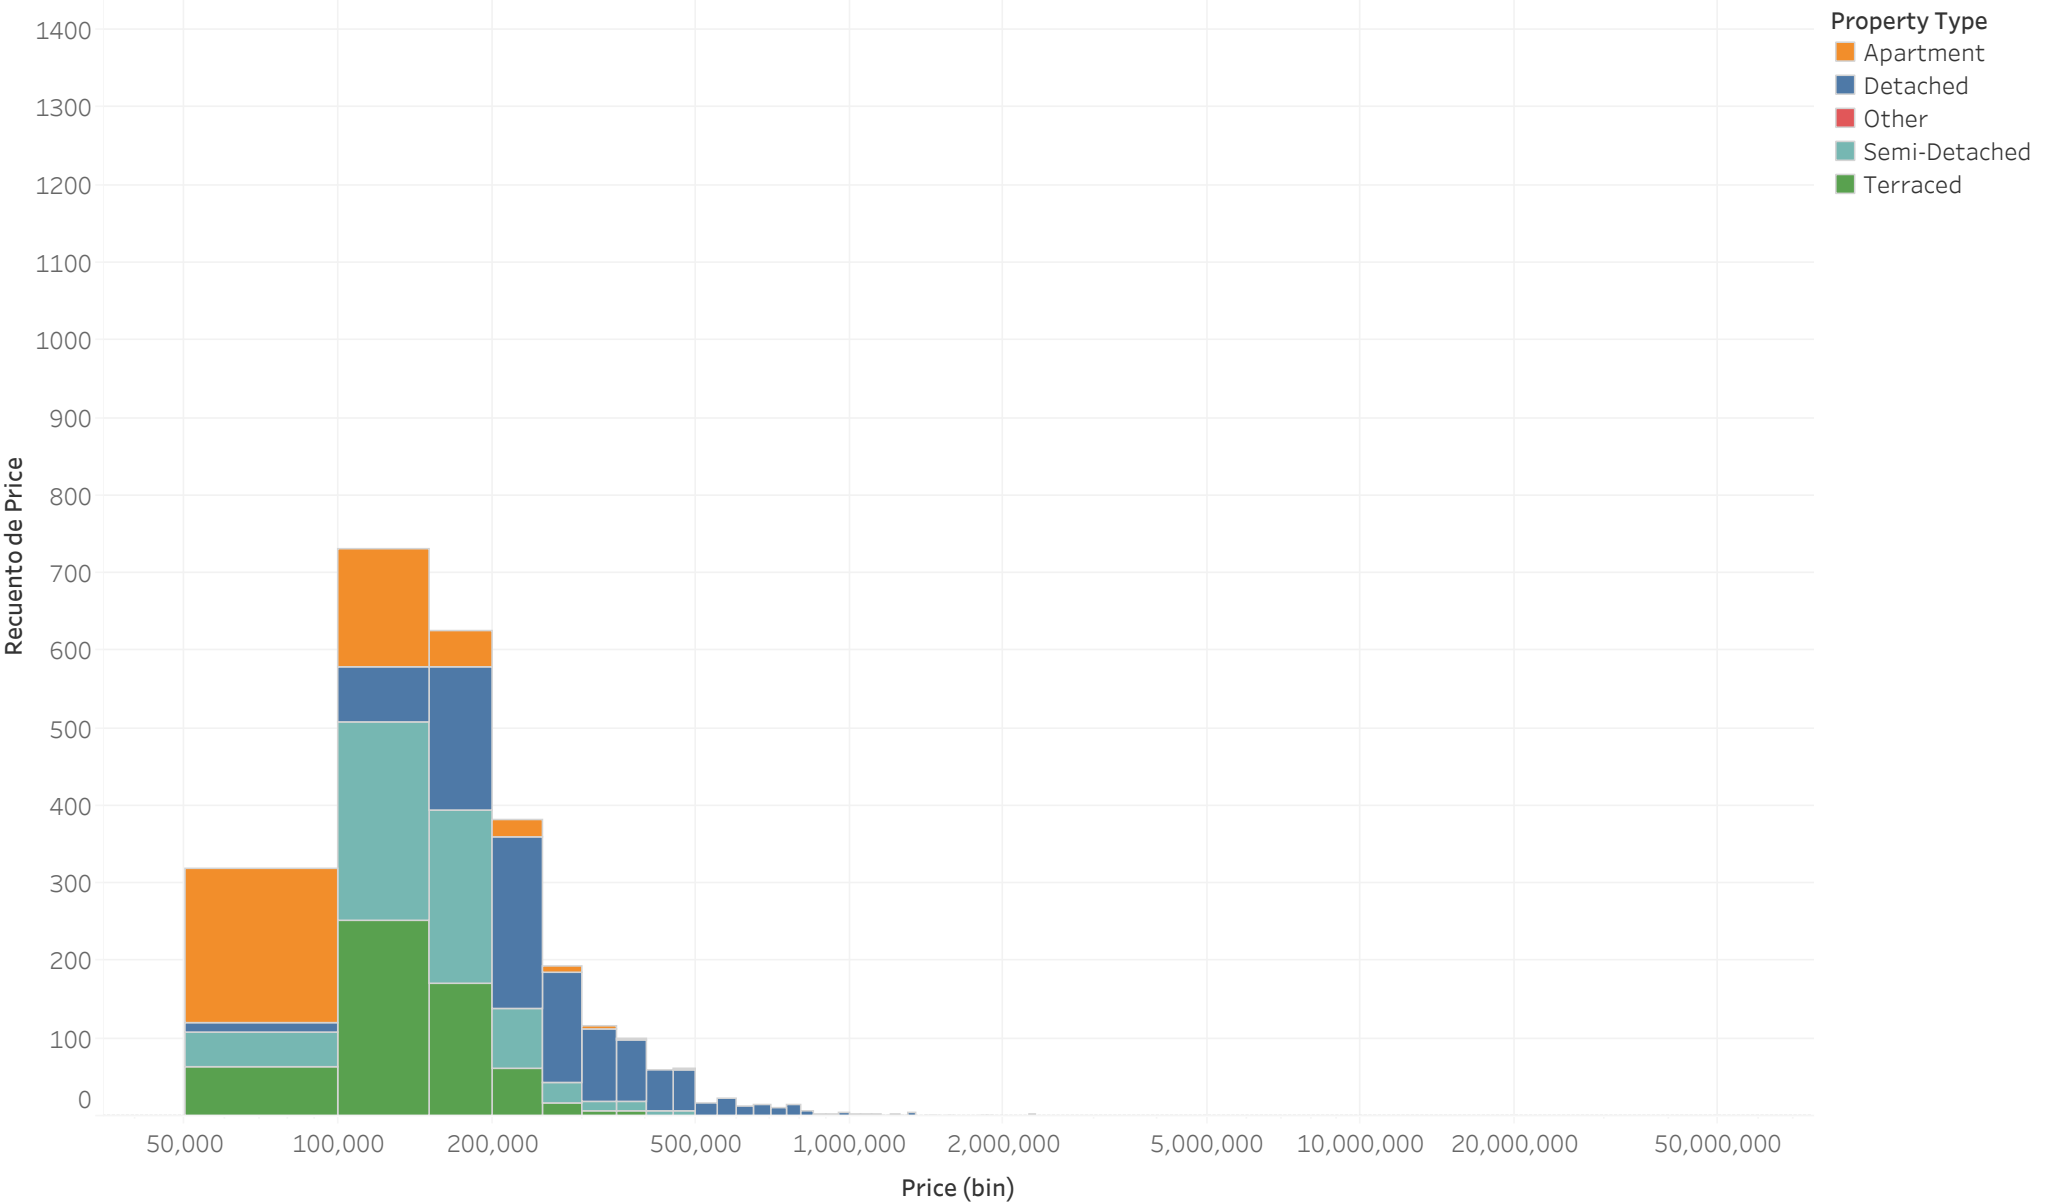

Histogram of price per year and type. Sheet 5

The plot of count of Price for Price (bin). Color shows details about Property Type.

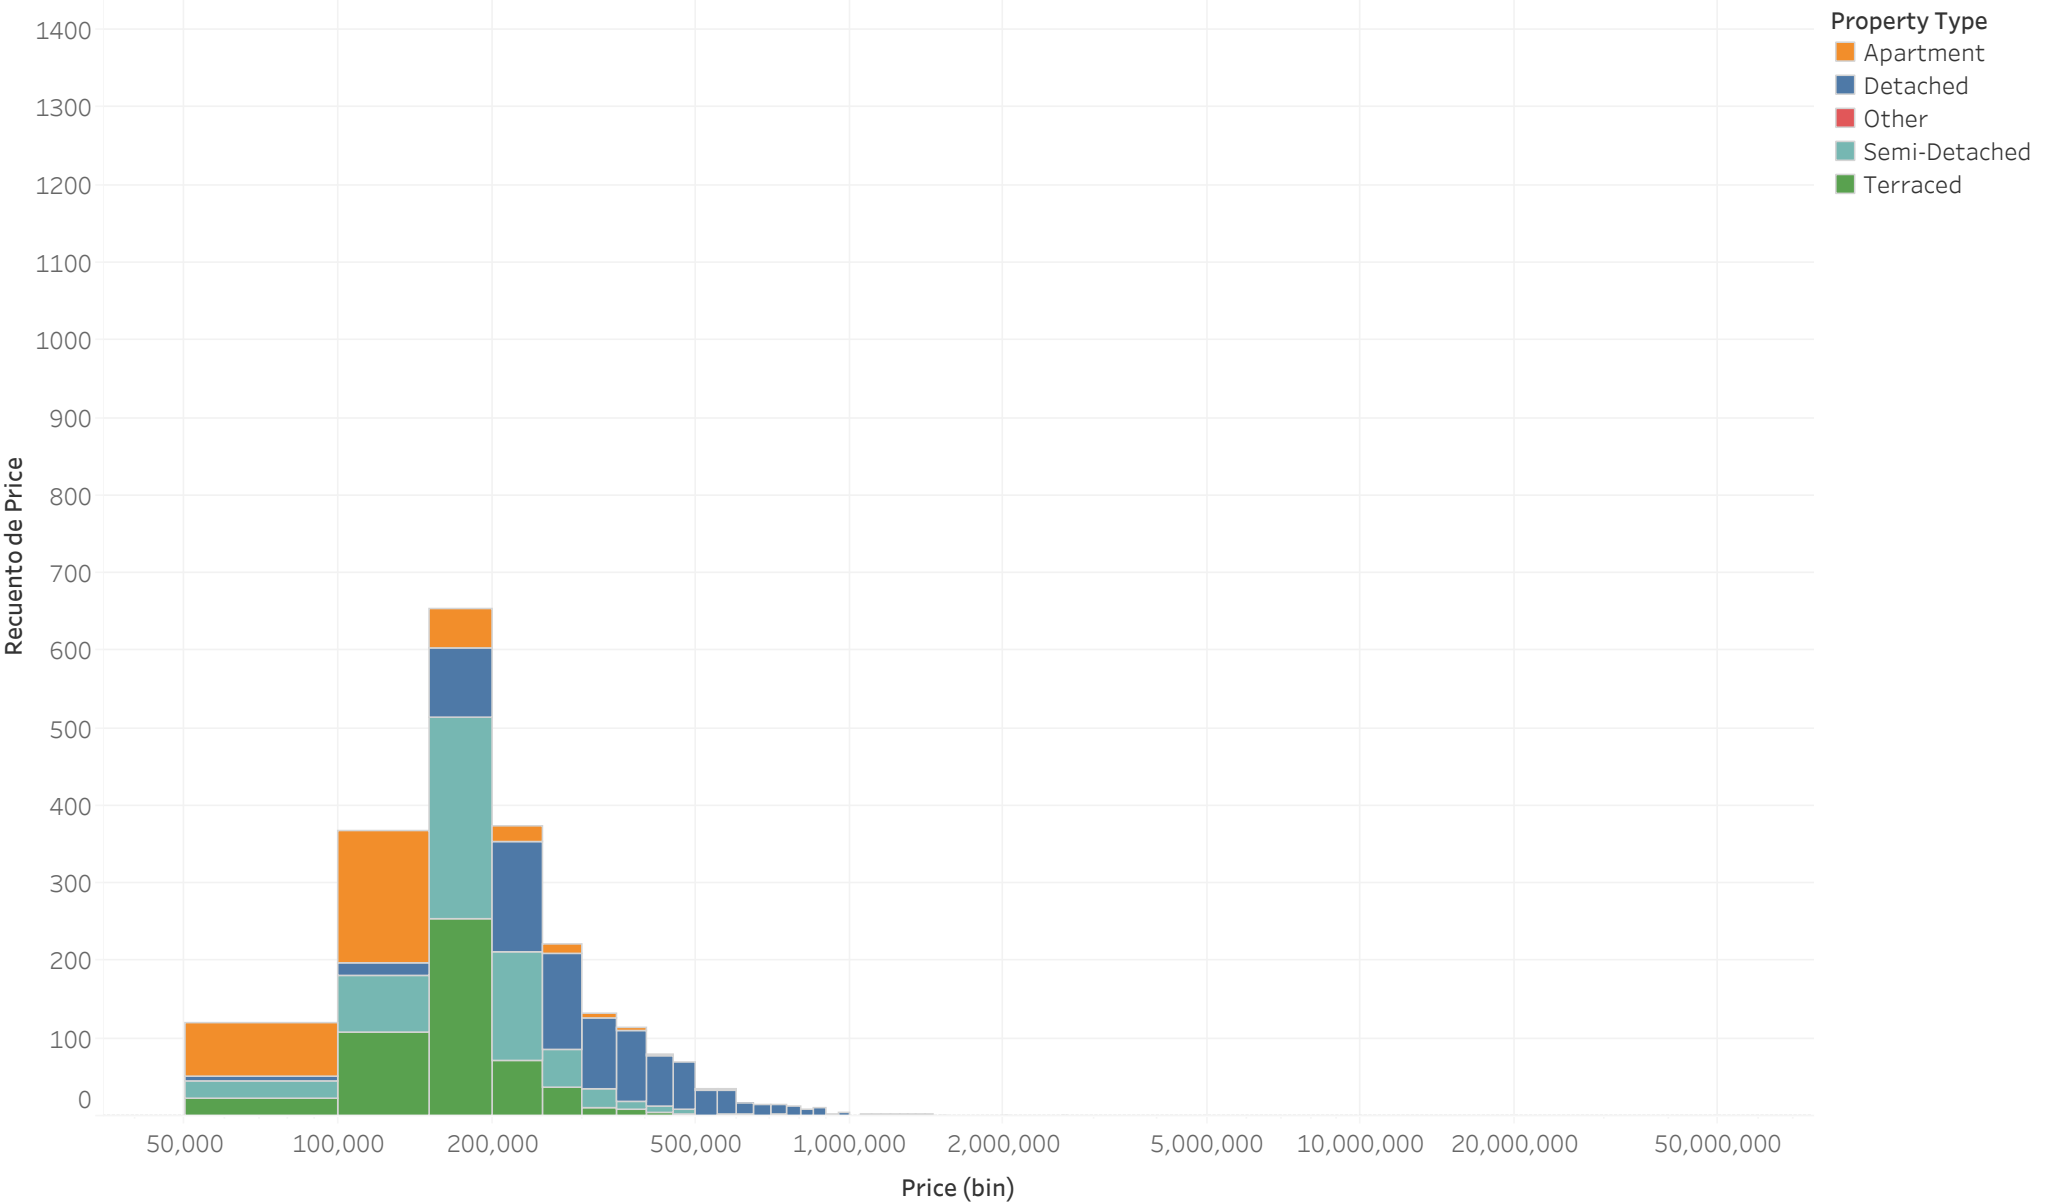

Histogram of price per year and type. Sheet 5

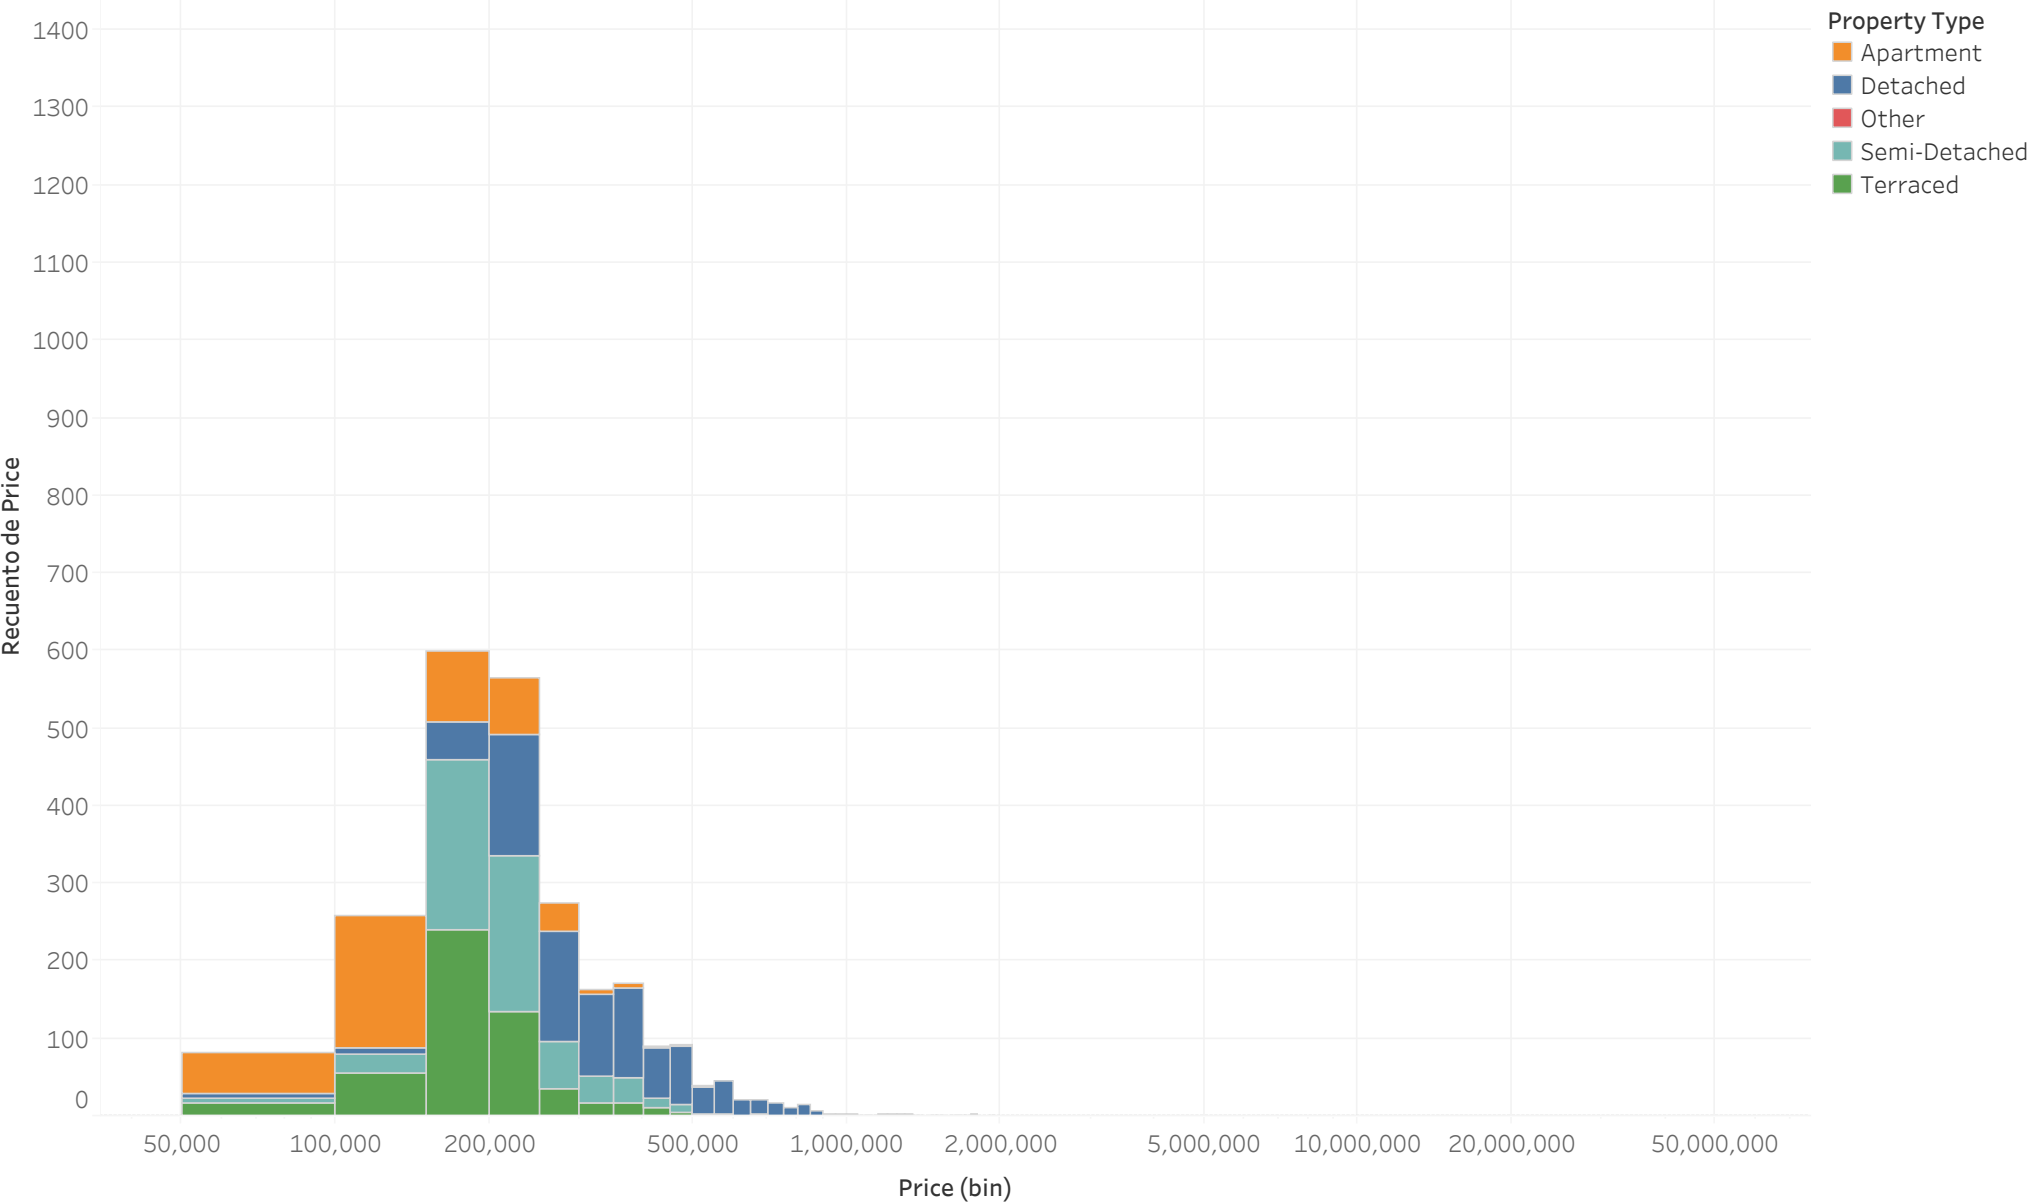

The plot of count of Price for Price (bin). Color shows details about Property Type.

Histogram of price per year and type. Sheet 5

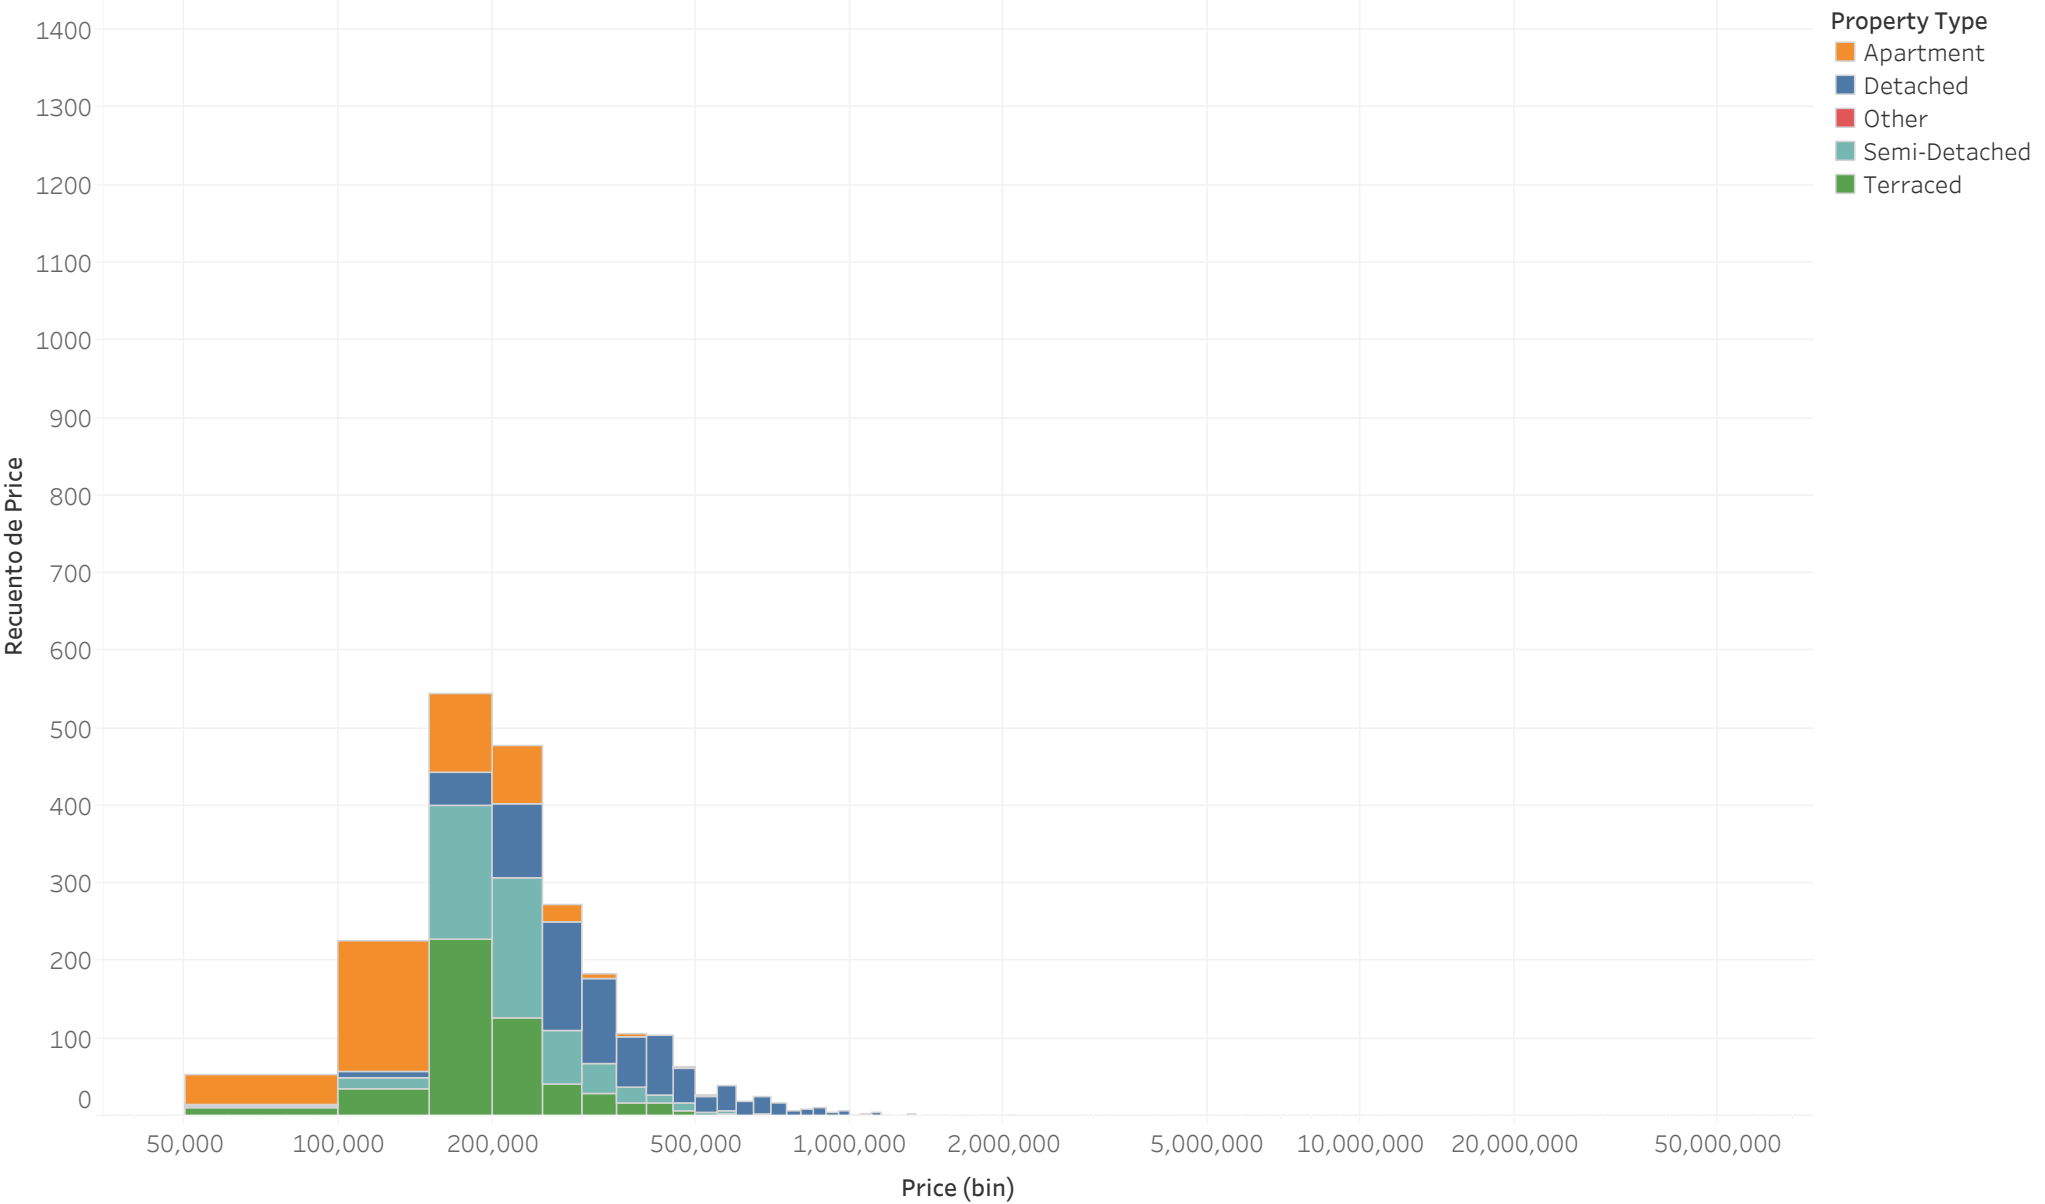

The plot of count of Price for Price (bin). Color shows details about Property Type.

Histogram of price per year and type. Sheet 5

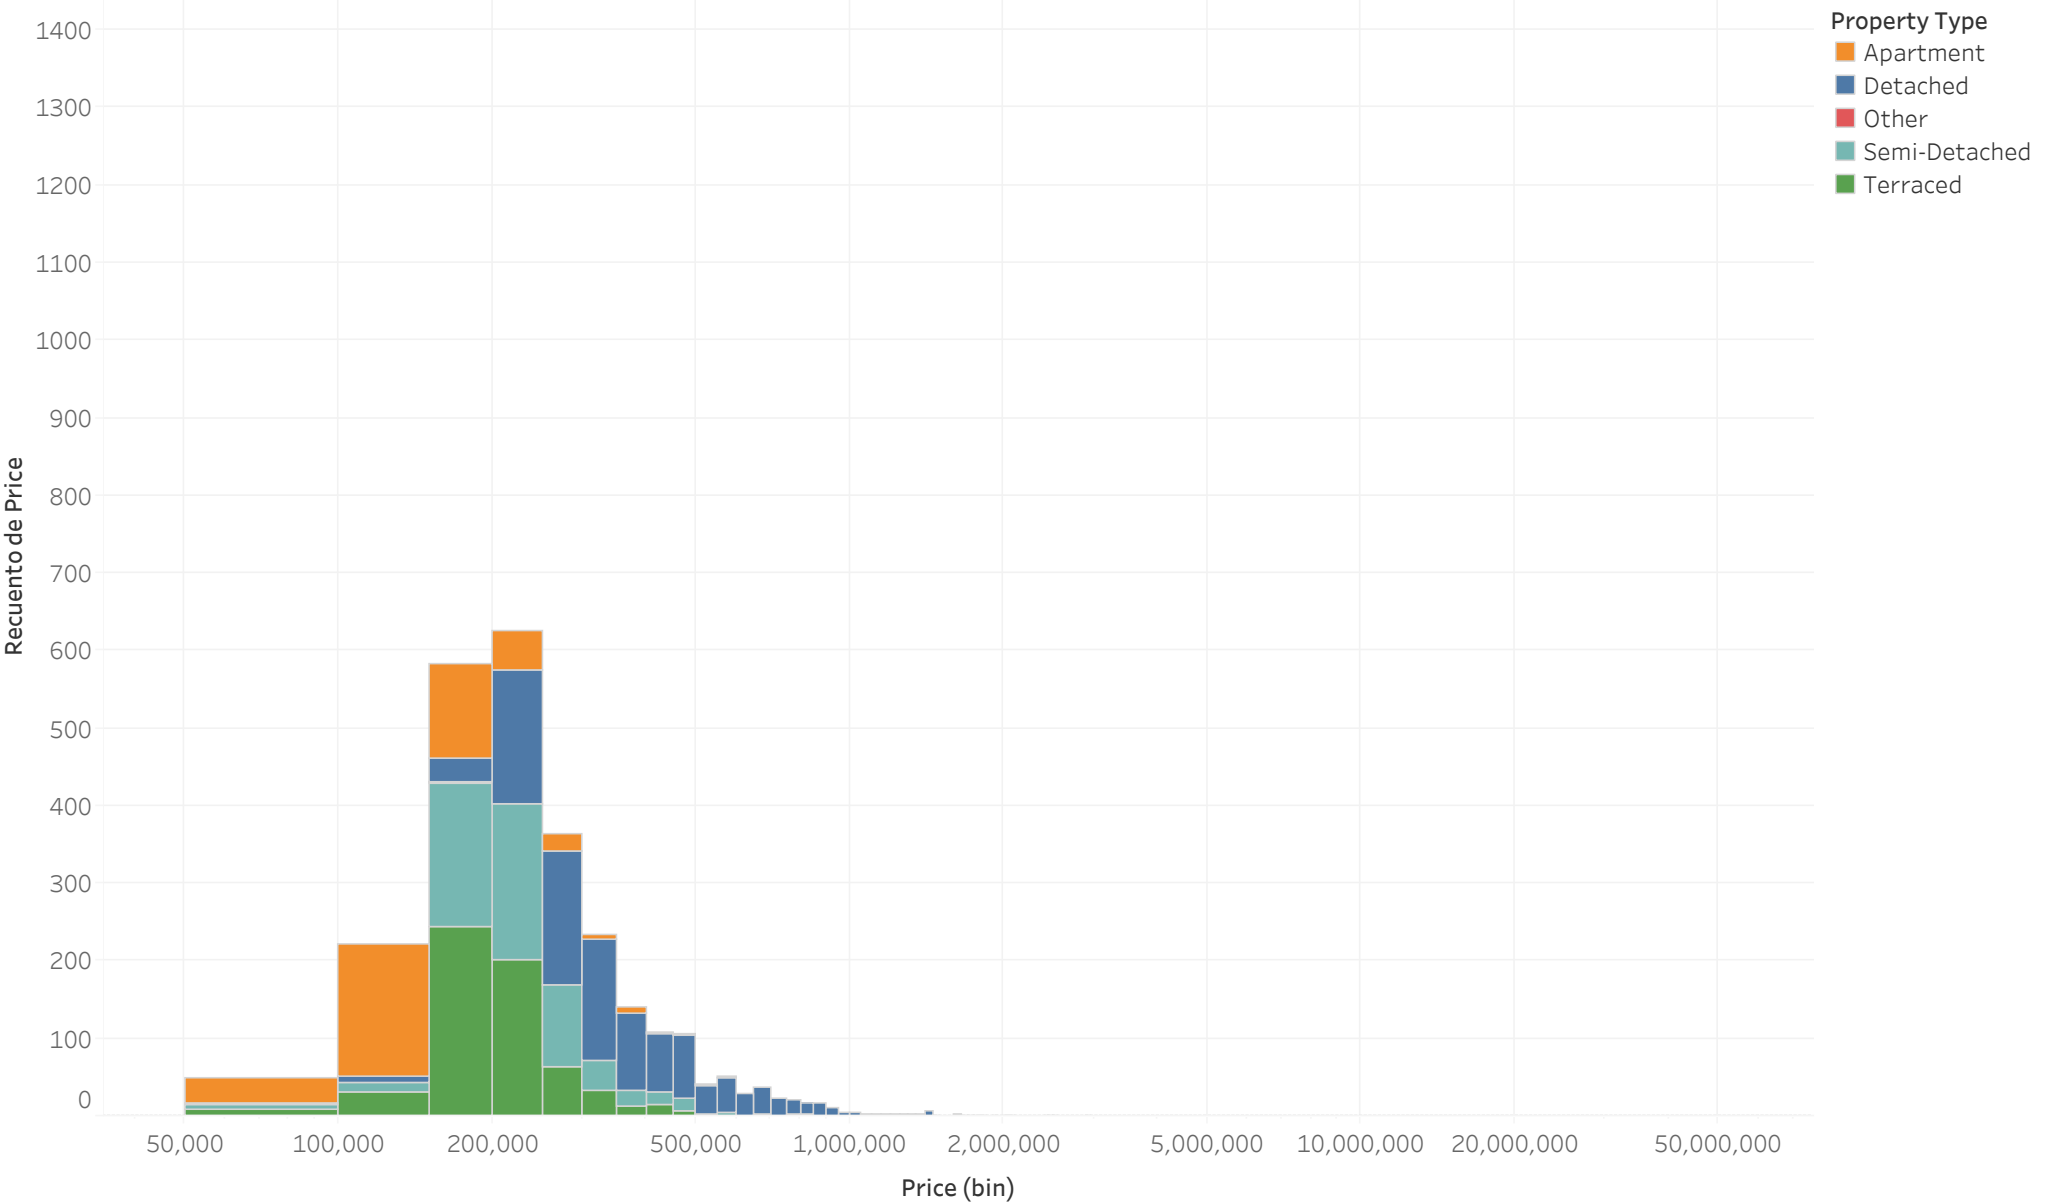

The plot of count of Price for Price (bin). Color shows details about Property Type.

Histogram of price per year and type. Sheet 5

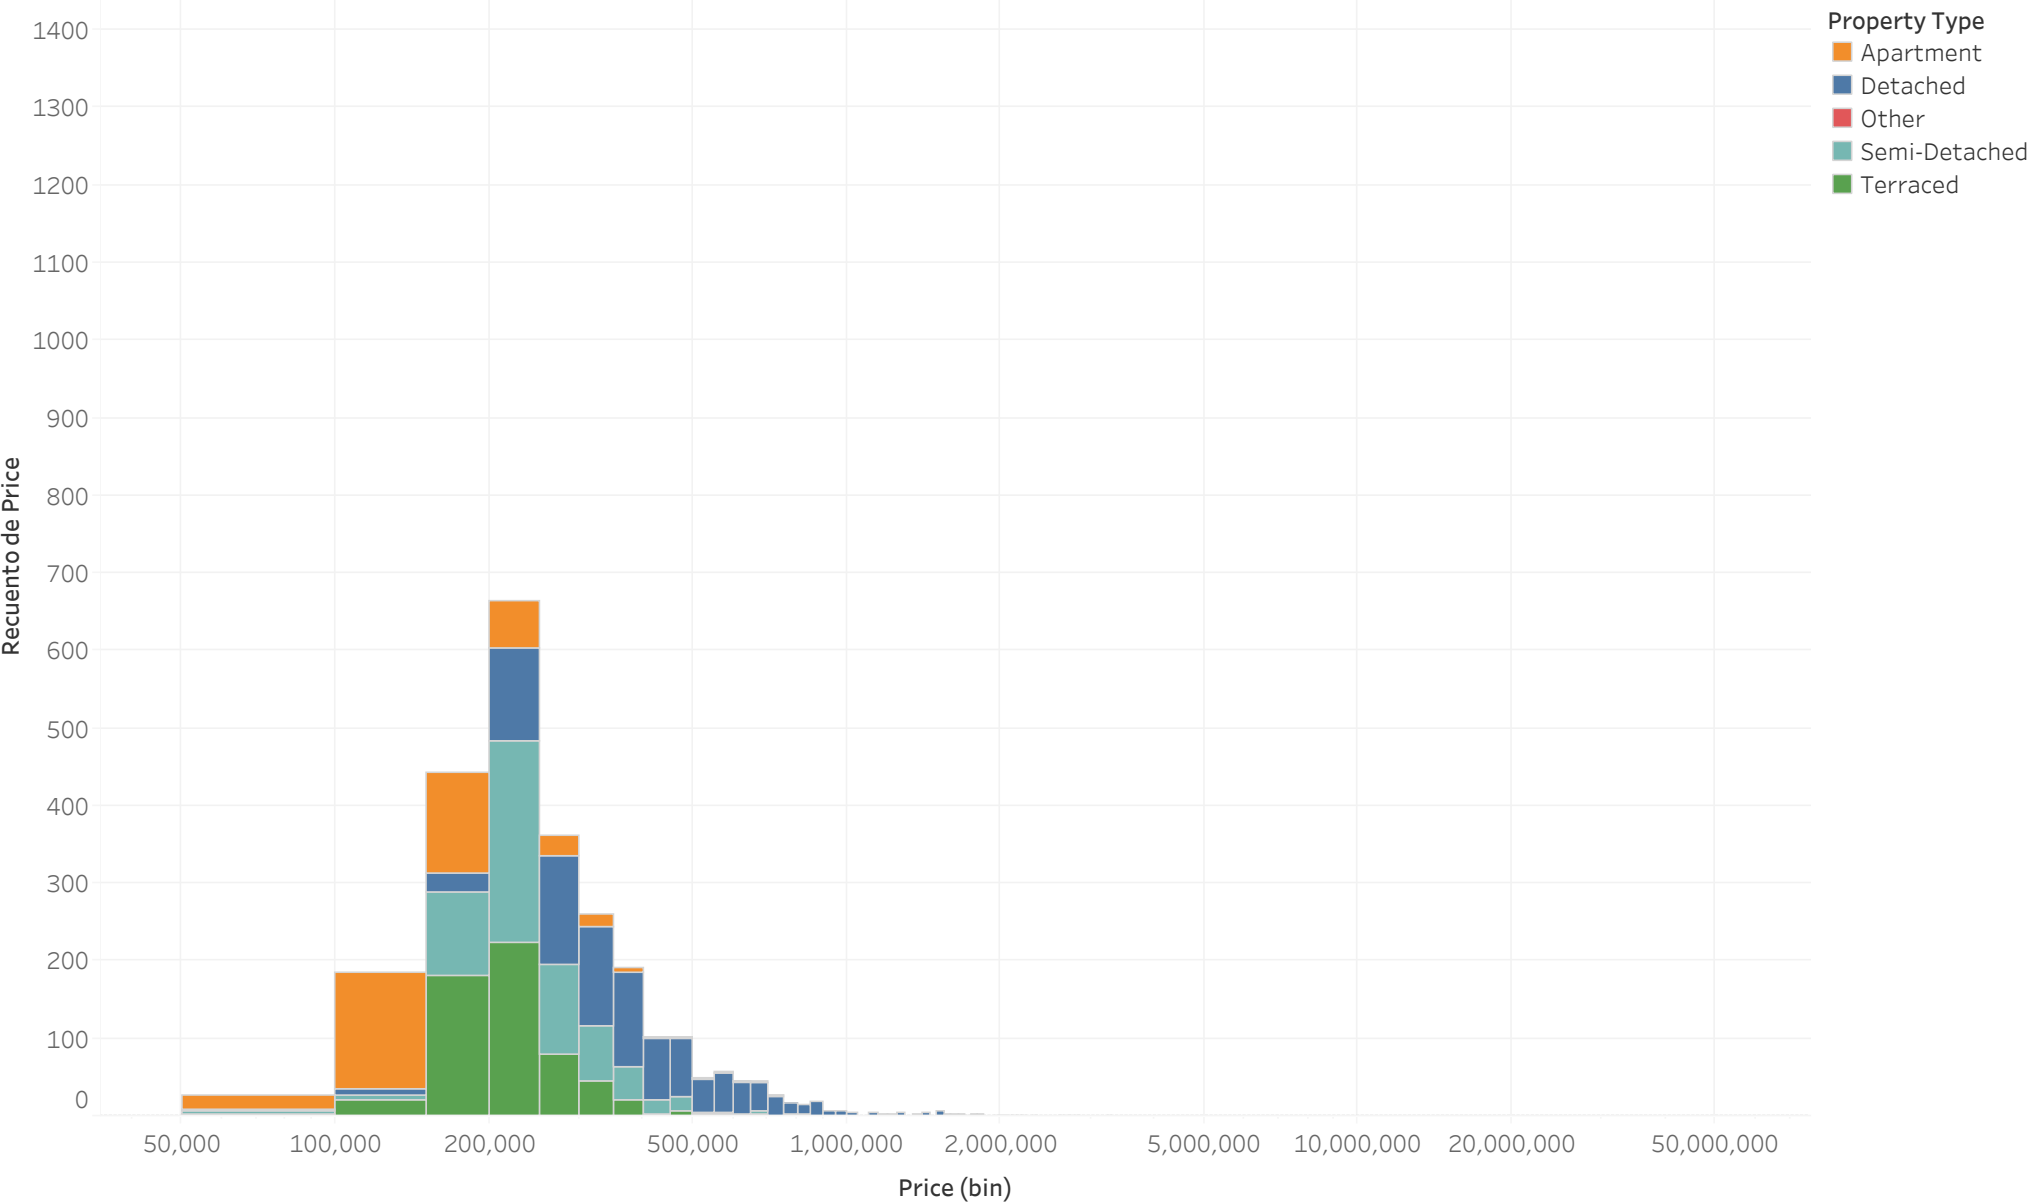

The plot of count of Price for Price (bin). Color shows details about Property Type.

Histogram of price per year and type. Sheet 5

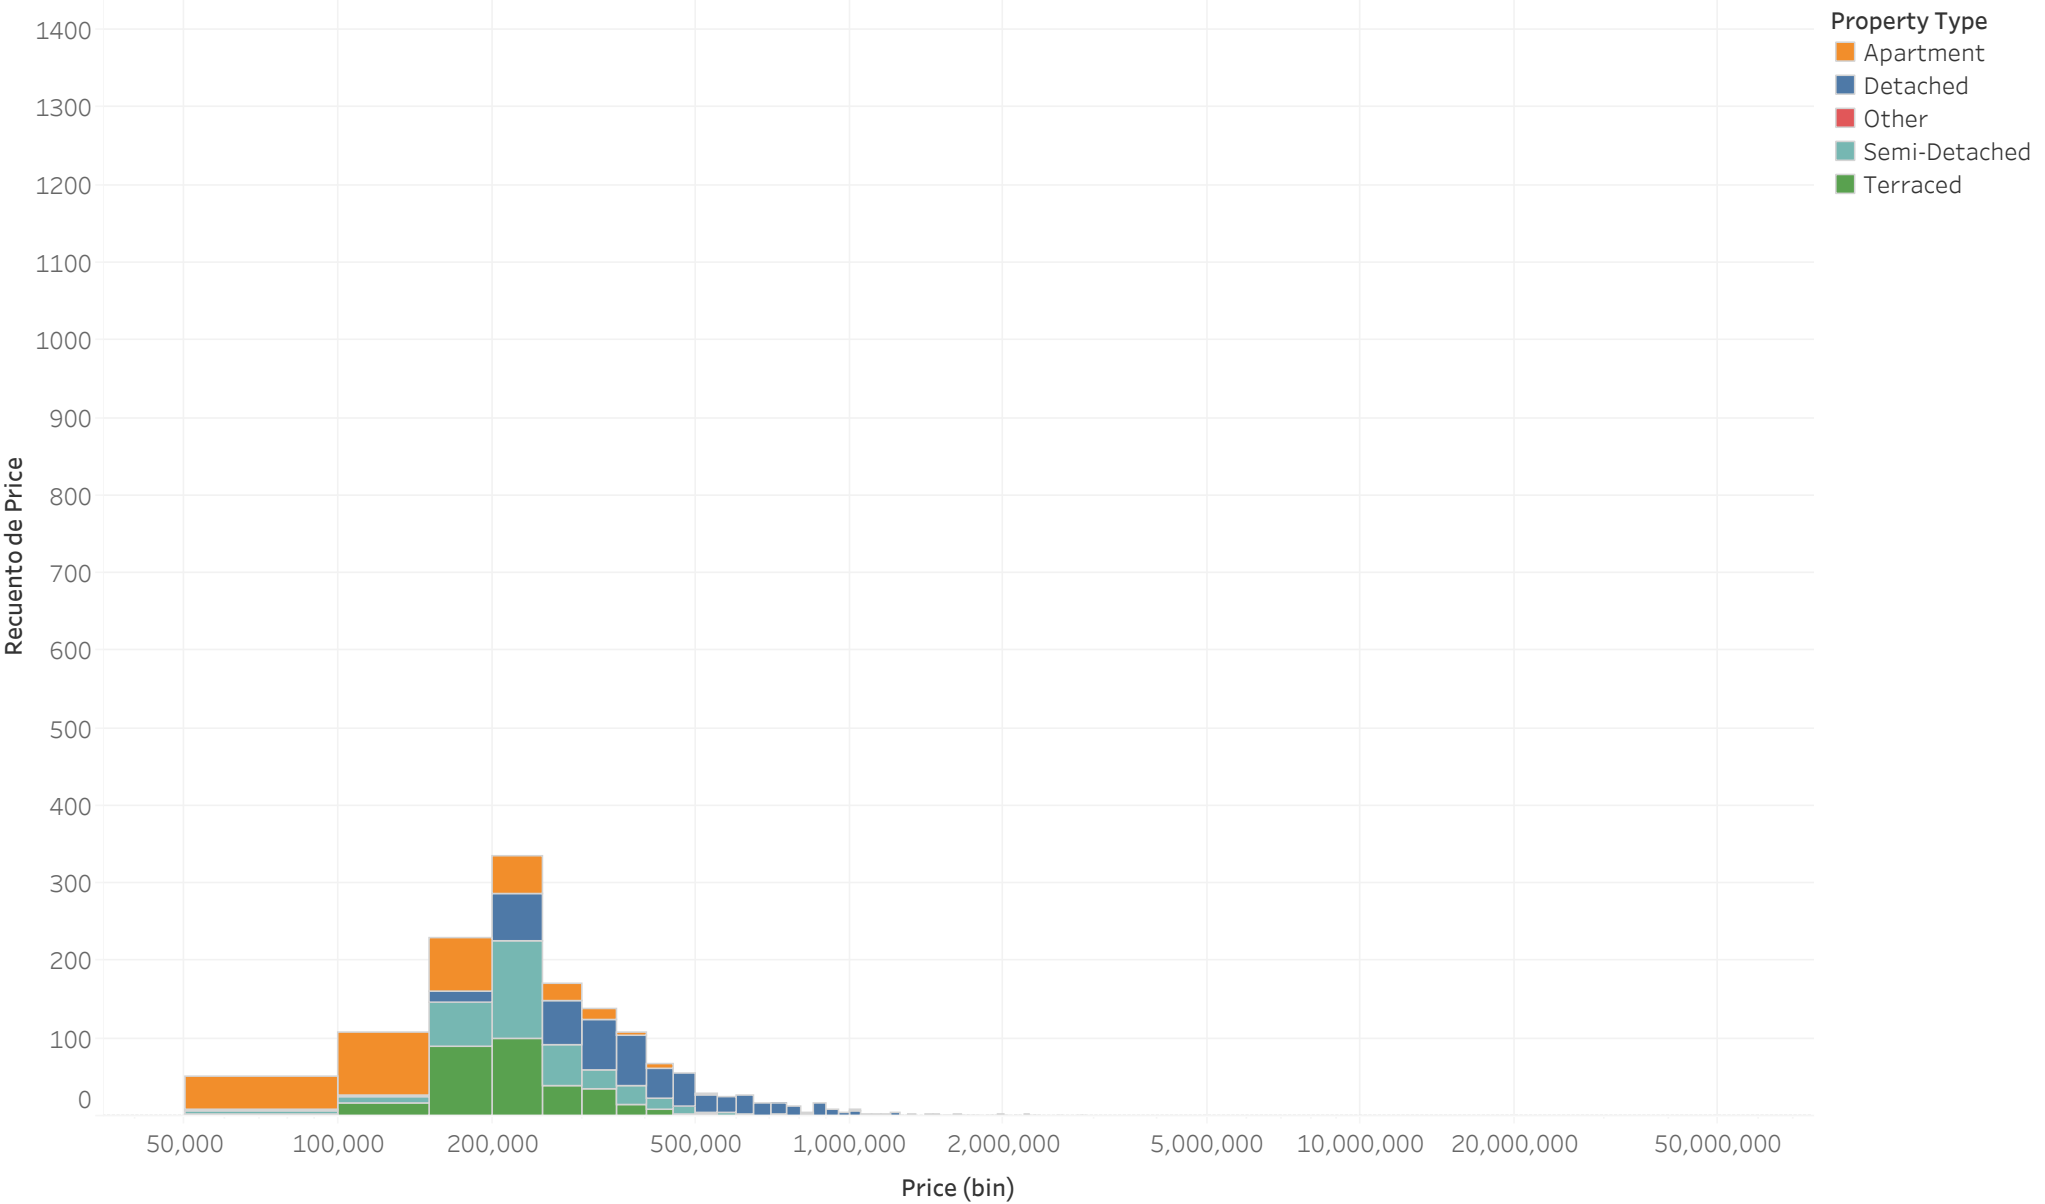

The plot of count of Price for Price (bin). Color shows details about Property Type.

Histogram of price per year and type. Sheet 5

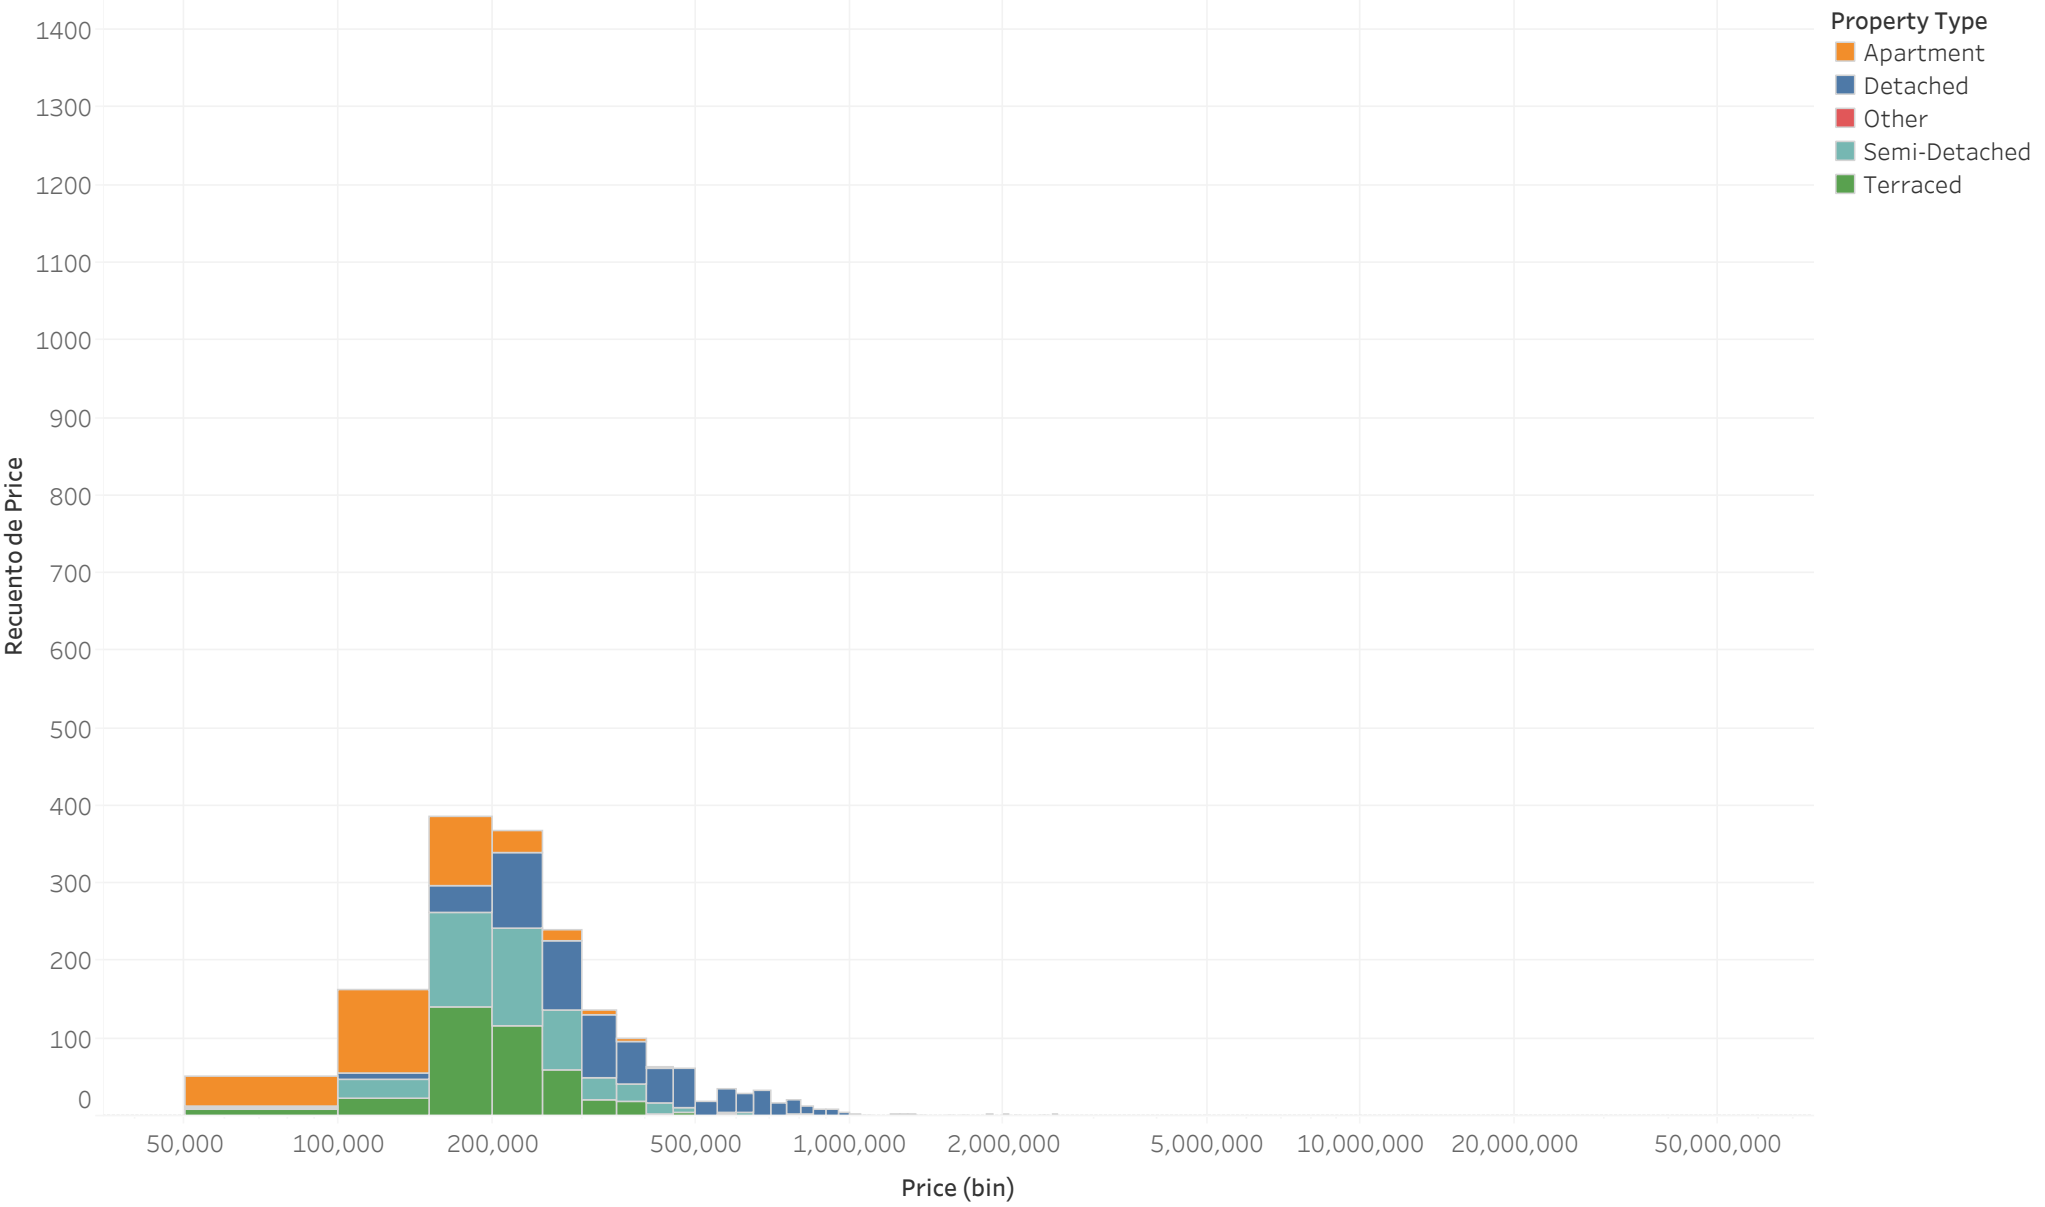

The plot of count of Price for Price (bin). Color shows details about Property Type.

Histogram of price per year and type. Sheet 5

The plot of count of Price for Price (bin). Color shows details about Property Type.

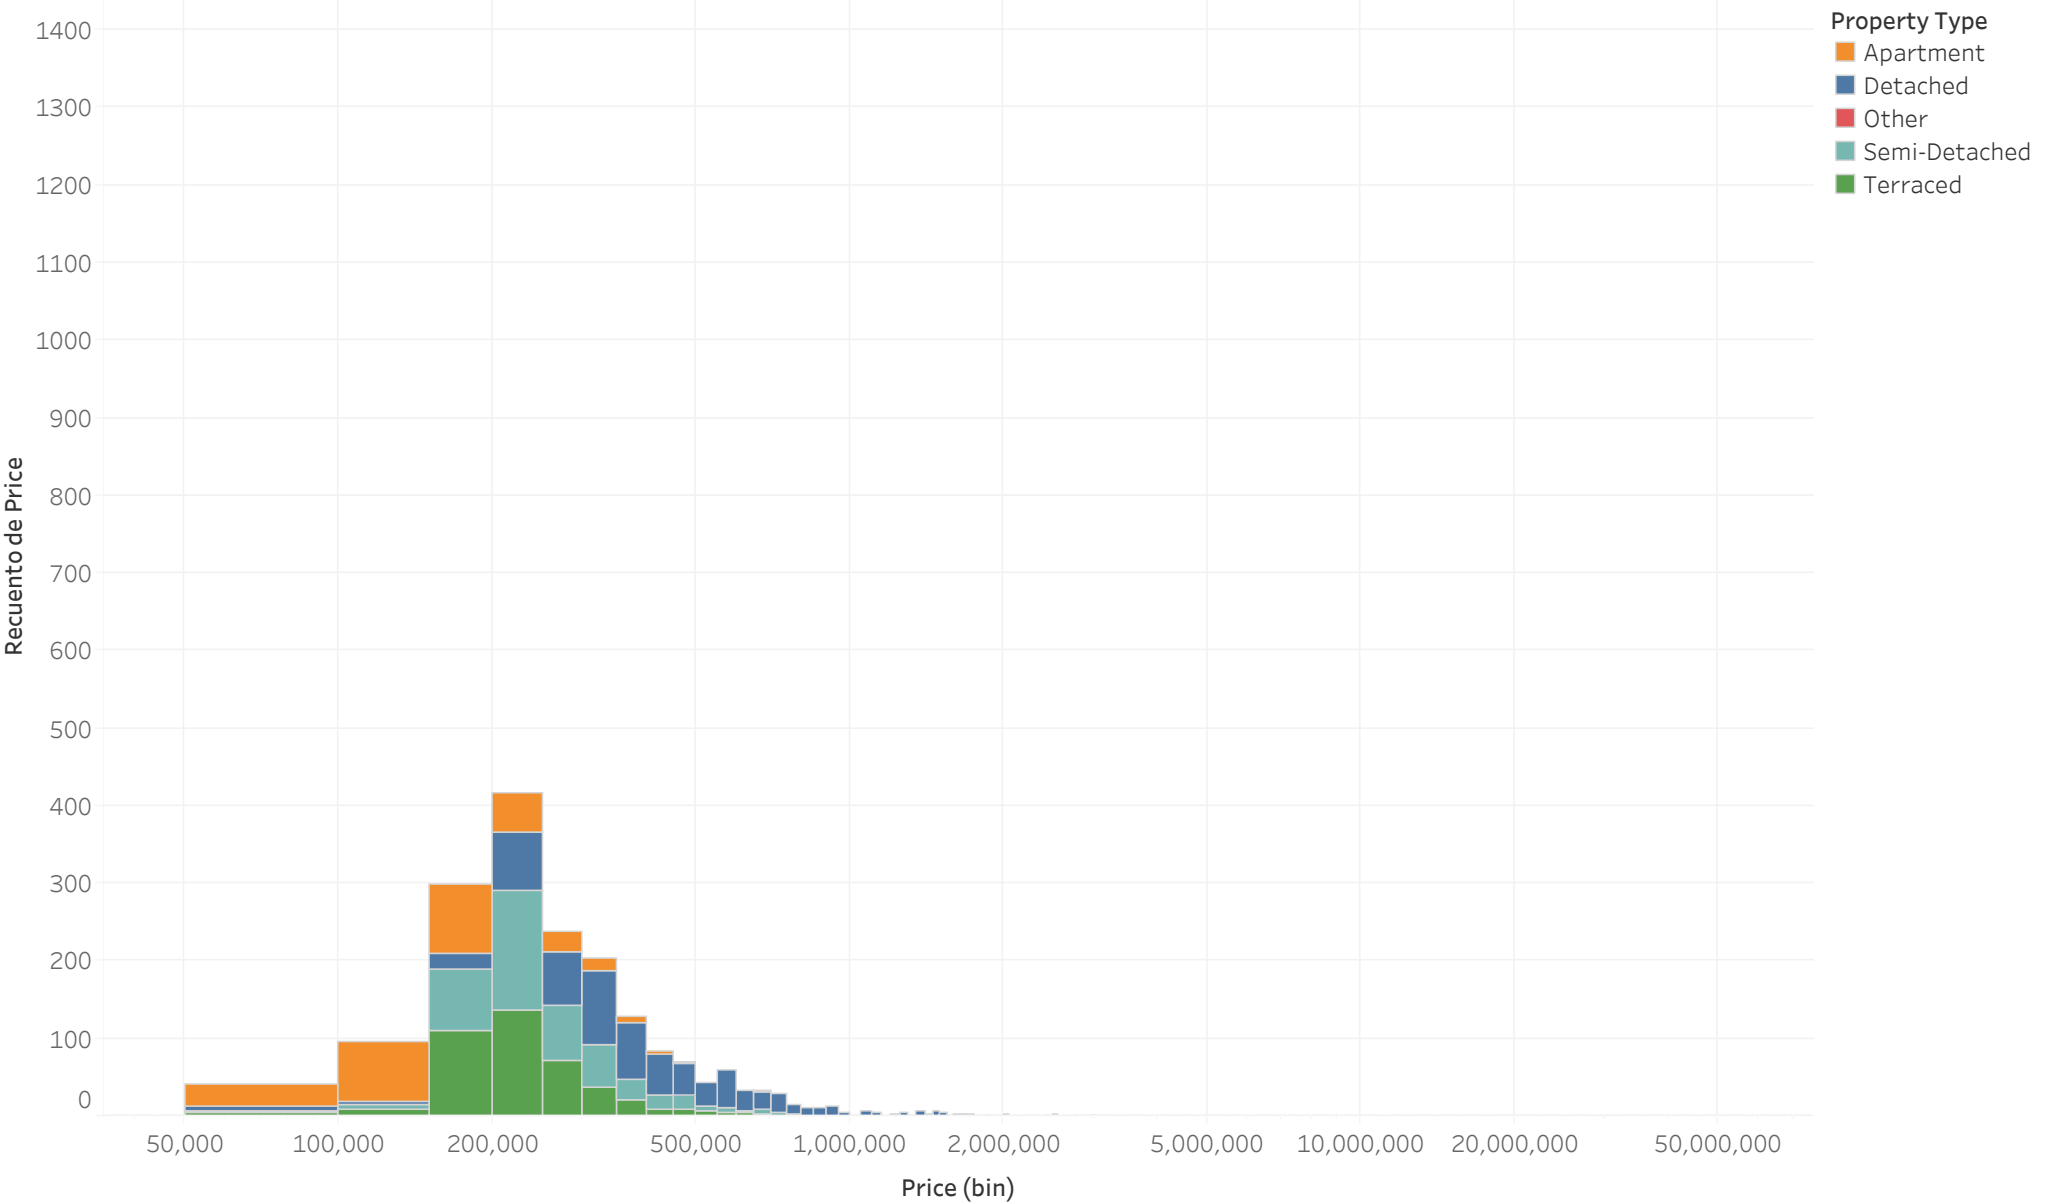

Histogram of price per year and type. Sheet 5

The plot of count of Price for Price (bin). Color shows details about Property Type.

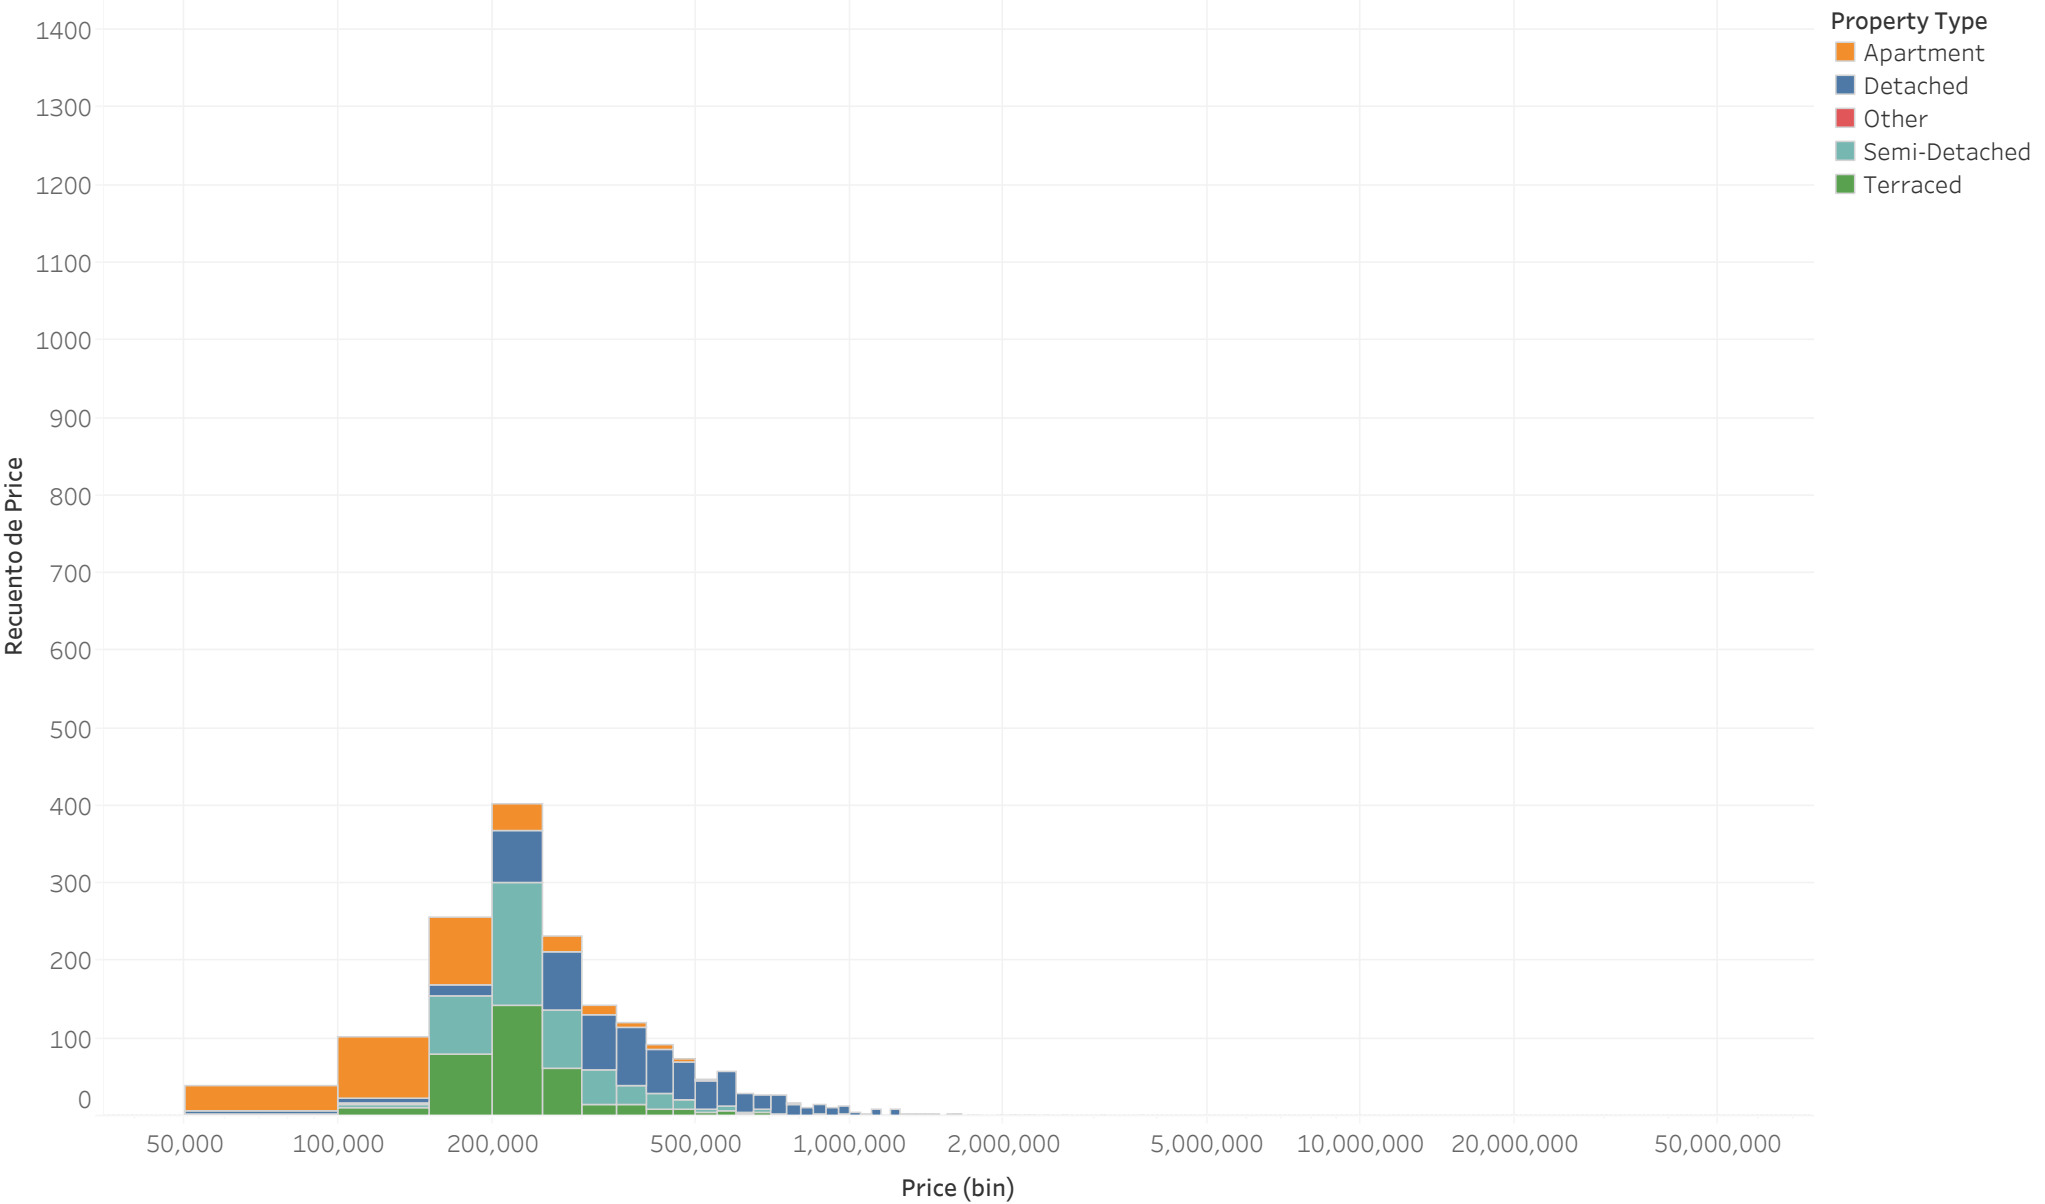

Histogram of price per year and type. Sheet 5

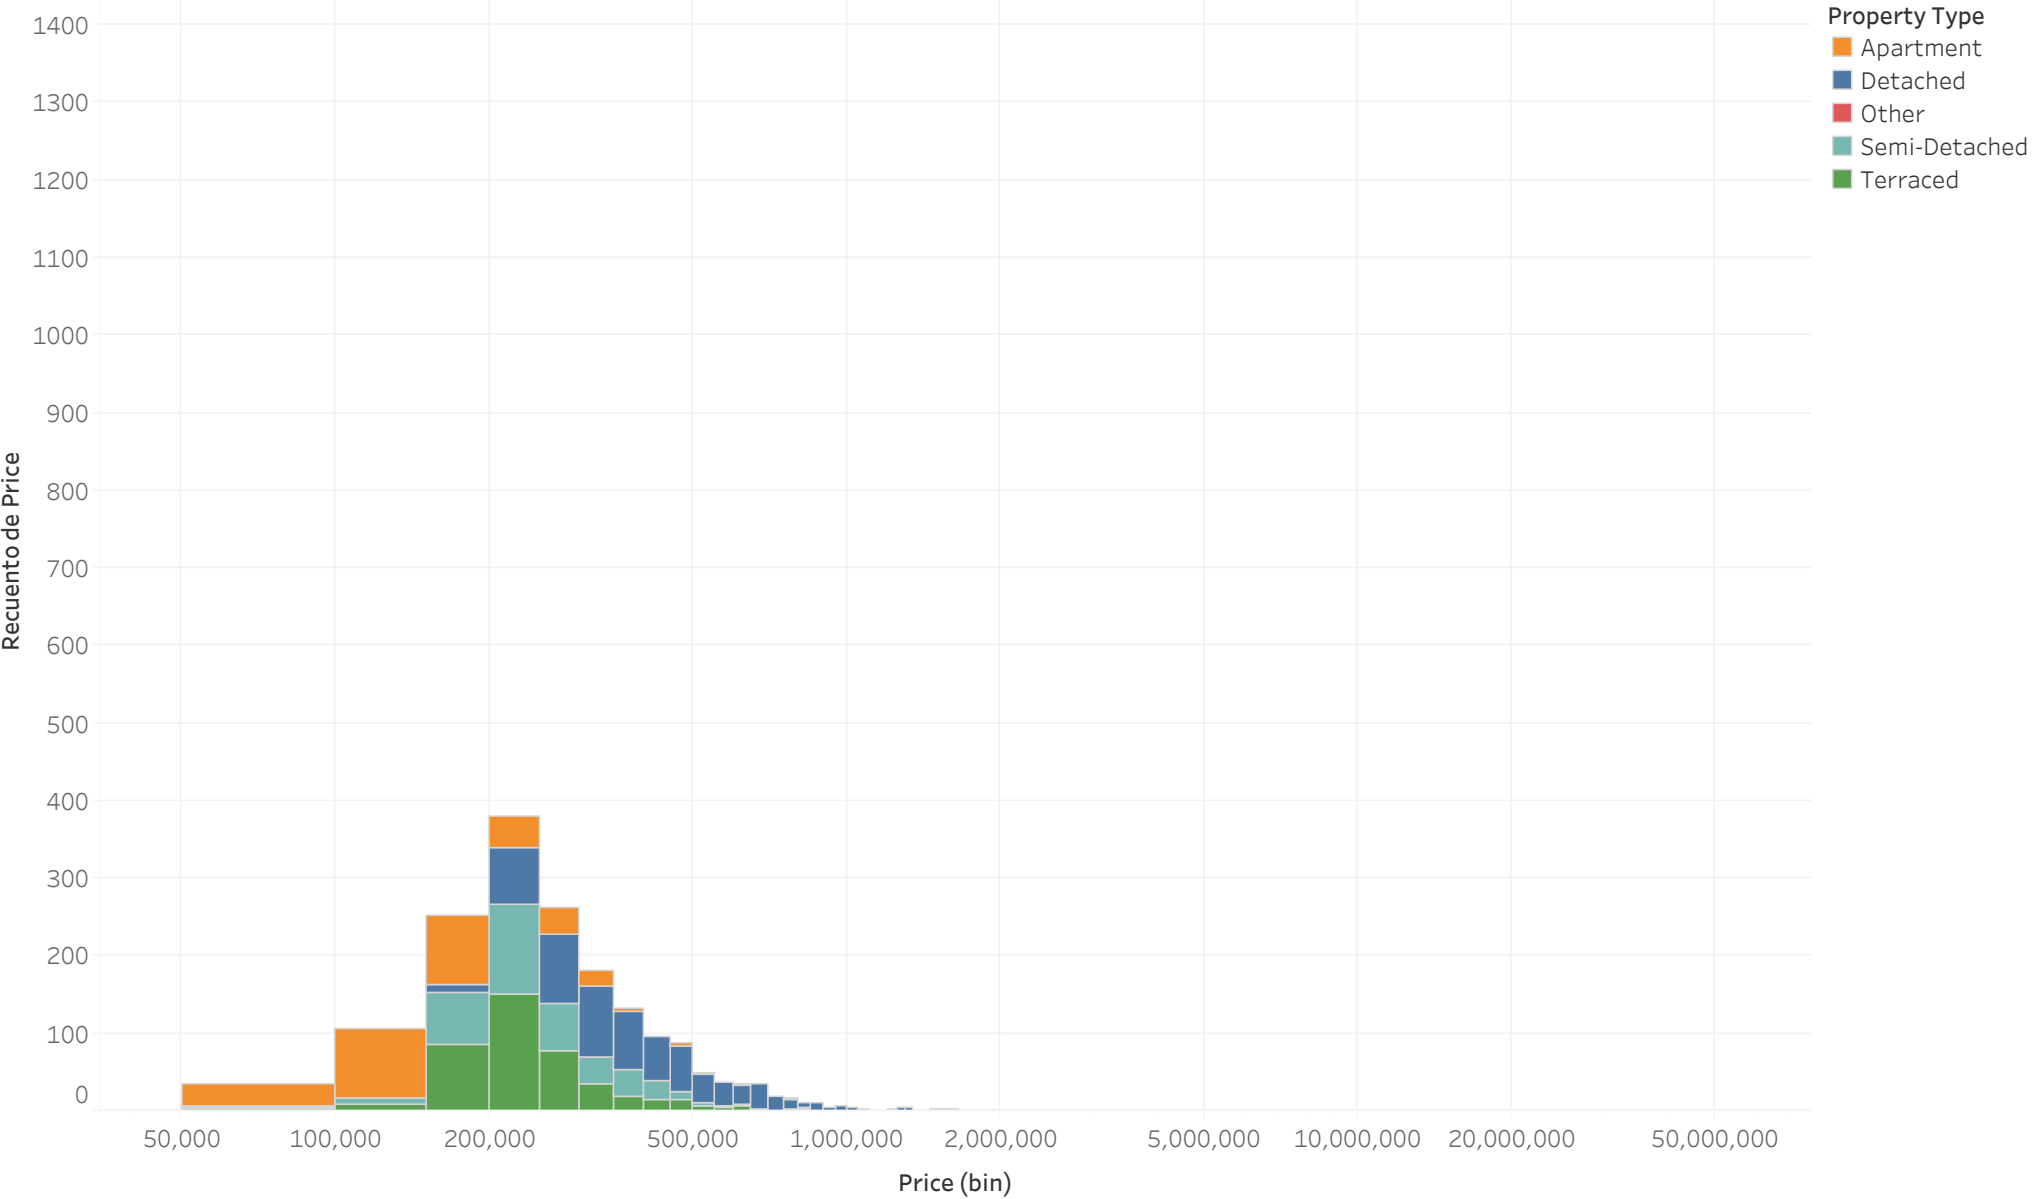

The plot of count of Price for Price (bin). Color shows details about Property Type.

Histogram of price per year and type. Sheet 5

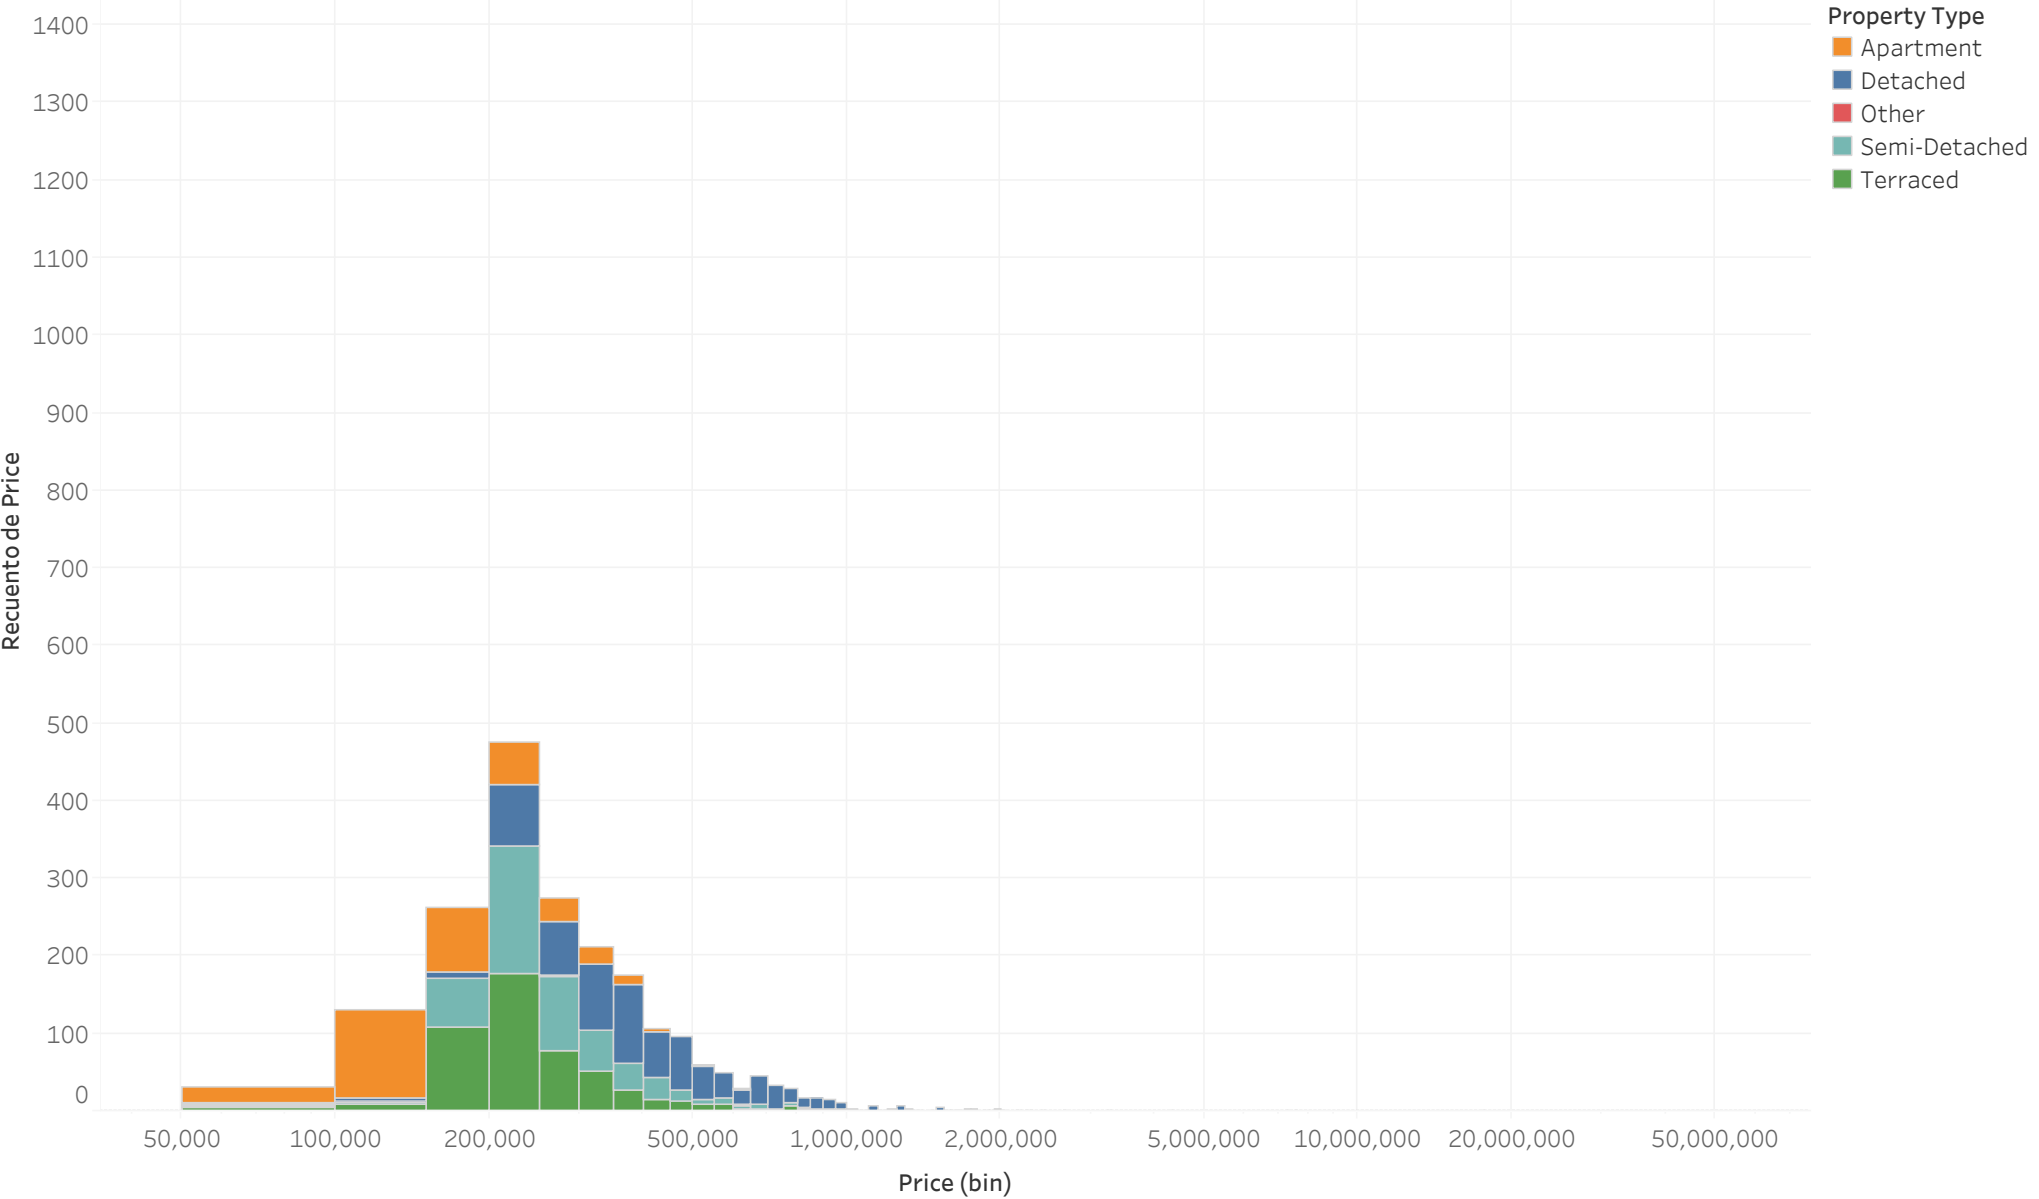

The plot of count of Price for Price (bin). Color shows details about Property Type.

Histogram of price per year and type. Sheet 5

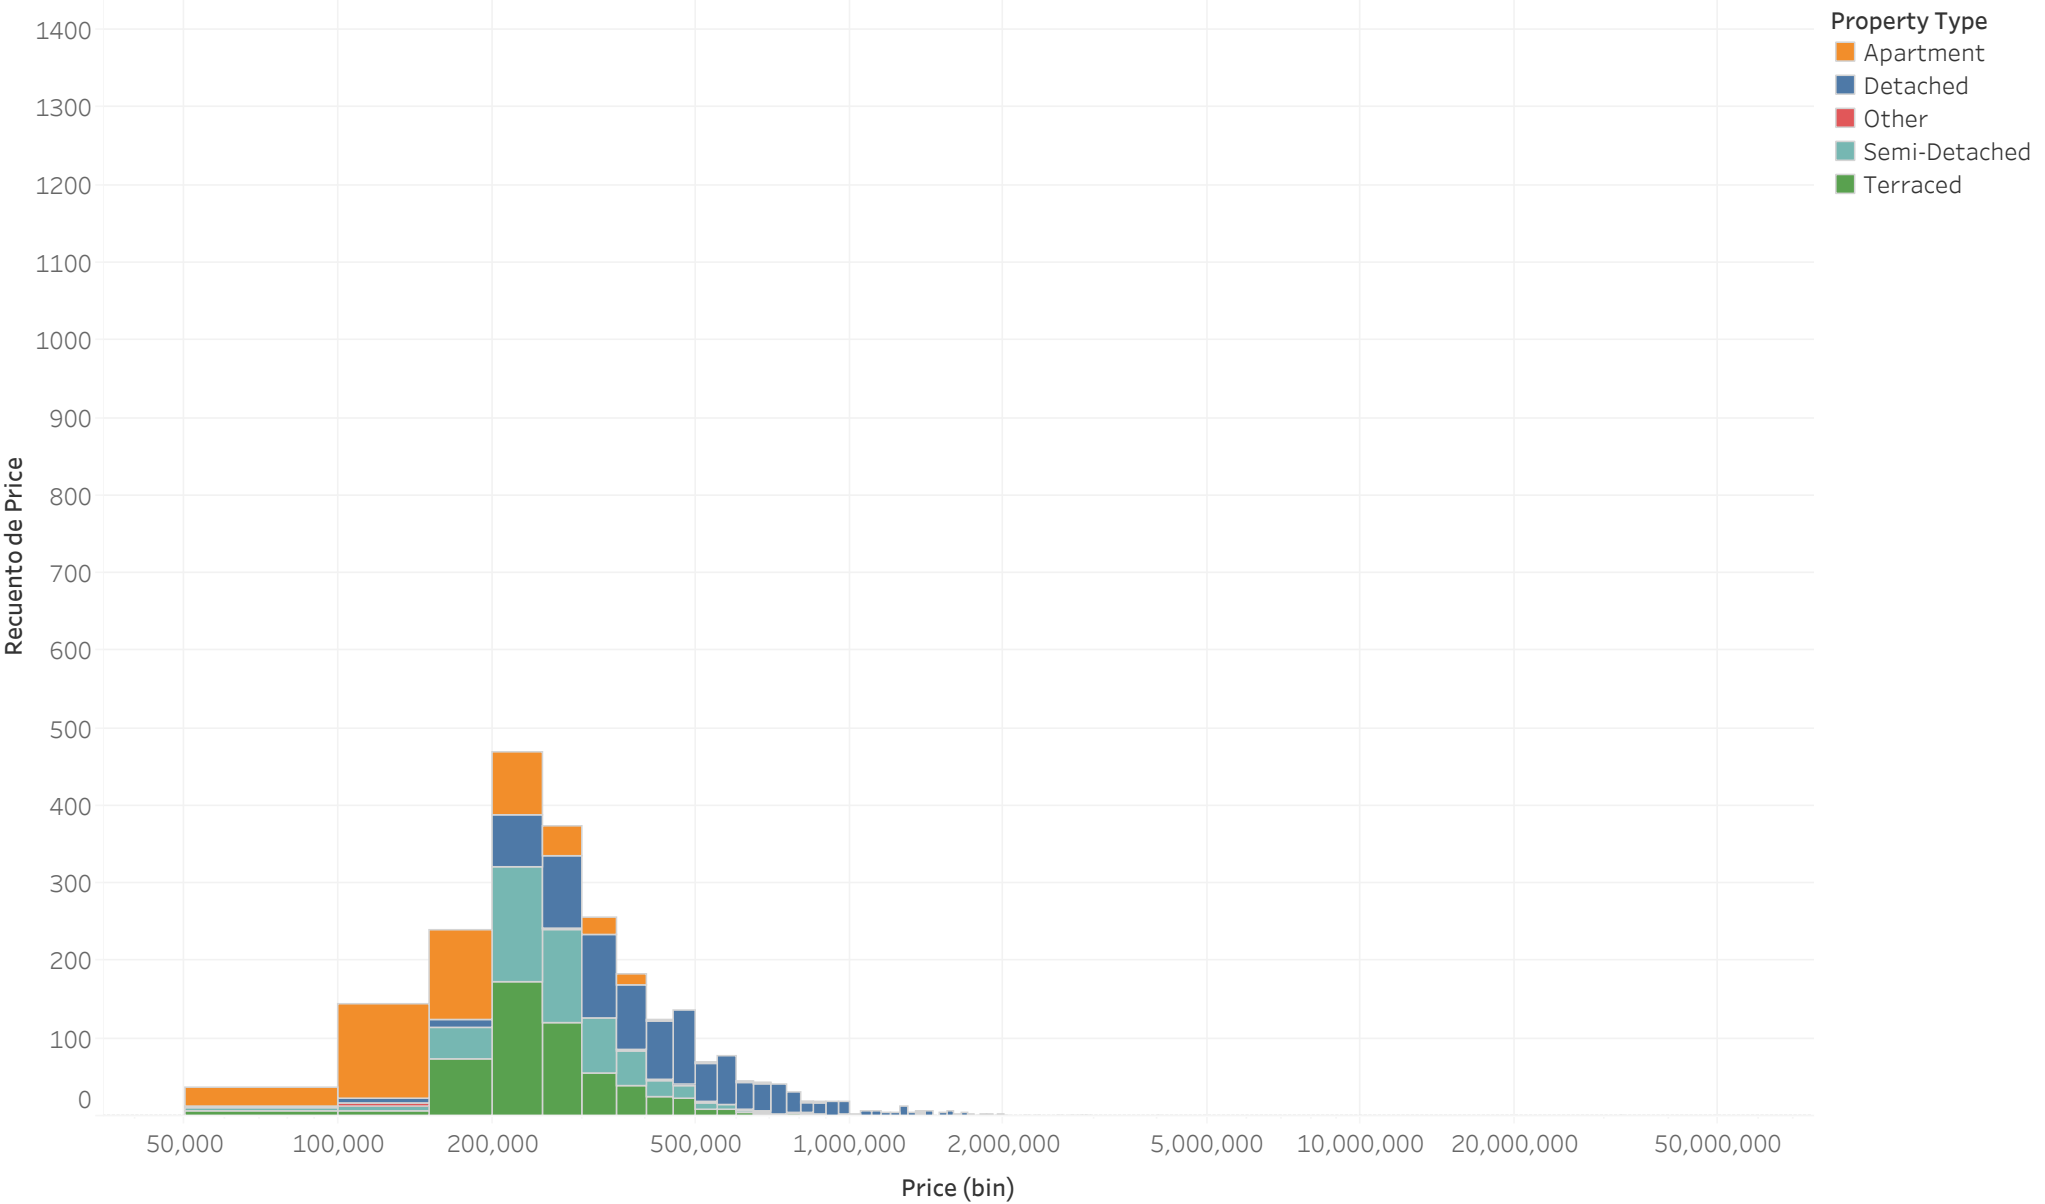

The plot of count of Price for Price (bin). Color shows details about Property Type.

Histogram of price per year and type. Sheet 5

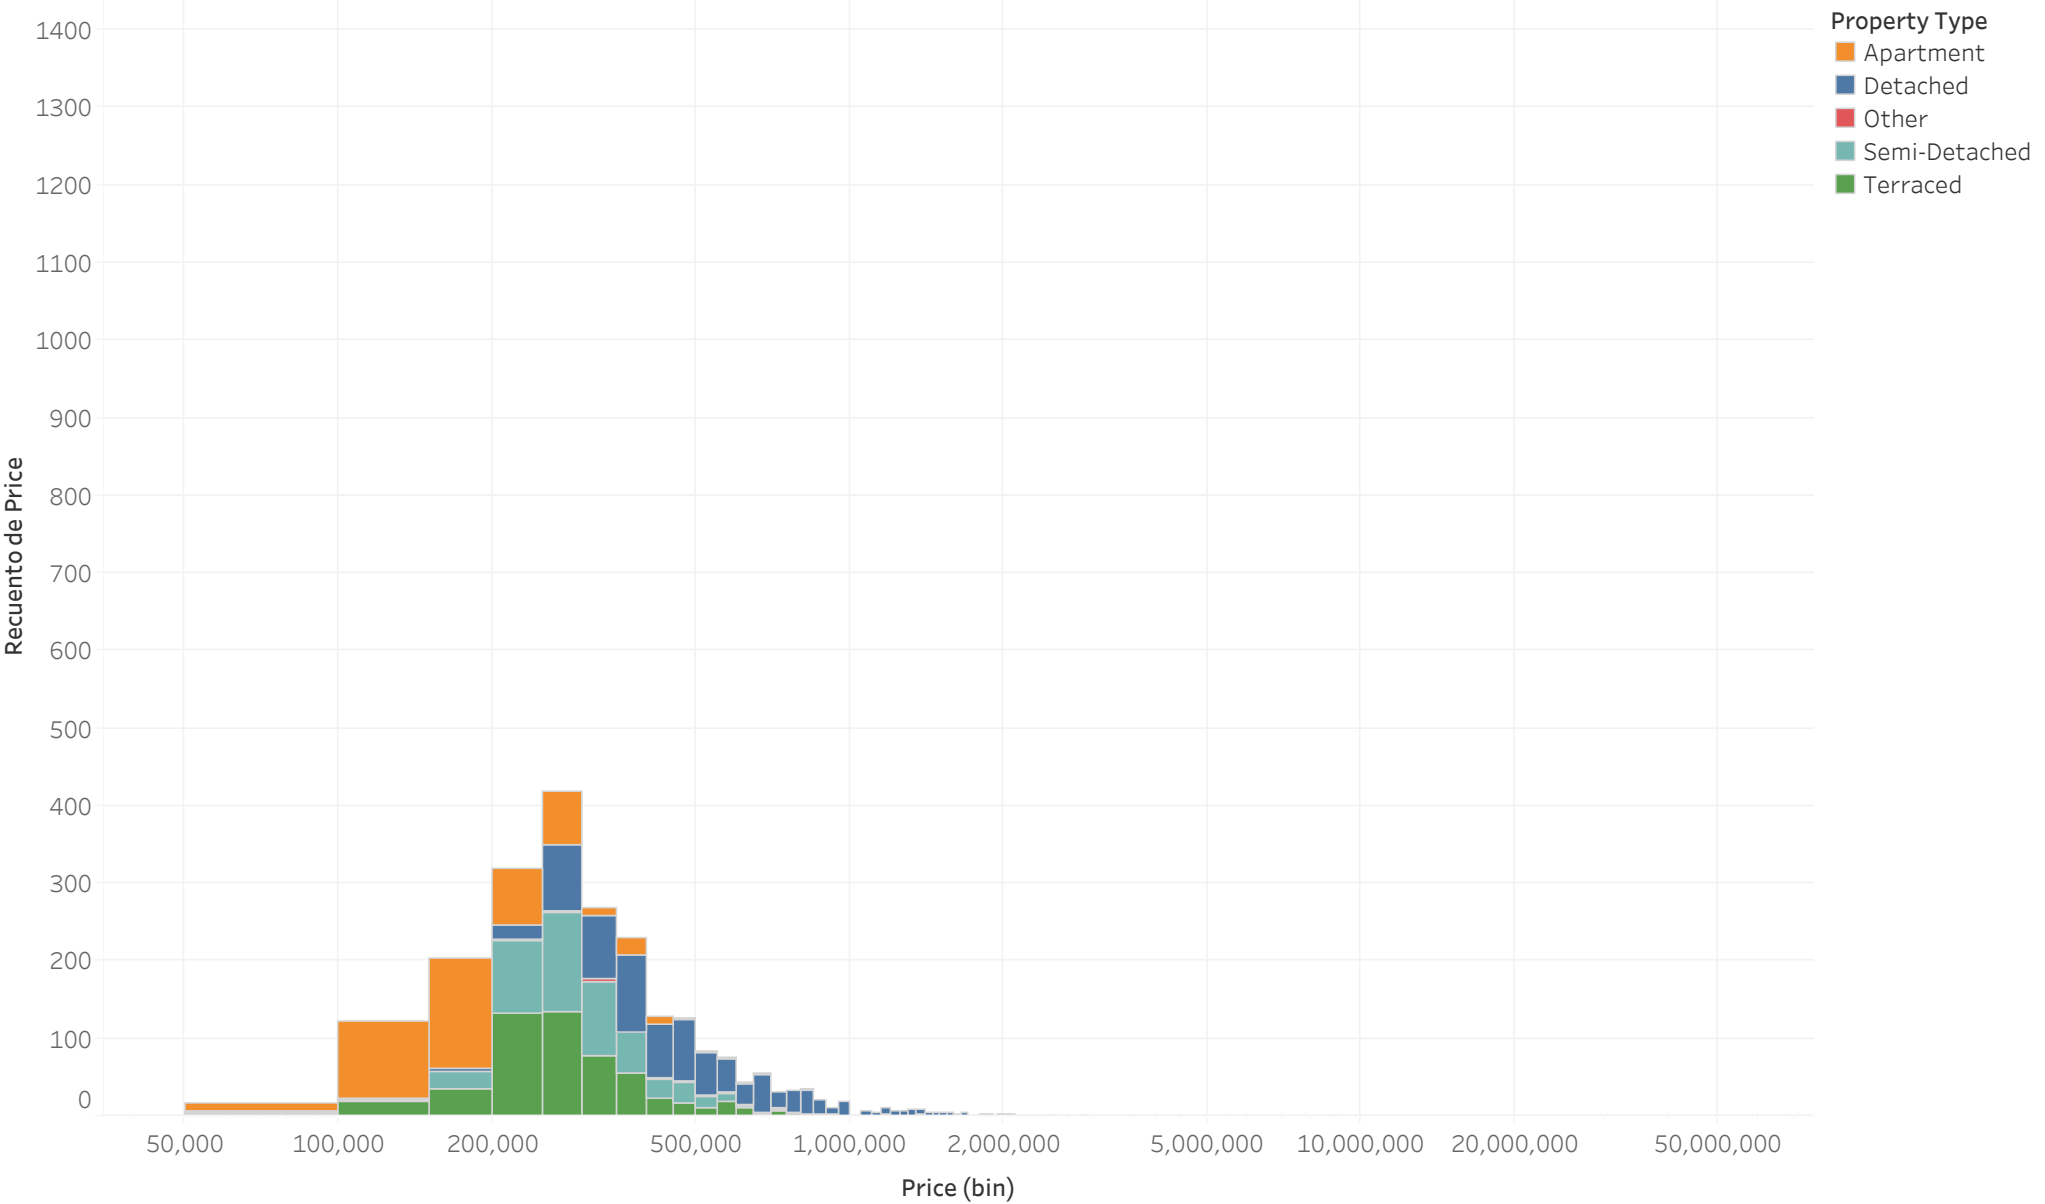

The plot of count of Price for Price (bin). Color shows details about Property Type.

Histogram of price per year and type. Sheet 5

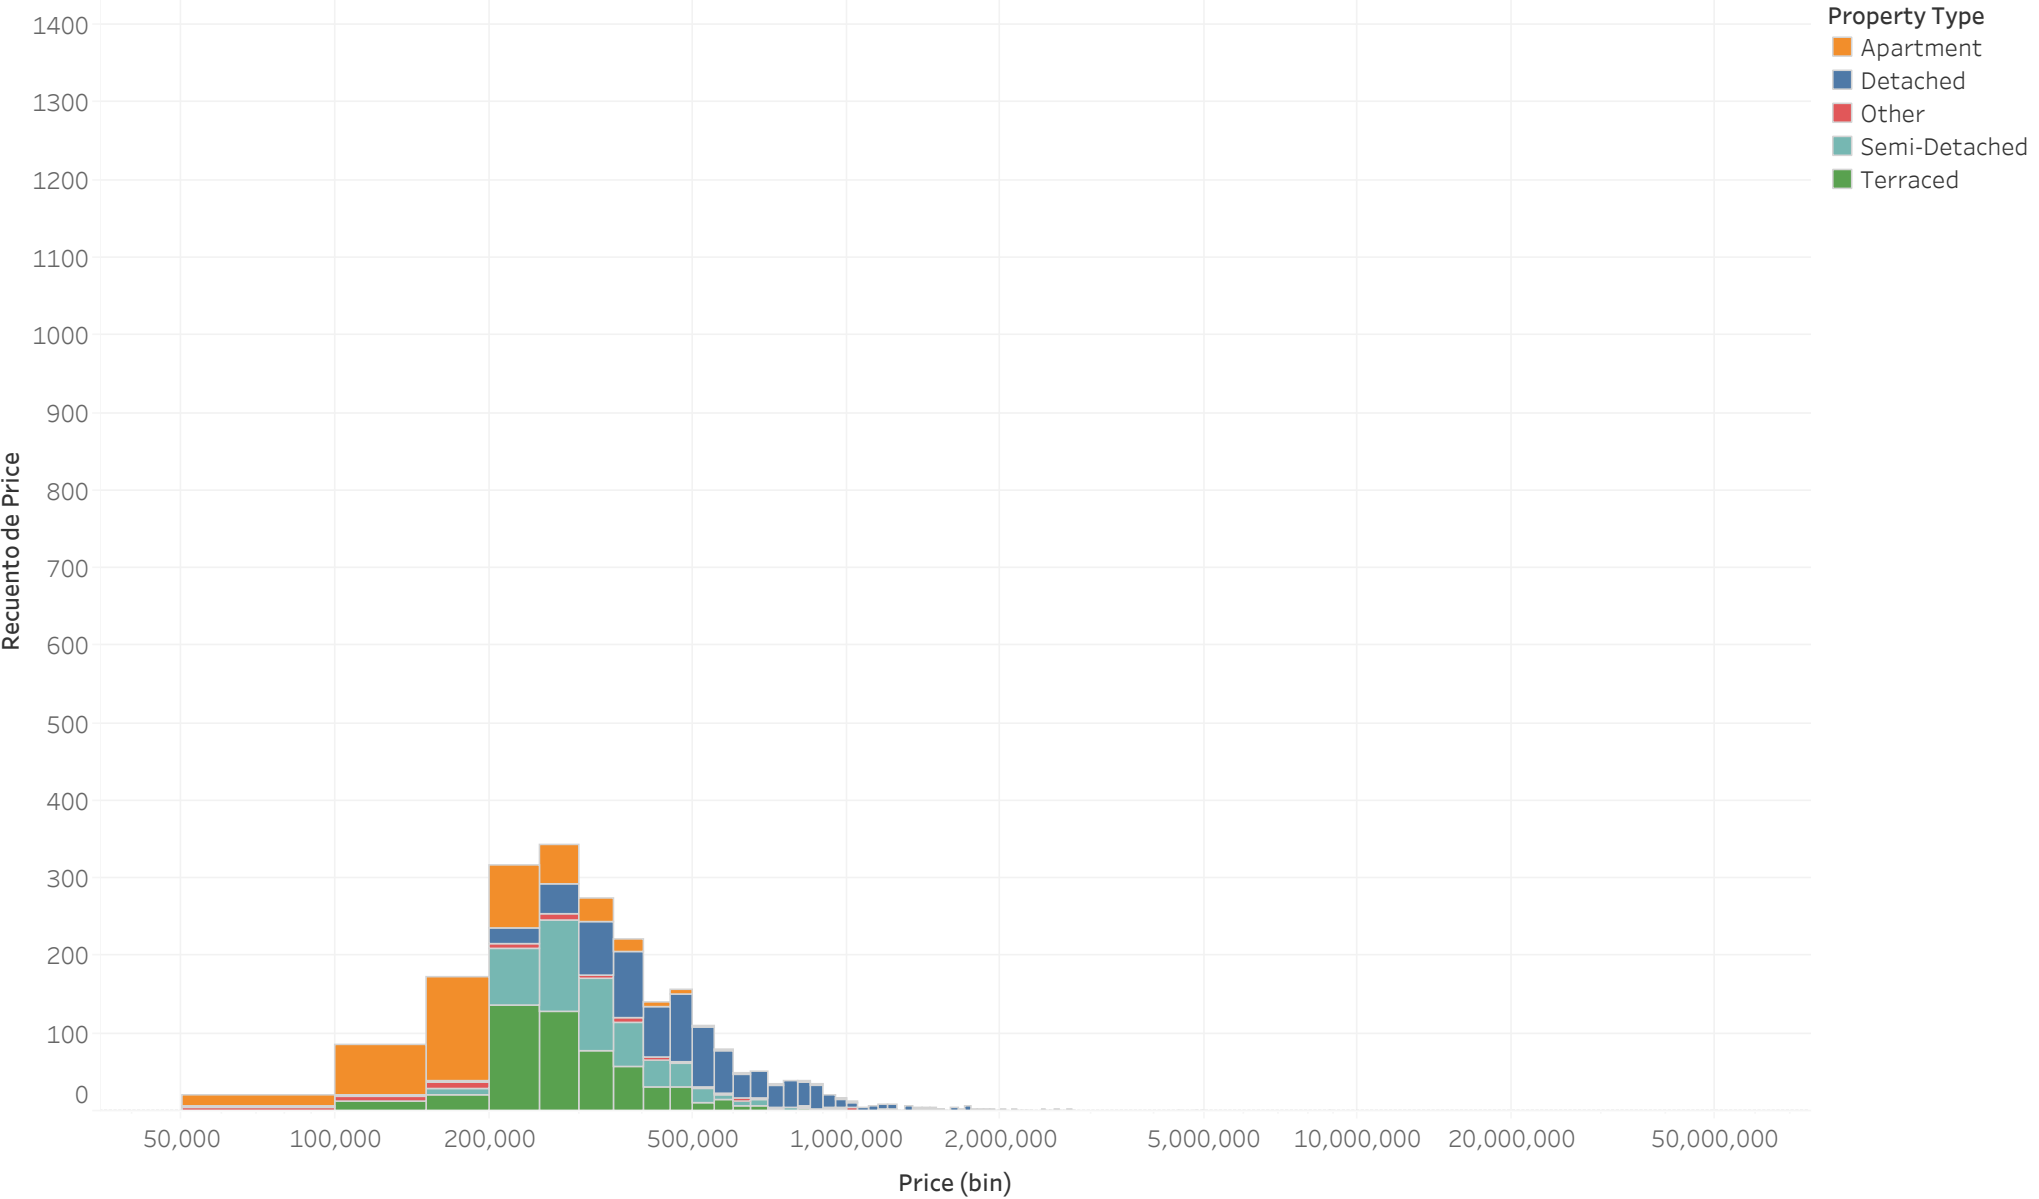

The plot of count of Price for Price (bin). Color shows details about Property Type.

Histogram of price per year and type. Sheet 5

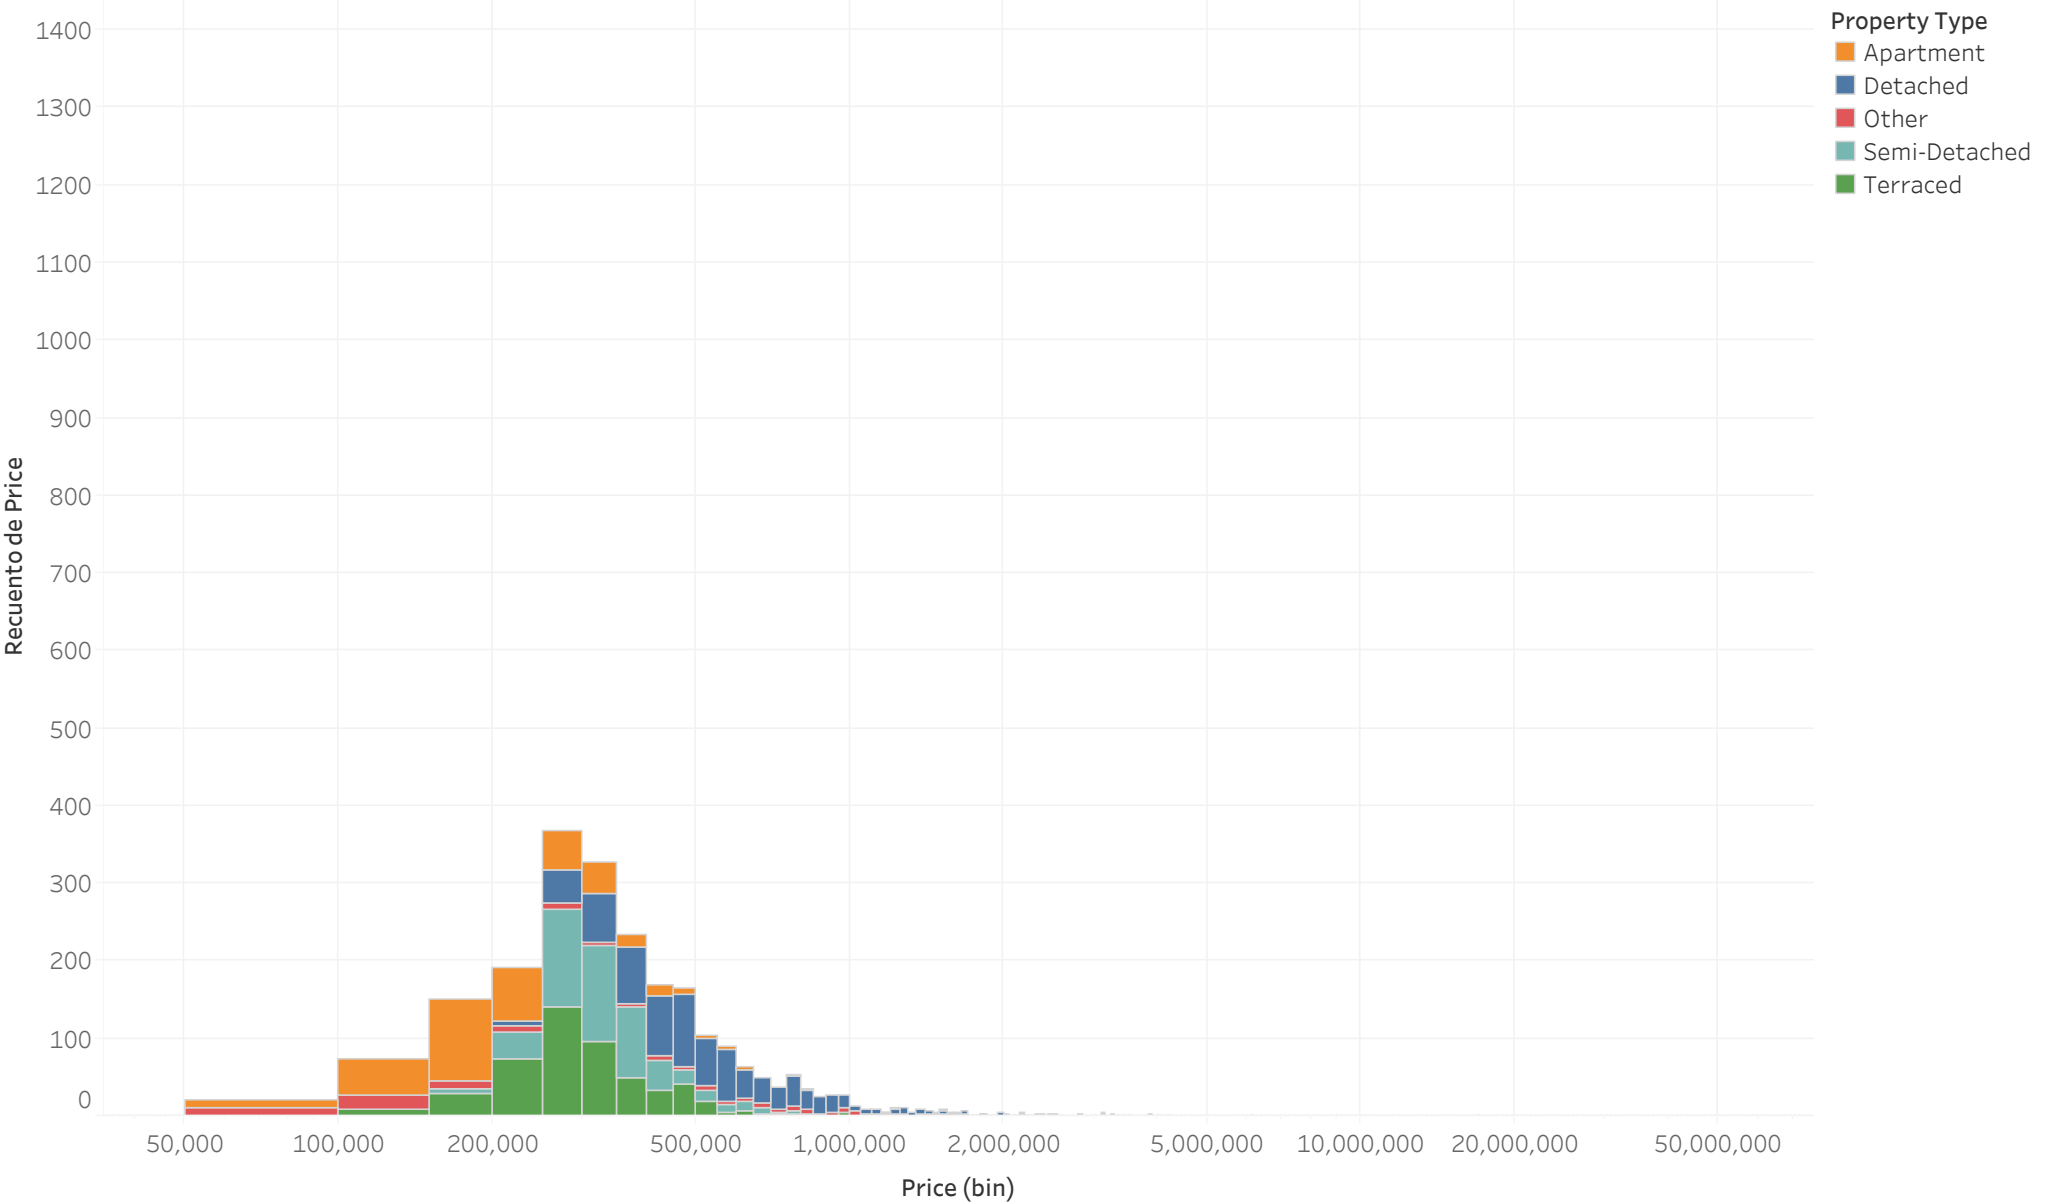

The plot of count of Price for Price (bin). Color shows details about Property Type.

Histogram of price per year and type. Sheet 5

The plot of count of Price for Price (bin). Color shows details about Property Type.

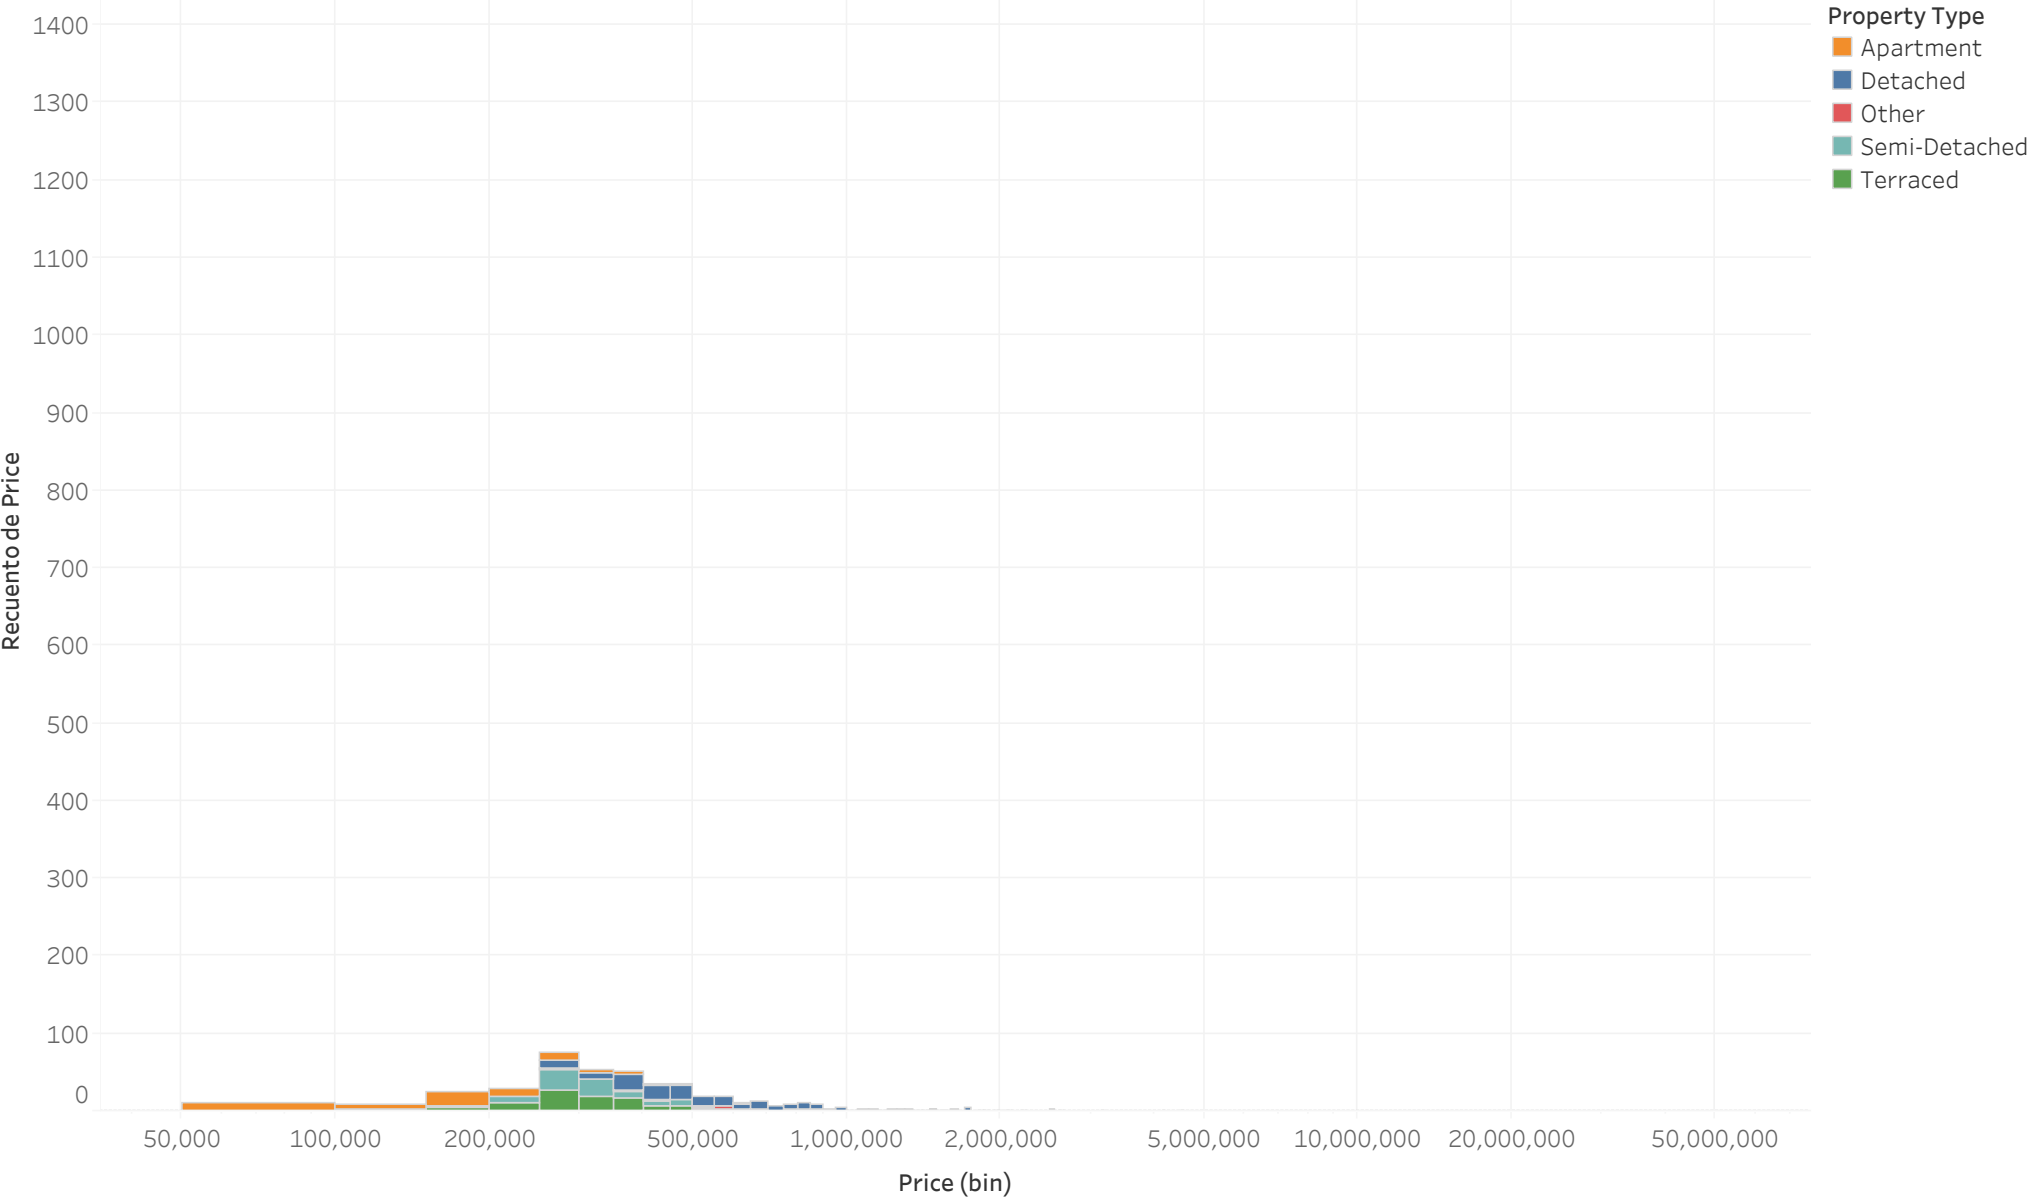

Histogram of price per year and type. Sheet 5

The plot of count of Price for Price (bin). Color shows details about Property Type.

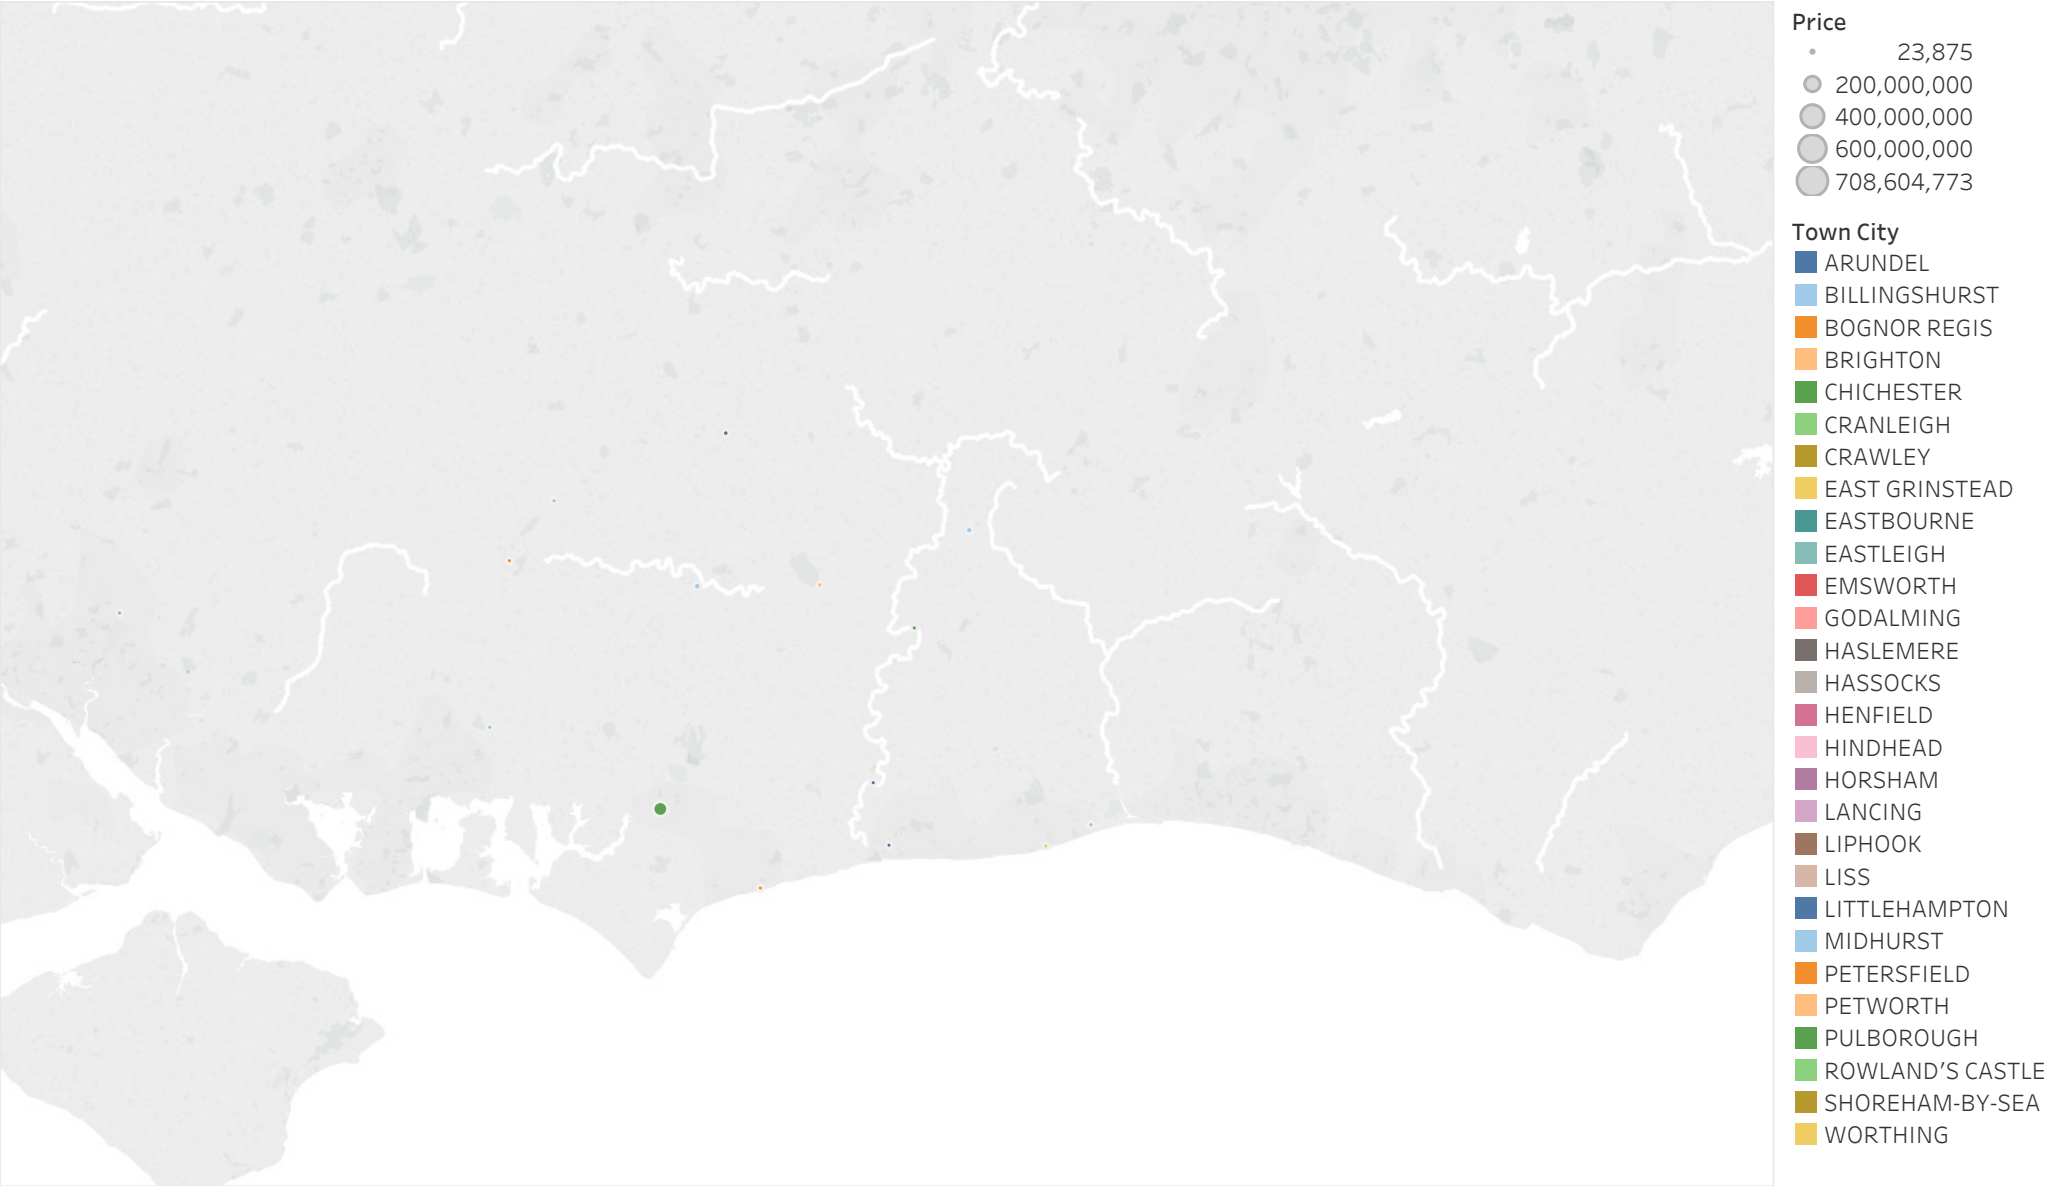

Histogram of price per year and type. Sheet 5

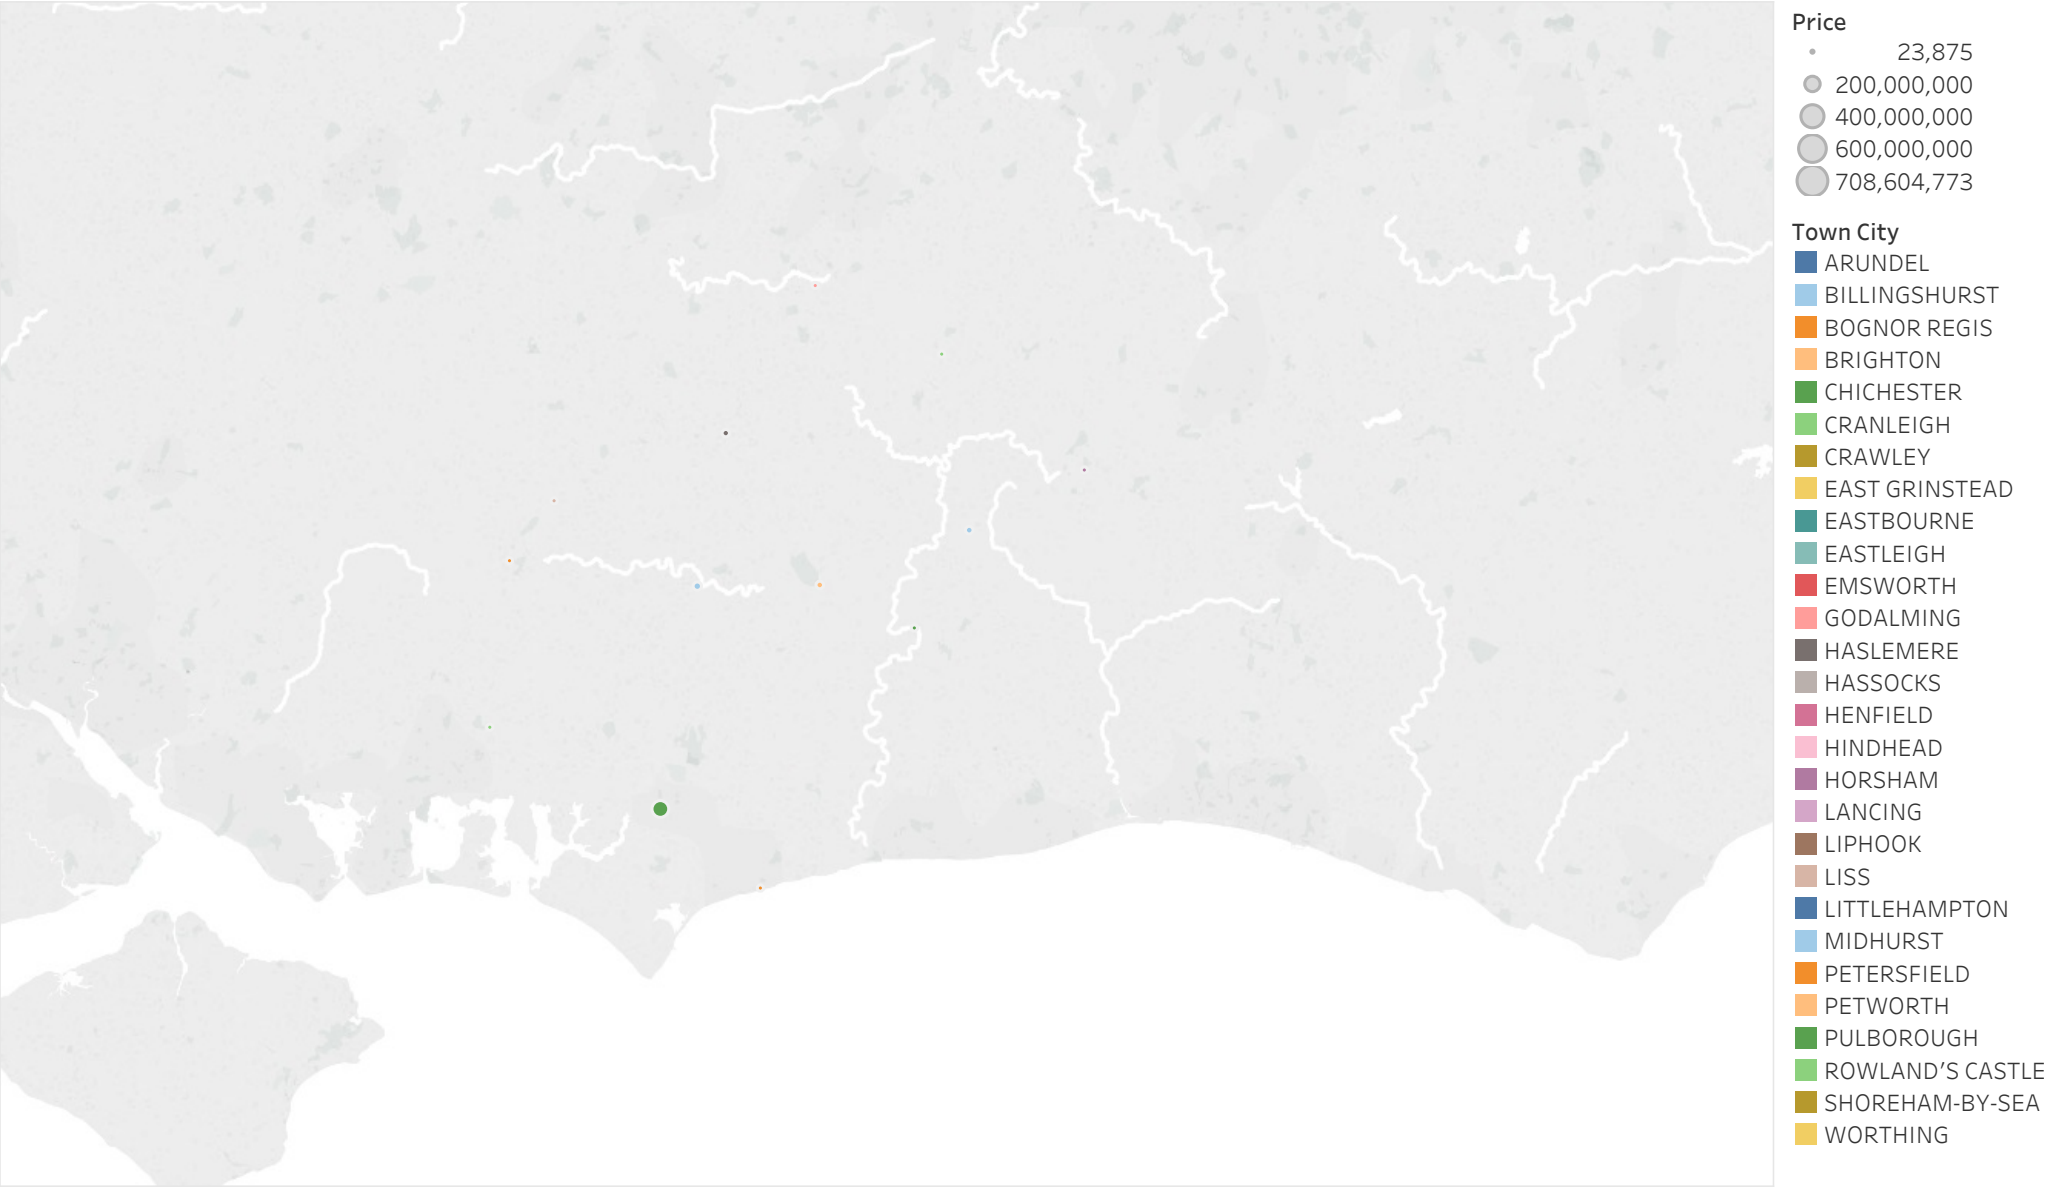

The plot of count of Price for Price (bin). Color shows details about Property Type.

Property transfers over time. Sheet 6 - 1995

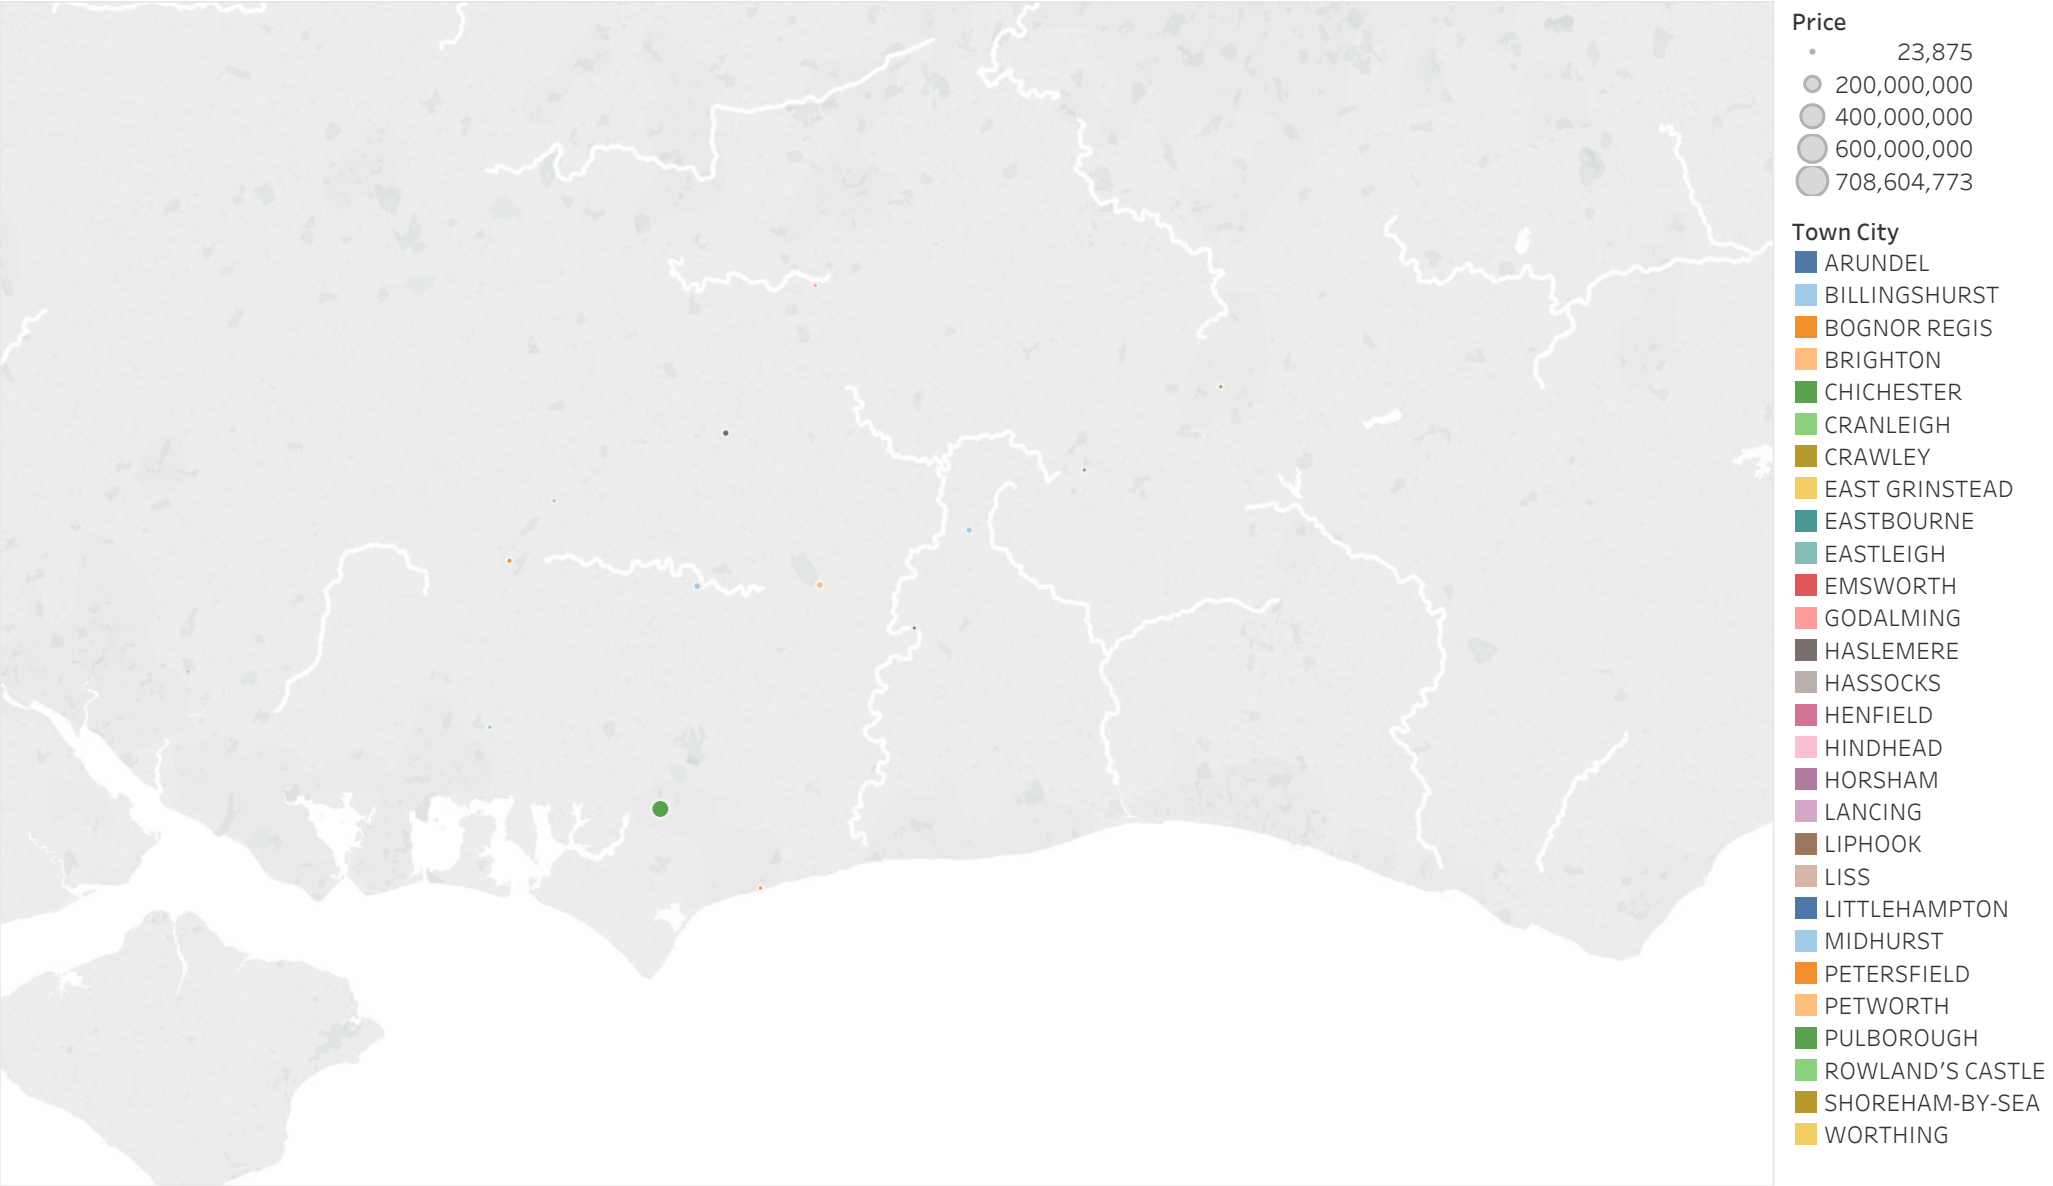

Map based on Longitude (generated) and Latitude (generated). Color shows details about Town City. Size shows sum of Price.

Property transfers over time. Sheet 6 - 1996

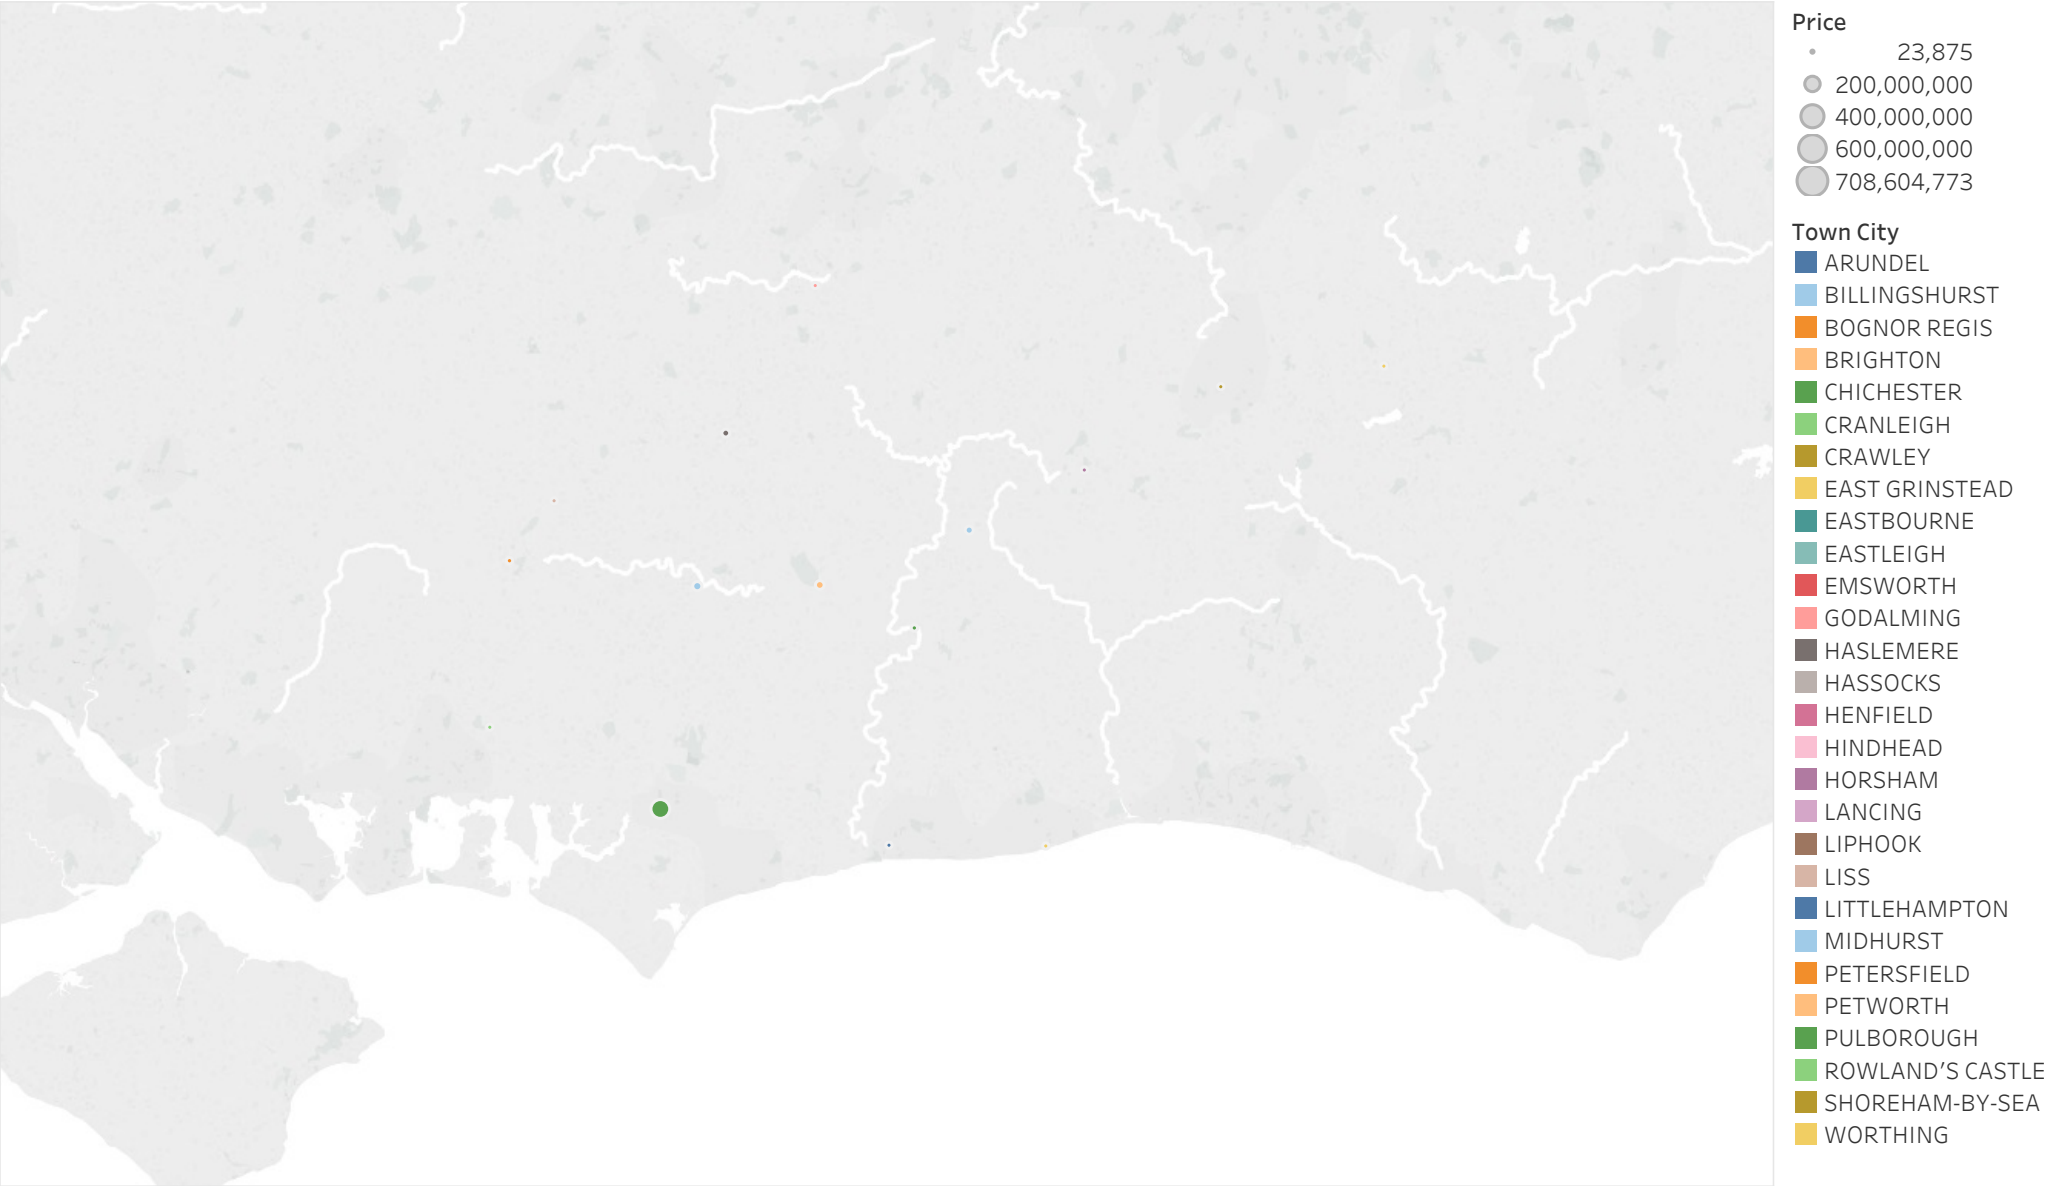

Map based on Longitude (generated) and Latitude (generated). Color shows details about Town City. Size shows sum of Price.

Property transfers over time. Sheet 6 - 1997

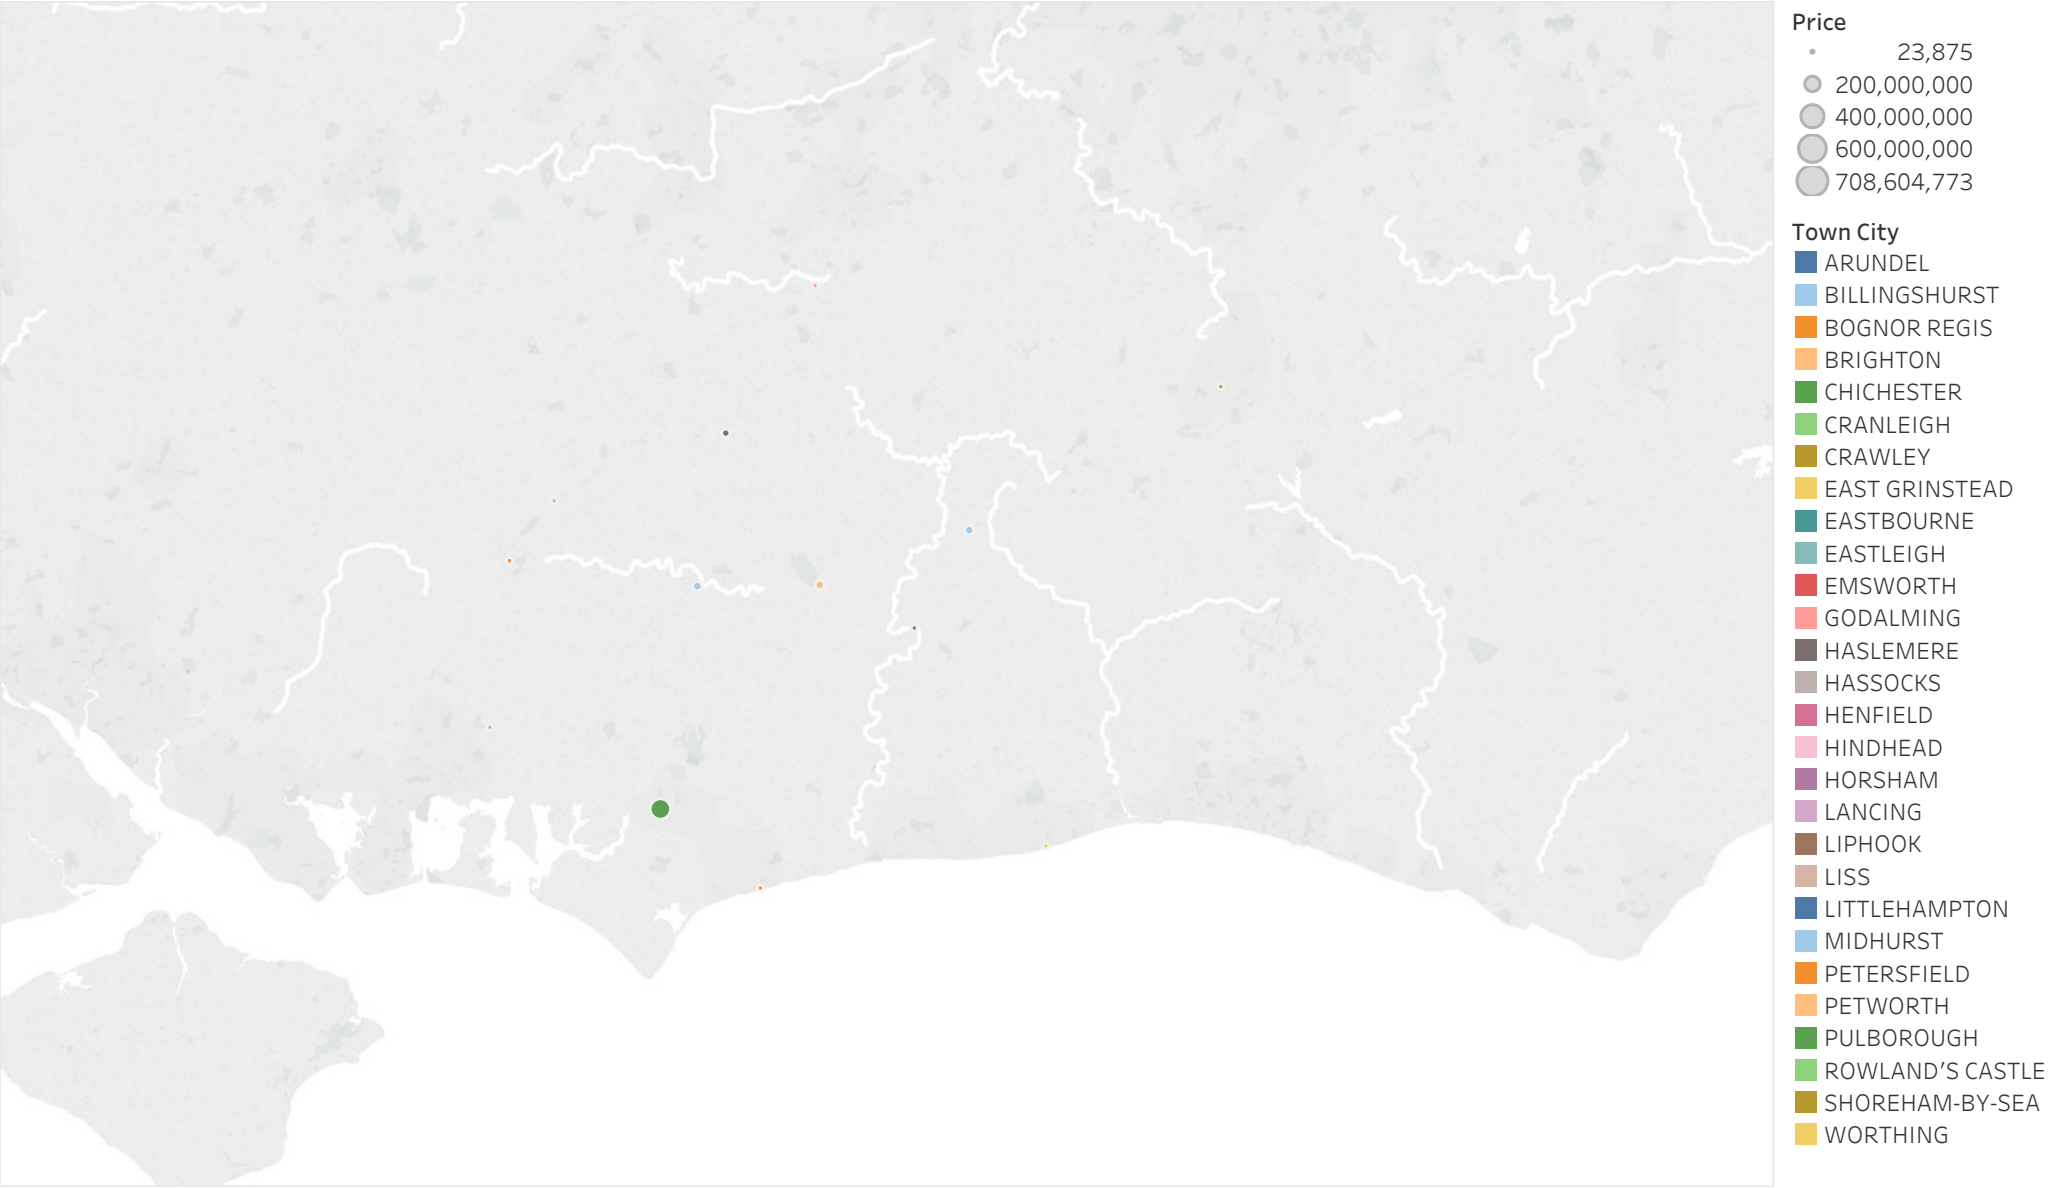

Map based on Longitude (generated) and Latitude (generated). Color shows details about Town City. Size shows sum of Price.

Property transfers over time. Sheet 6 - 1998

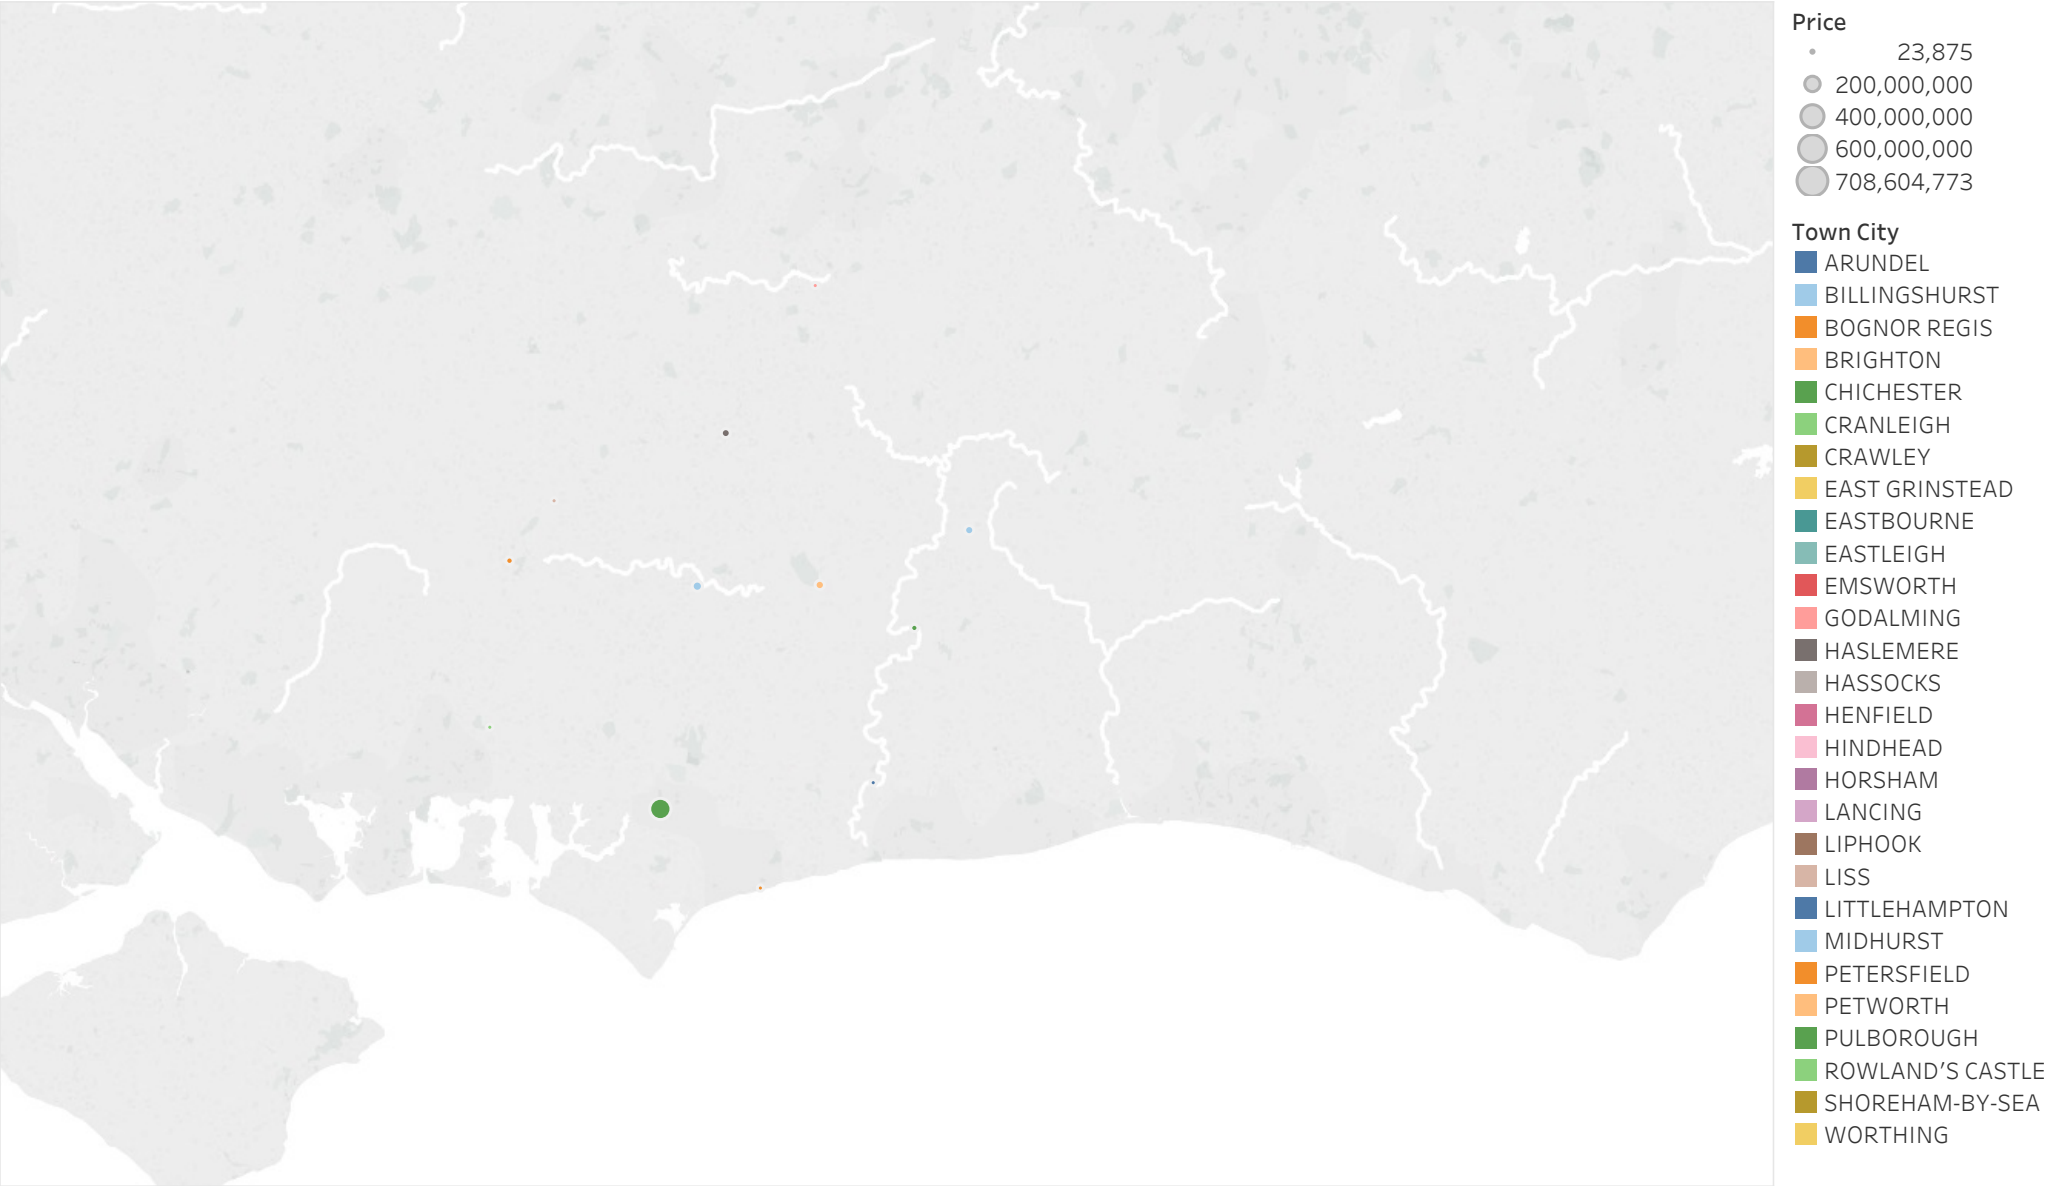

Map based on Longitude (generated) and Latitude (generated). Color shows details about Town City. Size shows sum of Price.

Property transfers over time. Sheet 6 - 1999

Map based on Longitude (generated) and Latitude (generated). Color shows details about Town City. Size shows sum of Price.

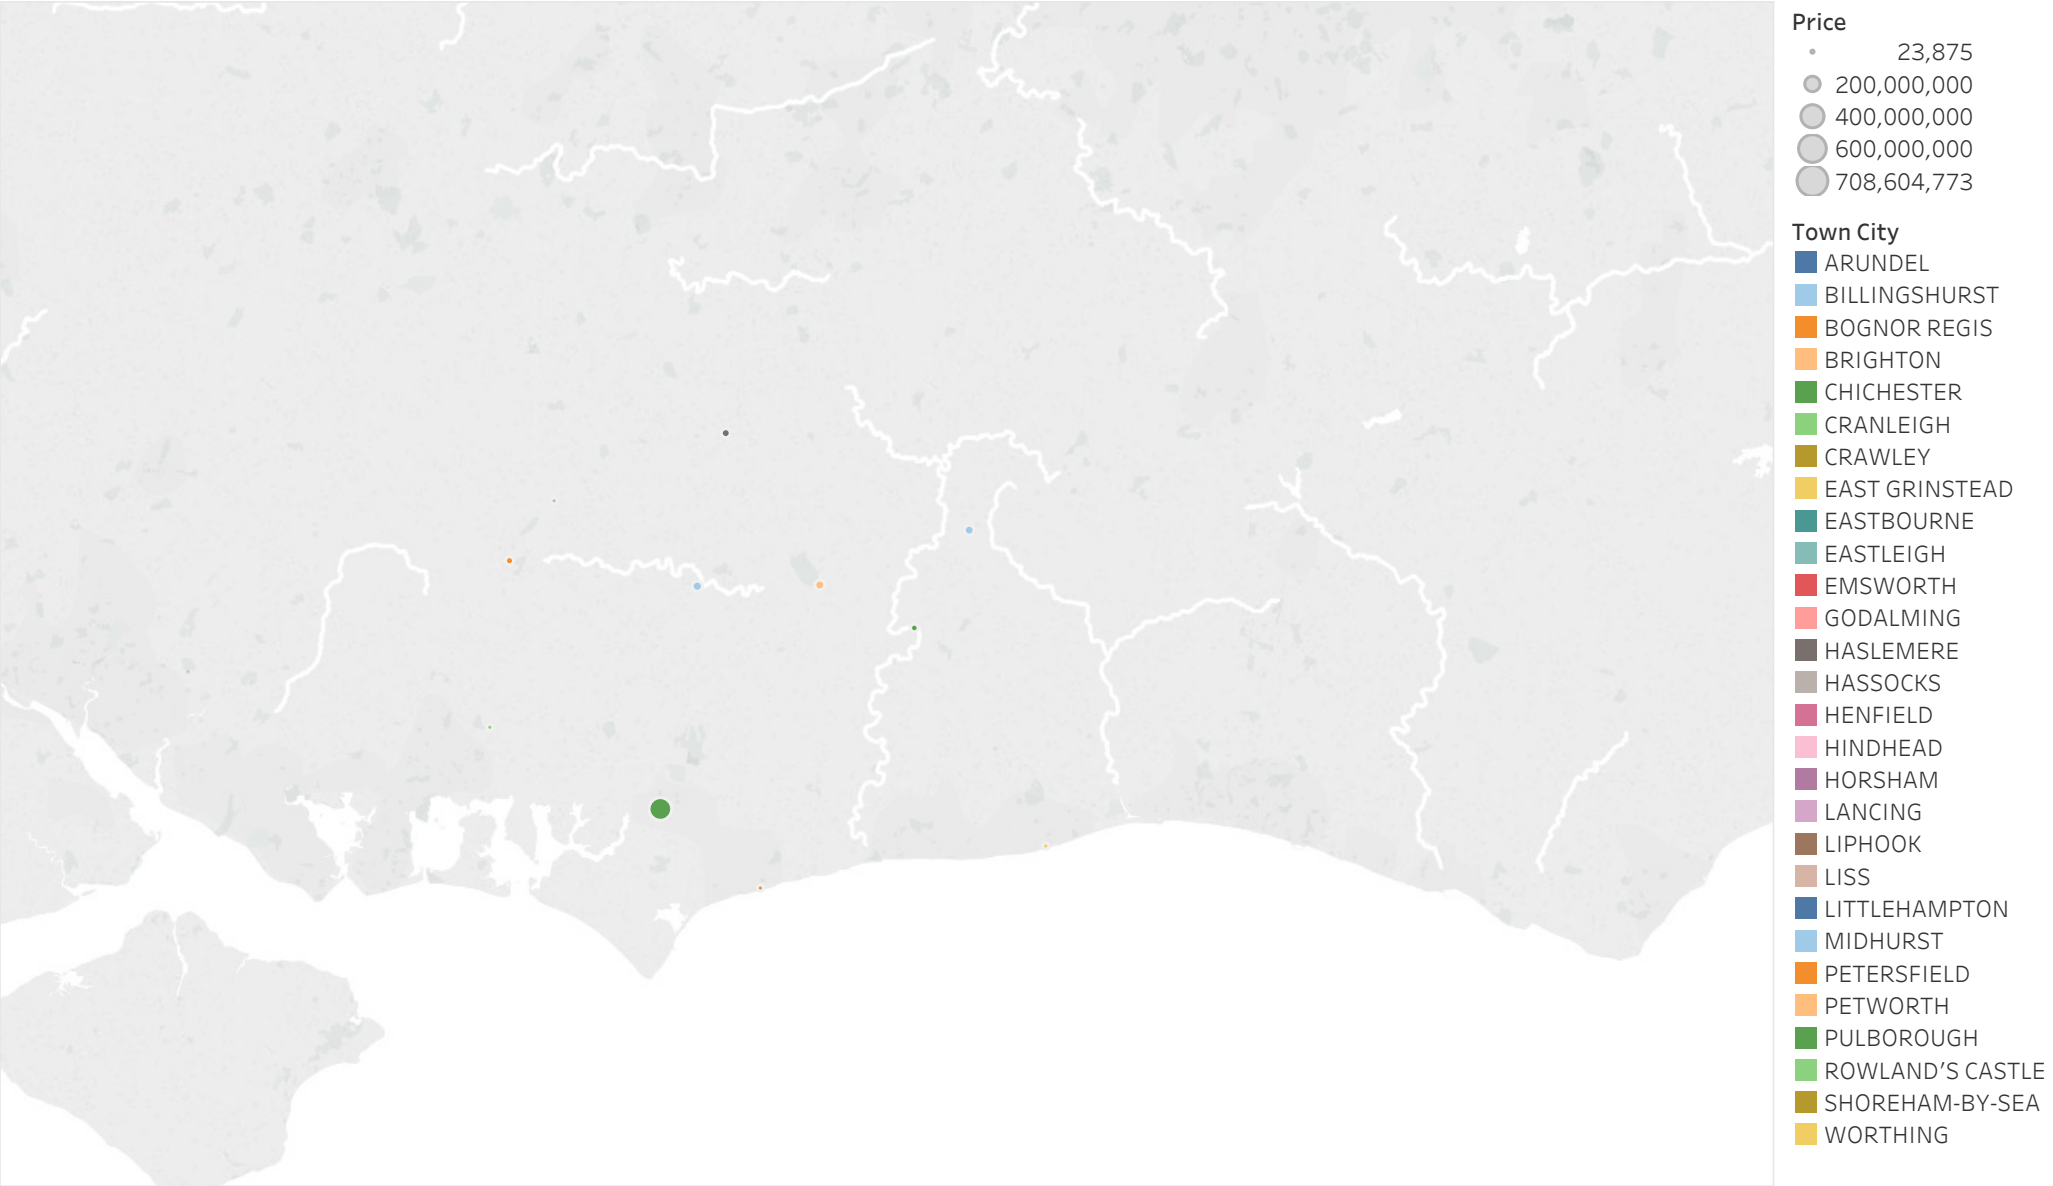

Property transfers over time. Sheet 6 - 2000

Map based on Longitude (generated) and Latitude (generated). Color shows details about Town City. Size shows sum of Price.

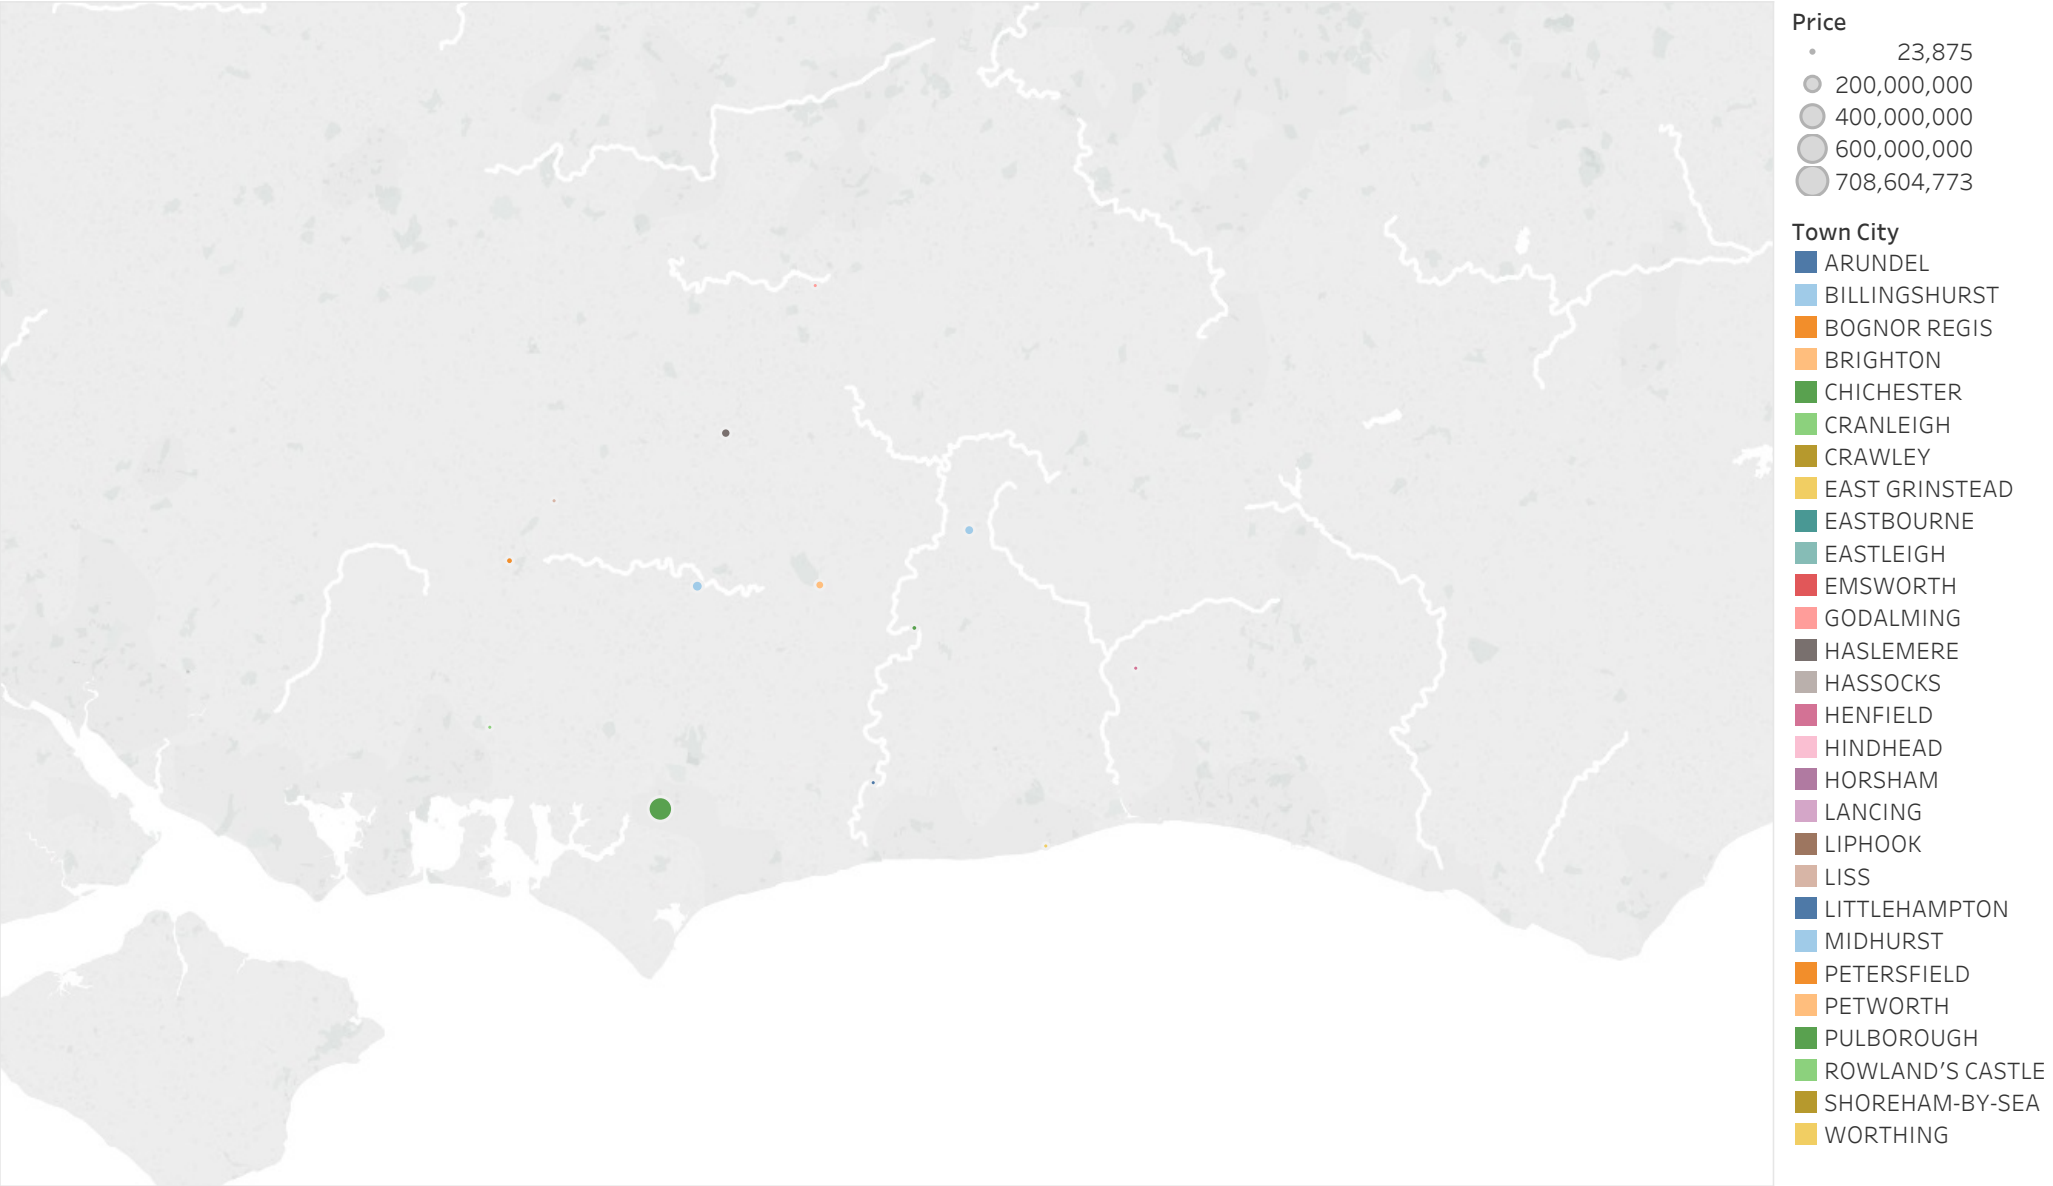

Property transfers over time. Sheet 6 - 2001

Map based on Longitude (generated) and Latitude (generated). Color shows details about Town City. Size shows sum of Price.

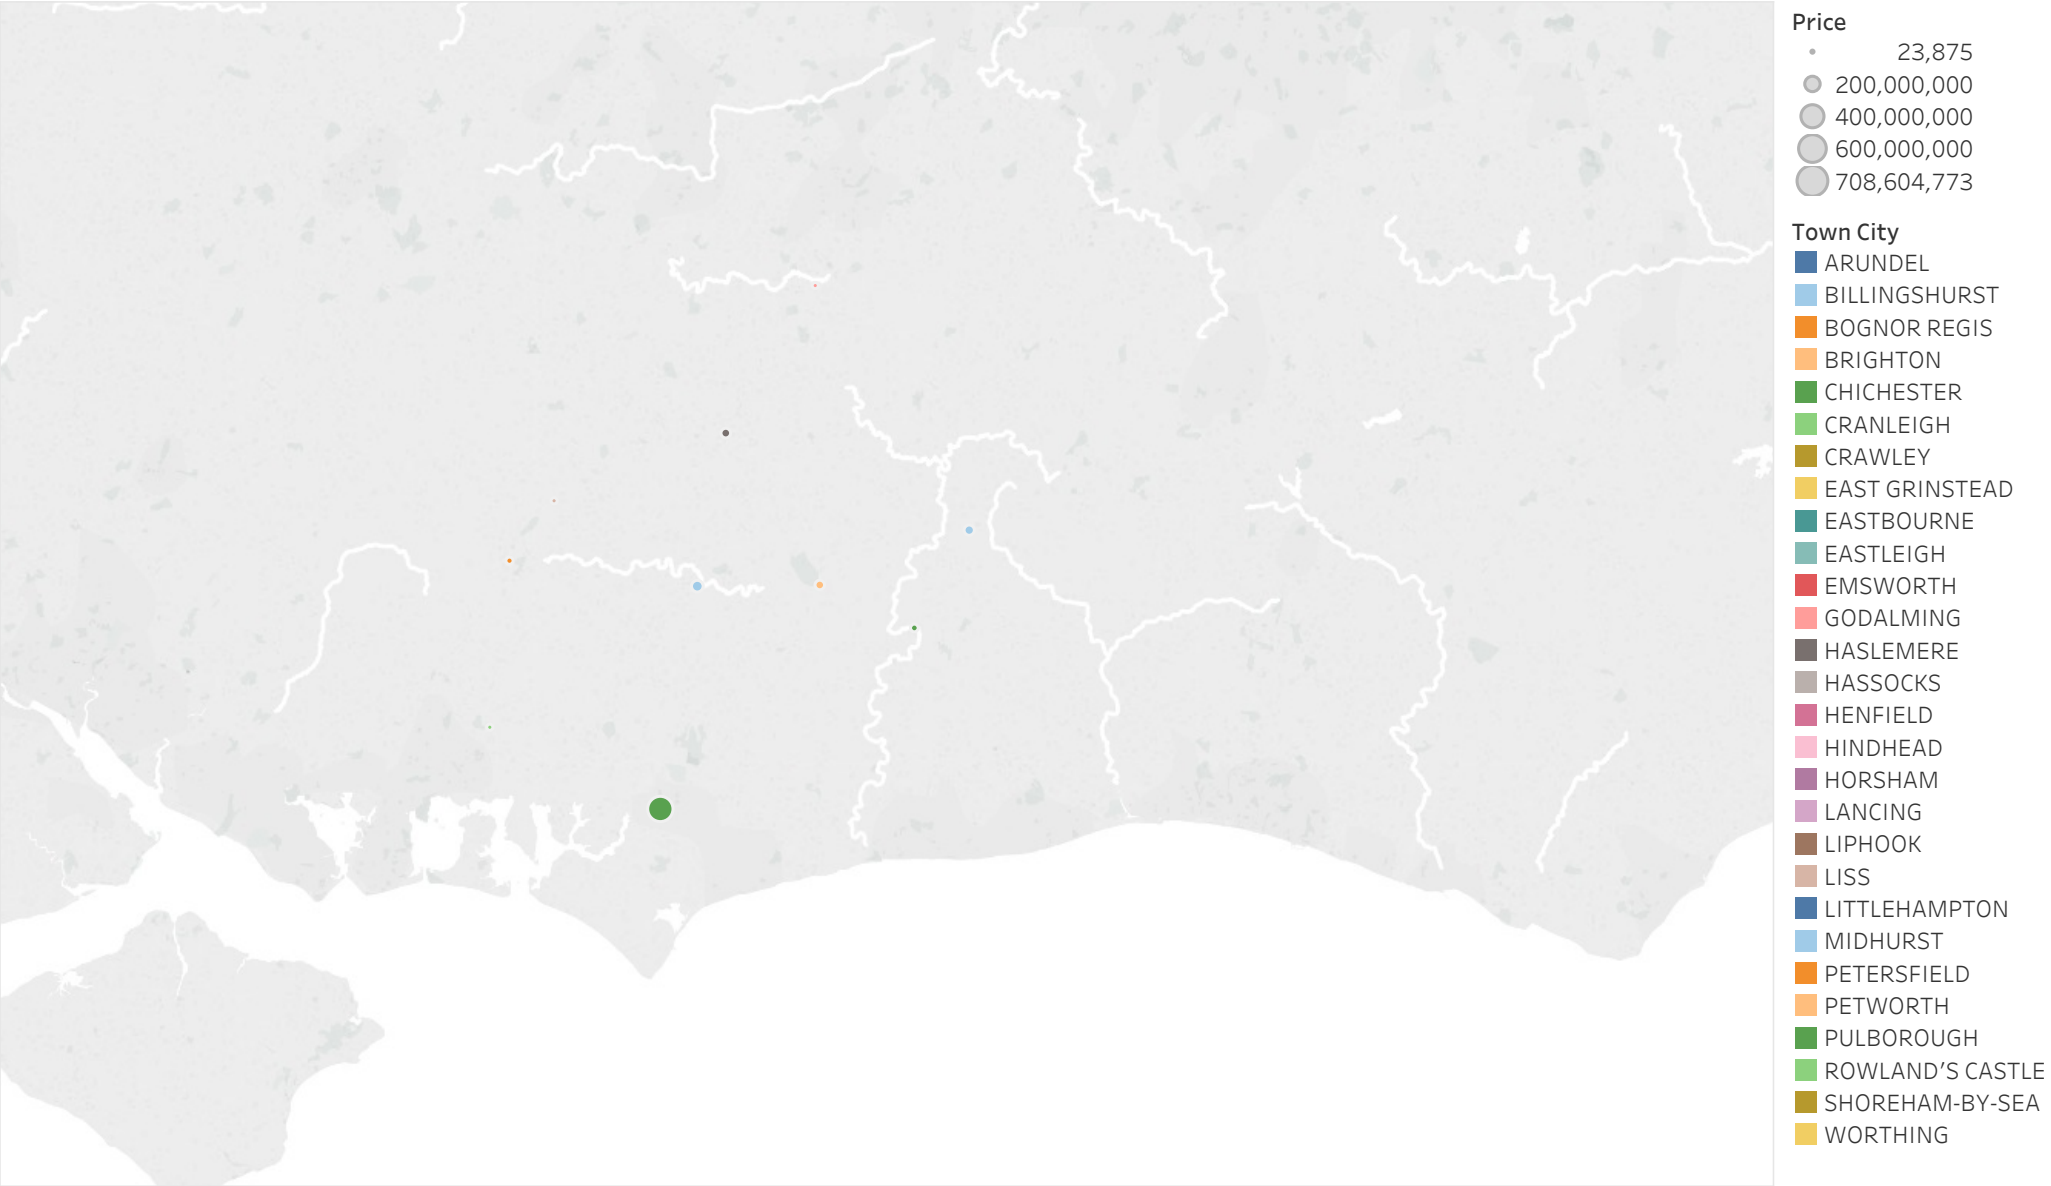

Property transfers over time. Sheet 6 - 2002

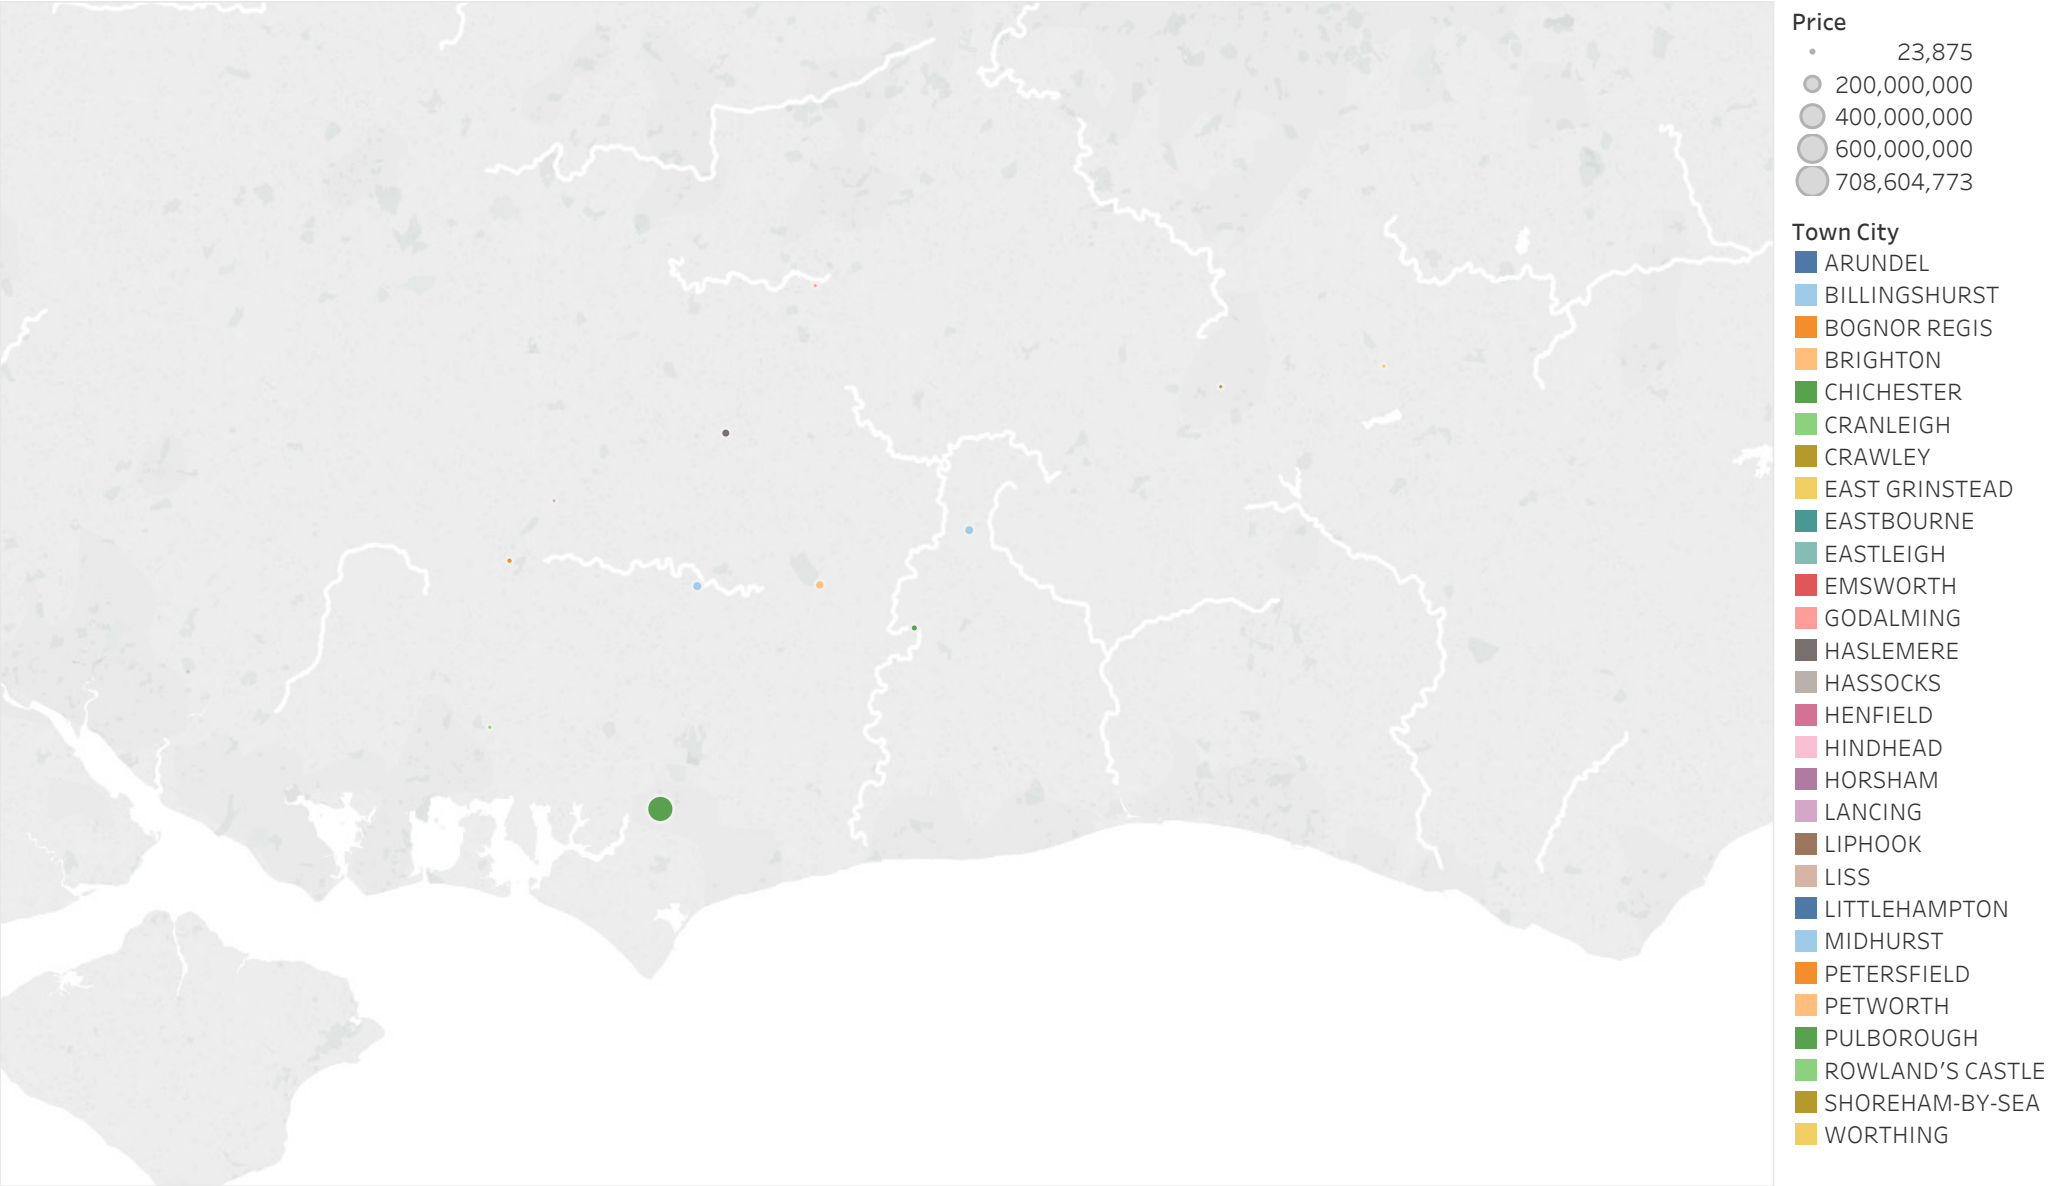

Map based on Longitude (generated) and Latitude (generated). Color shows details about Town City. Size shows sum of Price.

Property transfers over time. Sheet 6 - 2003

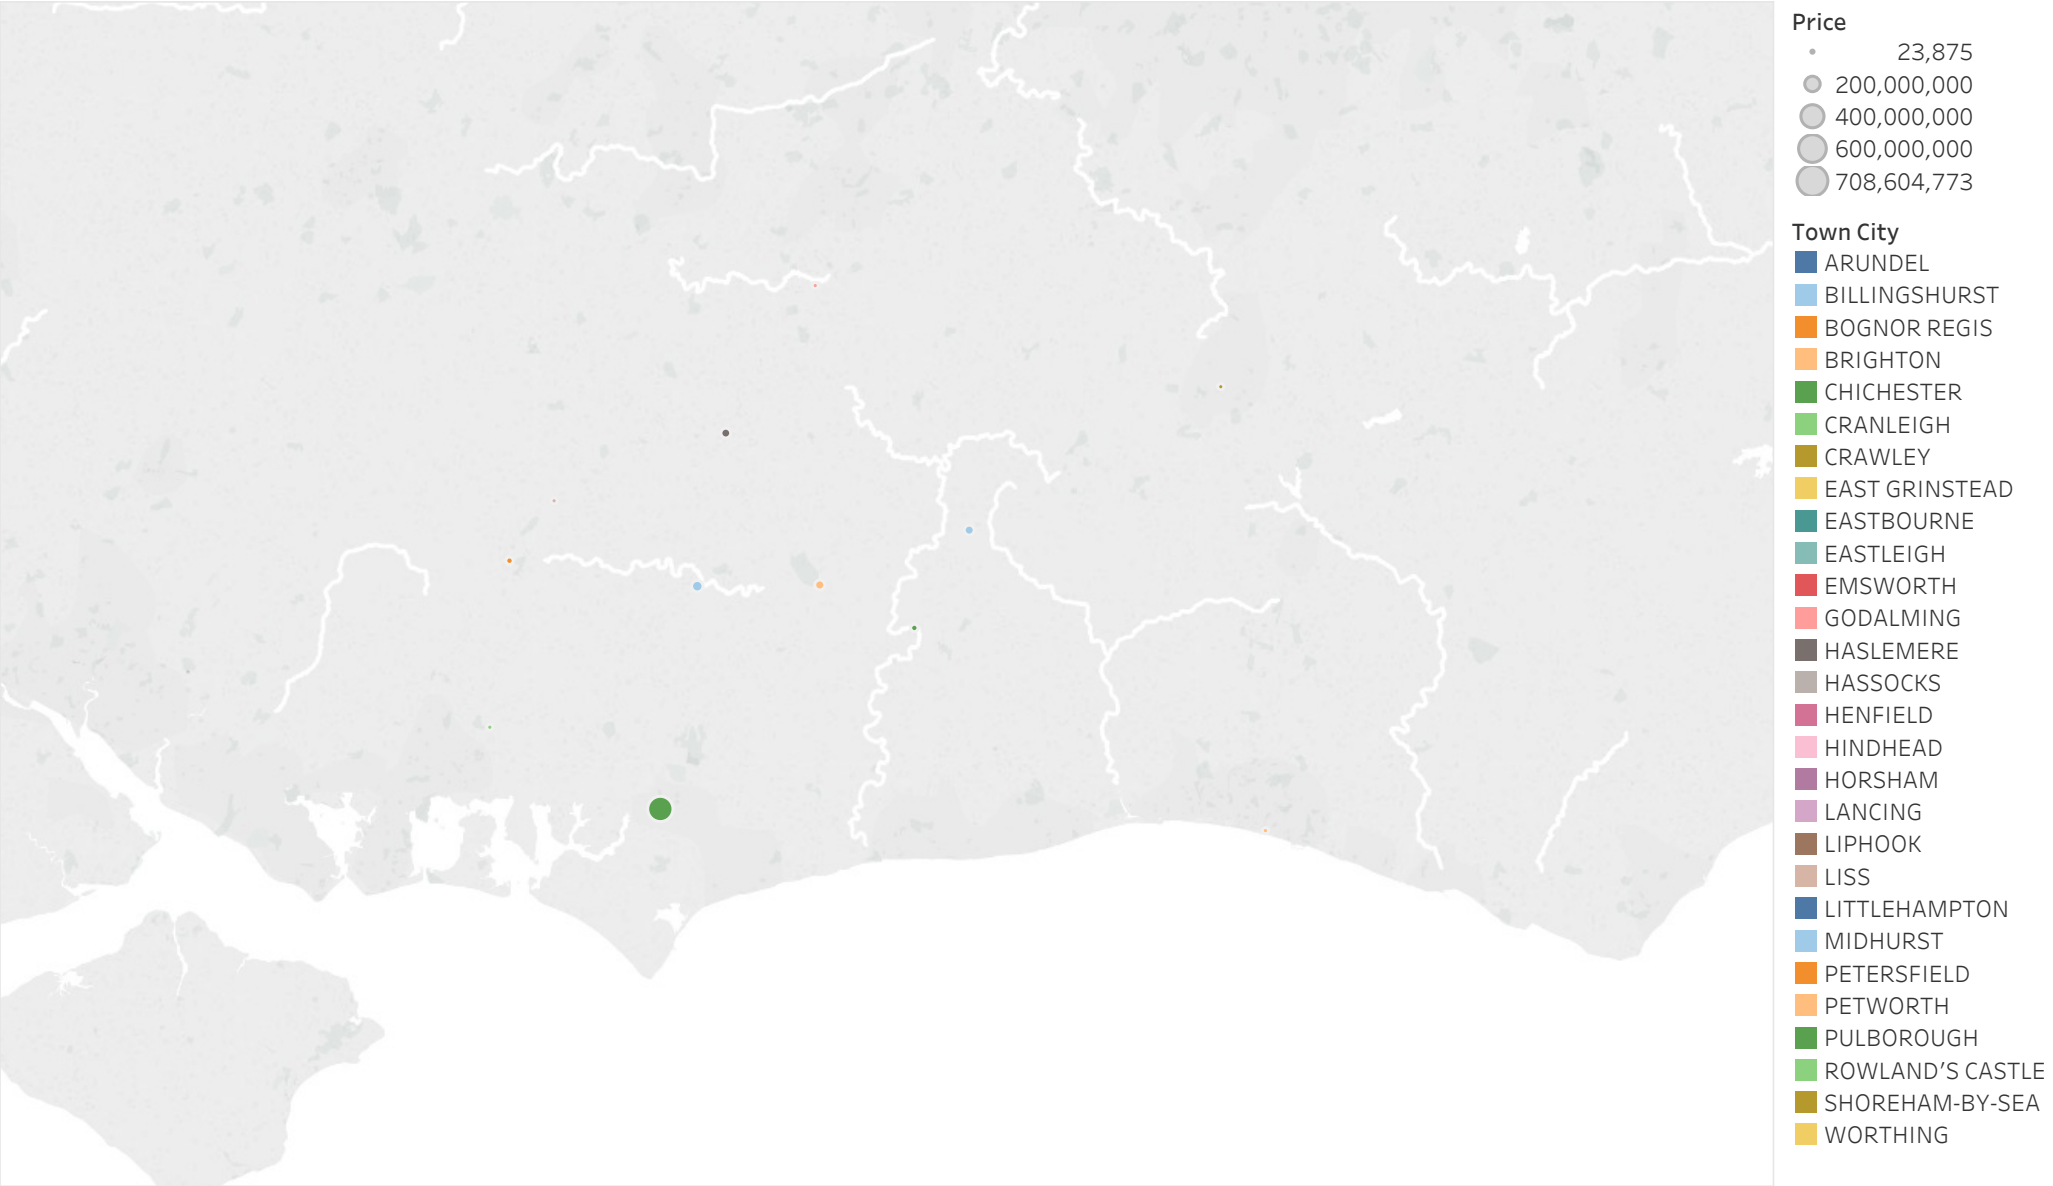

Map based on Longitude (generated) and Latitude (generated). Color shows details about Town City. Size shows sum of Price.

Property transfers over time. Sheet 6 - 2004

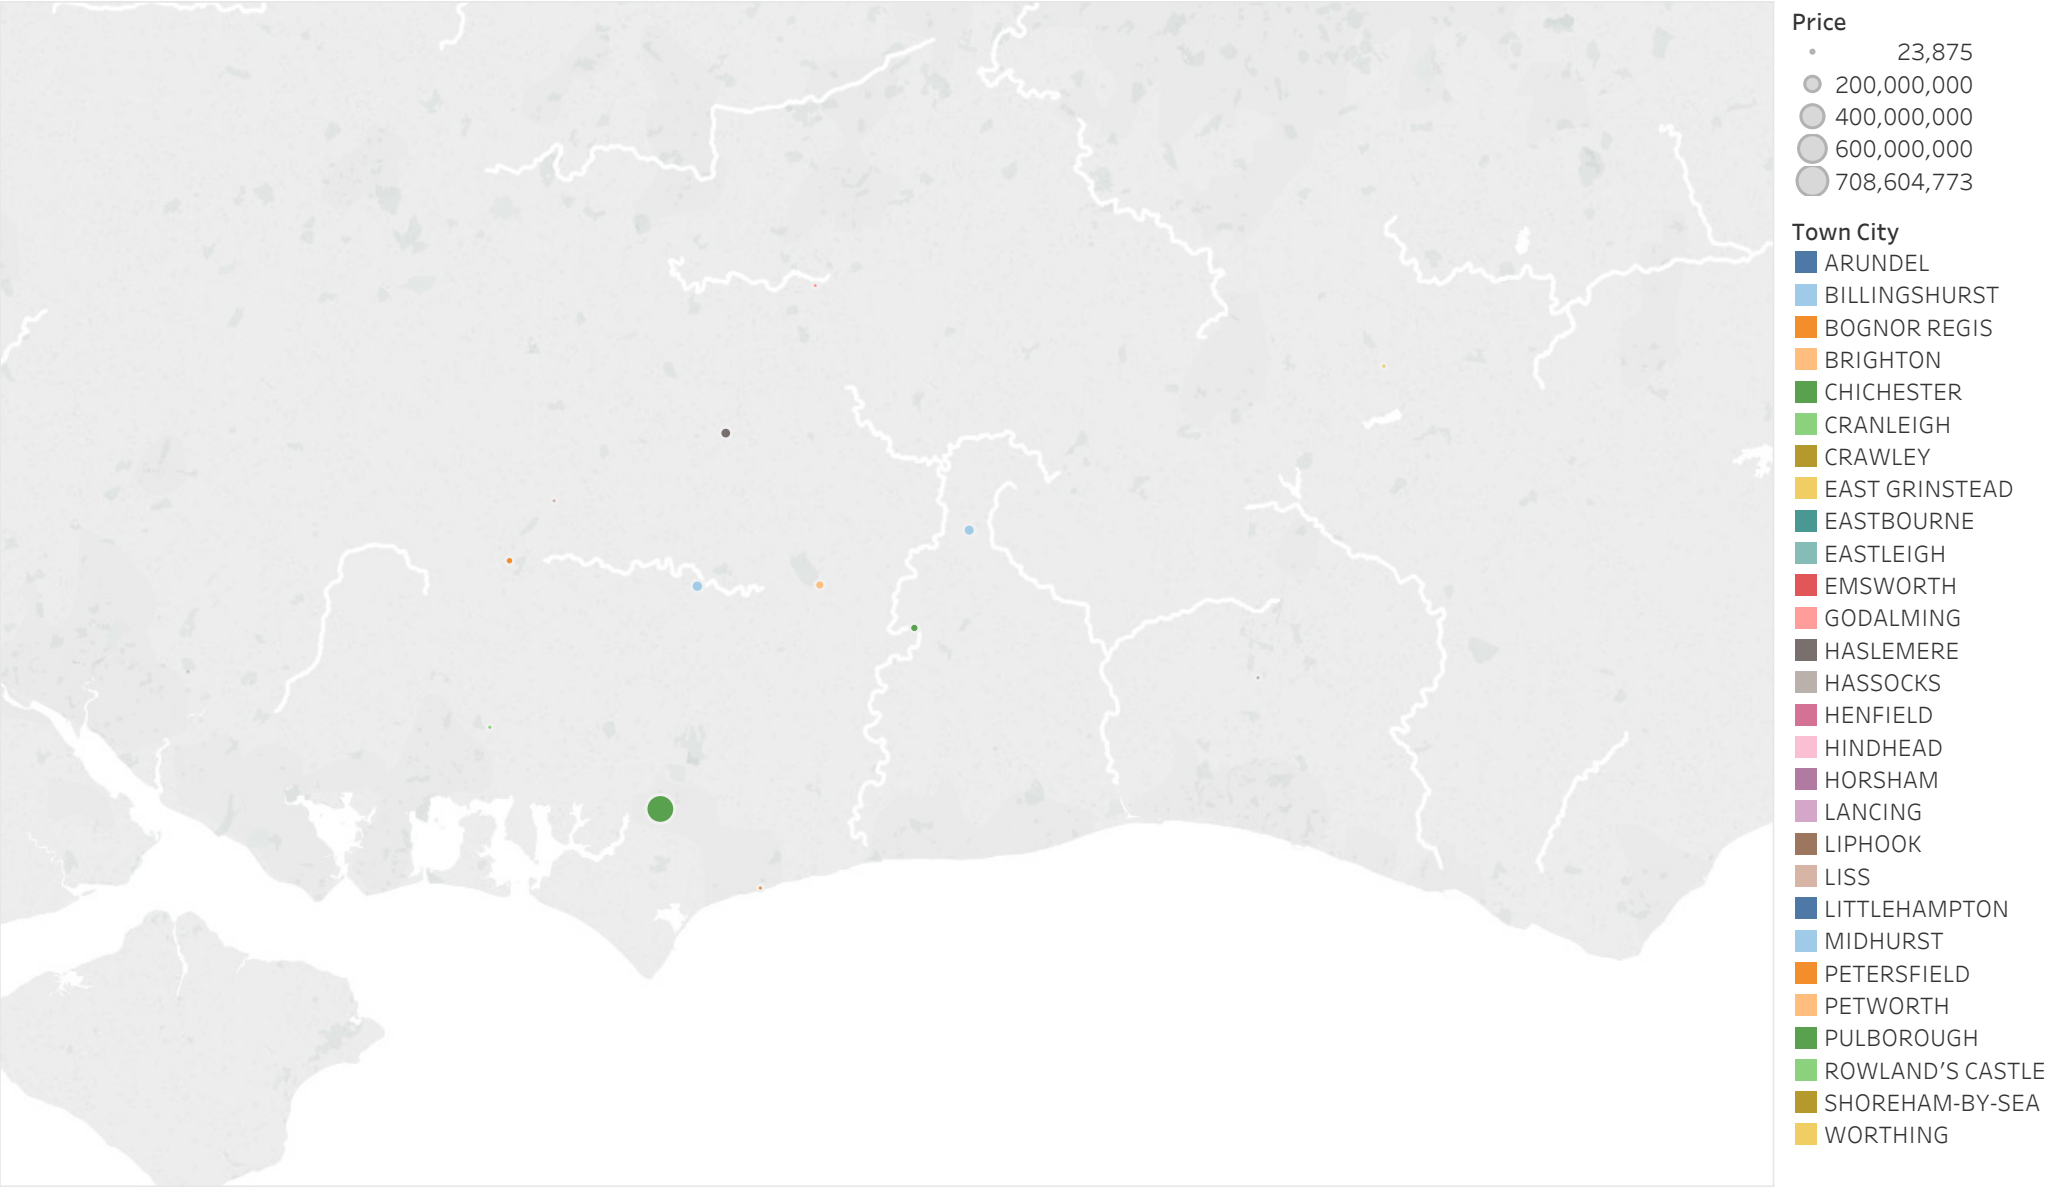

Map based on Longitude (generated) and Latitude (generated). Color shows details about Town City. Size shows sum of Price.

Property transfers over time. Sheet 6 - 2005

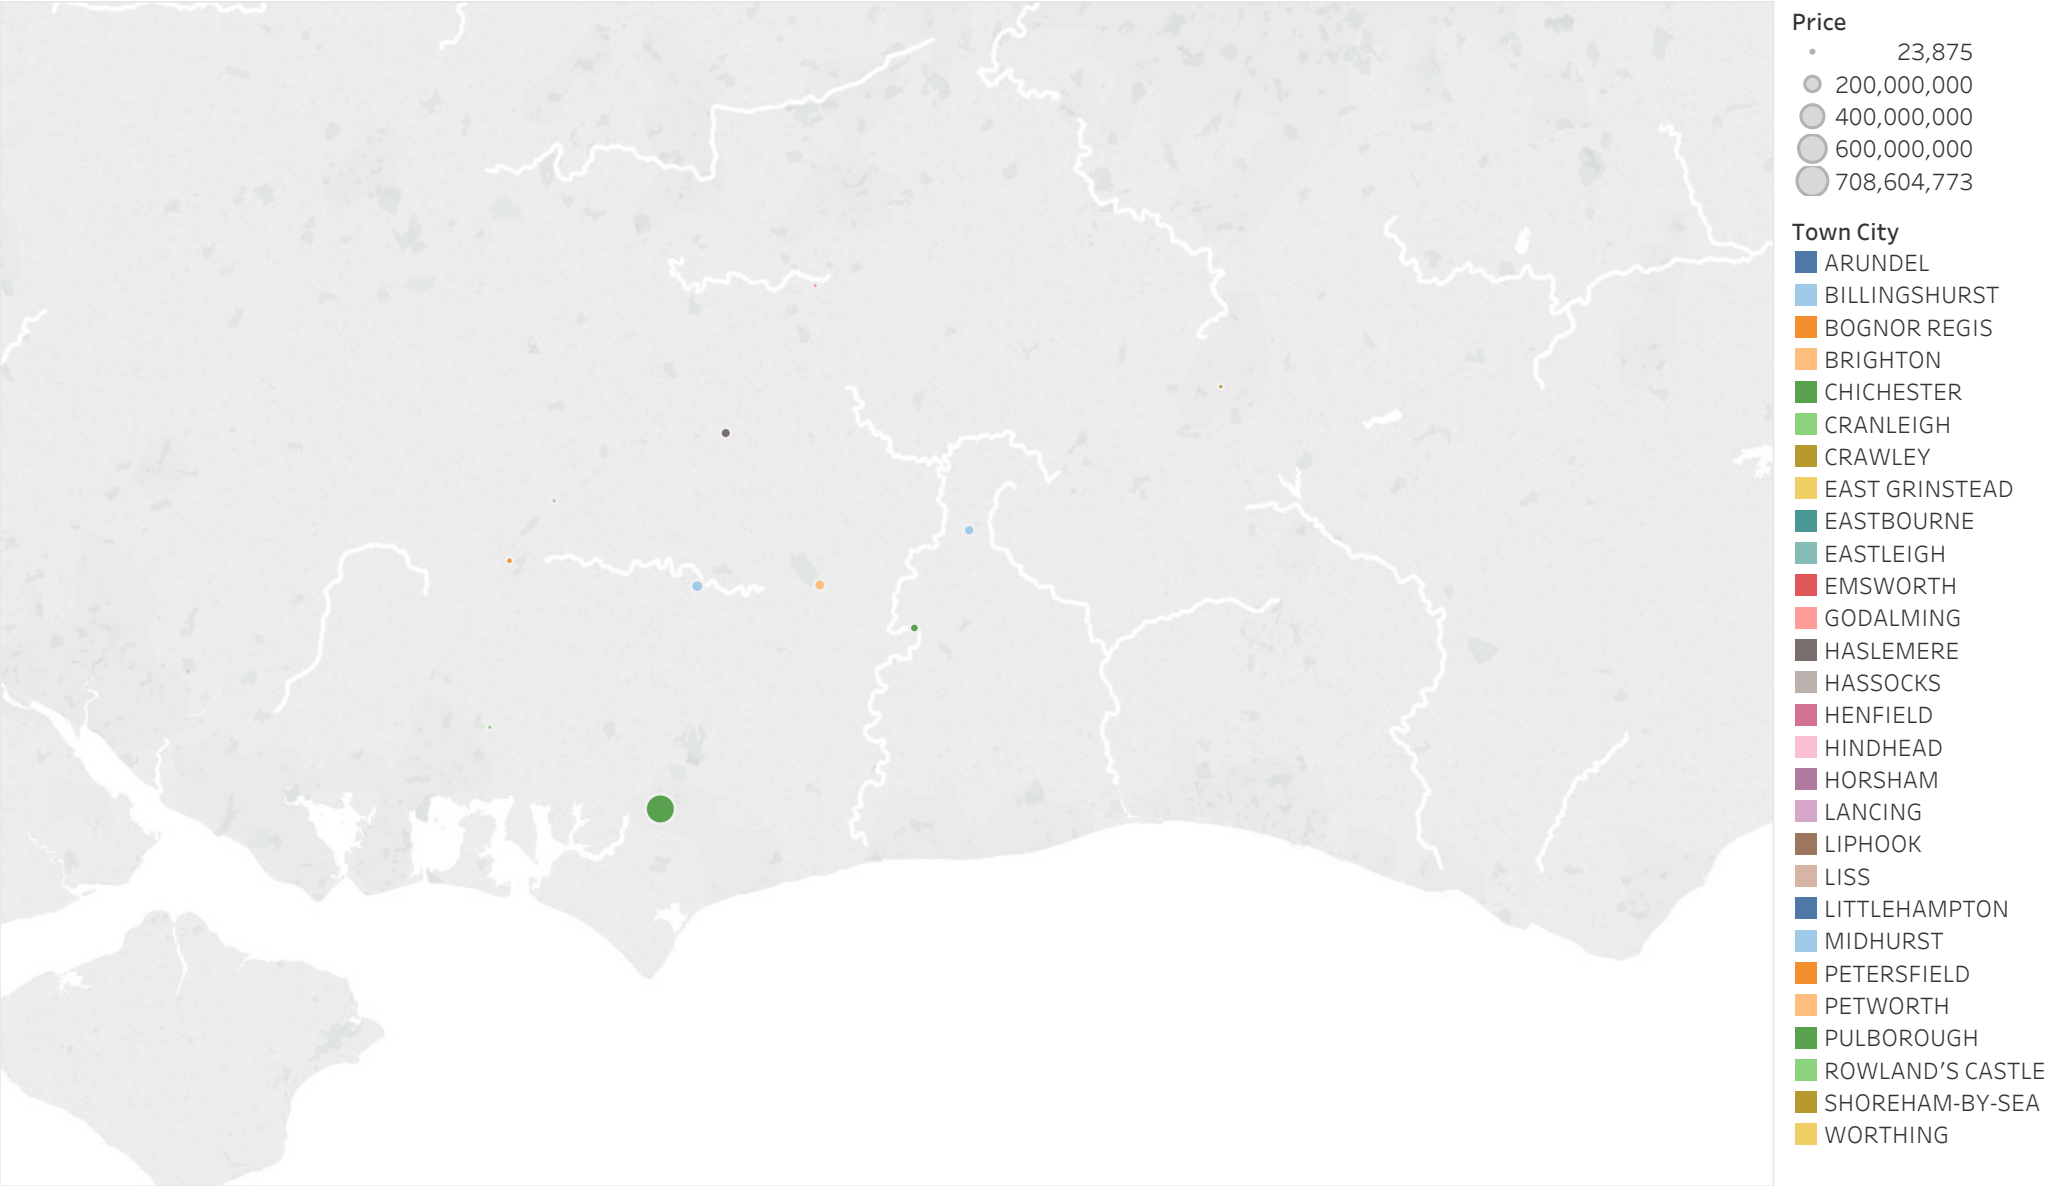

Map based on Longitude (generated) and Latitude (generated). Color shows details about Town City. Size shows sum of Price.

Property transfers over time. Sheet 6 - 2006

Map based on Longitude (generated) and Latitude (generated). Color shows details about Town City. Size shows sum of Price.

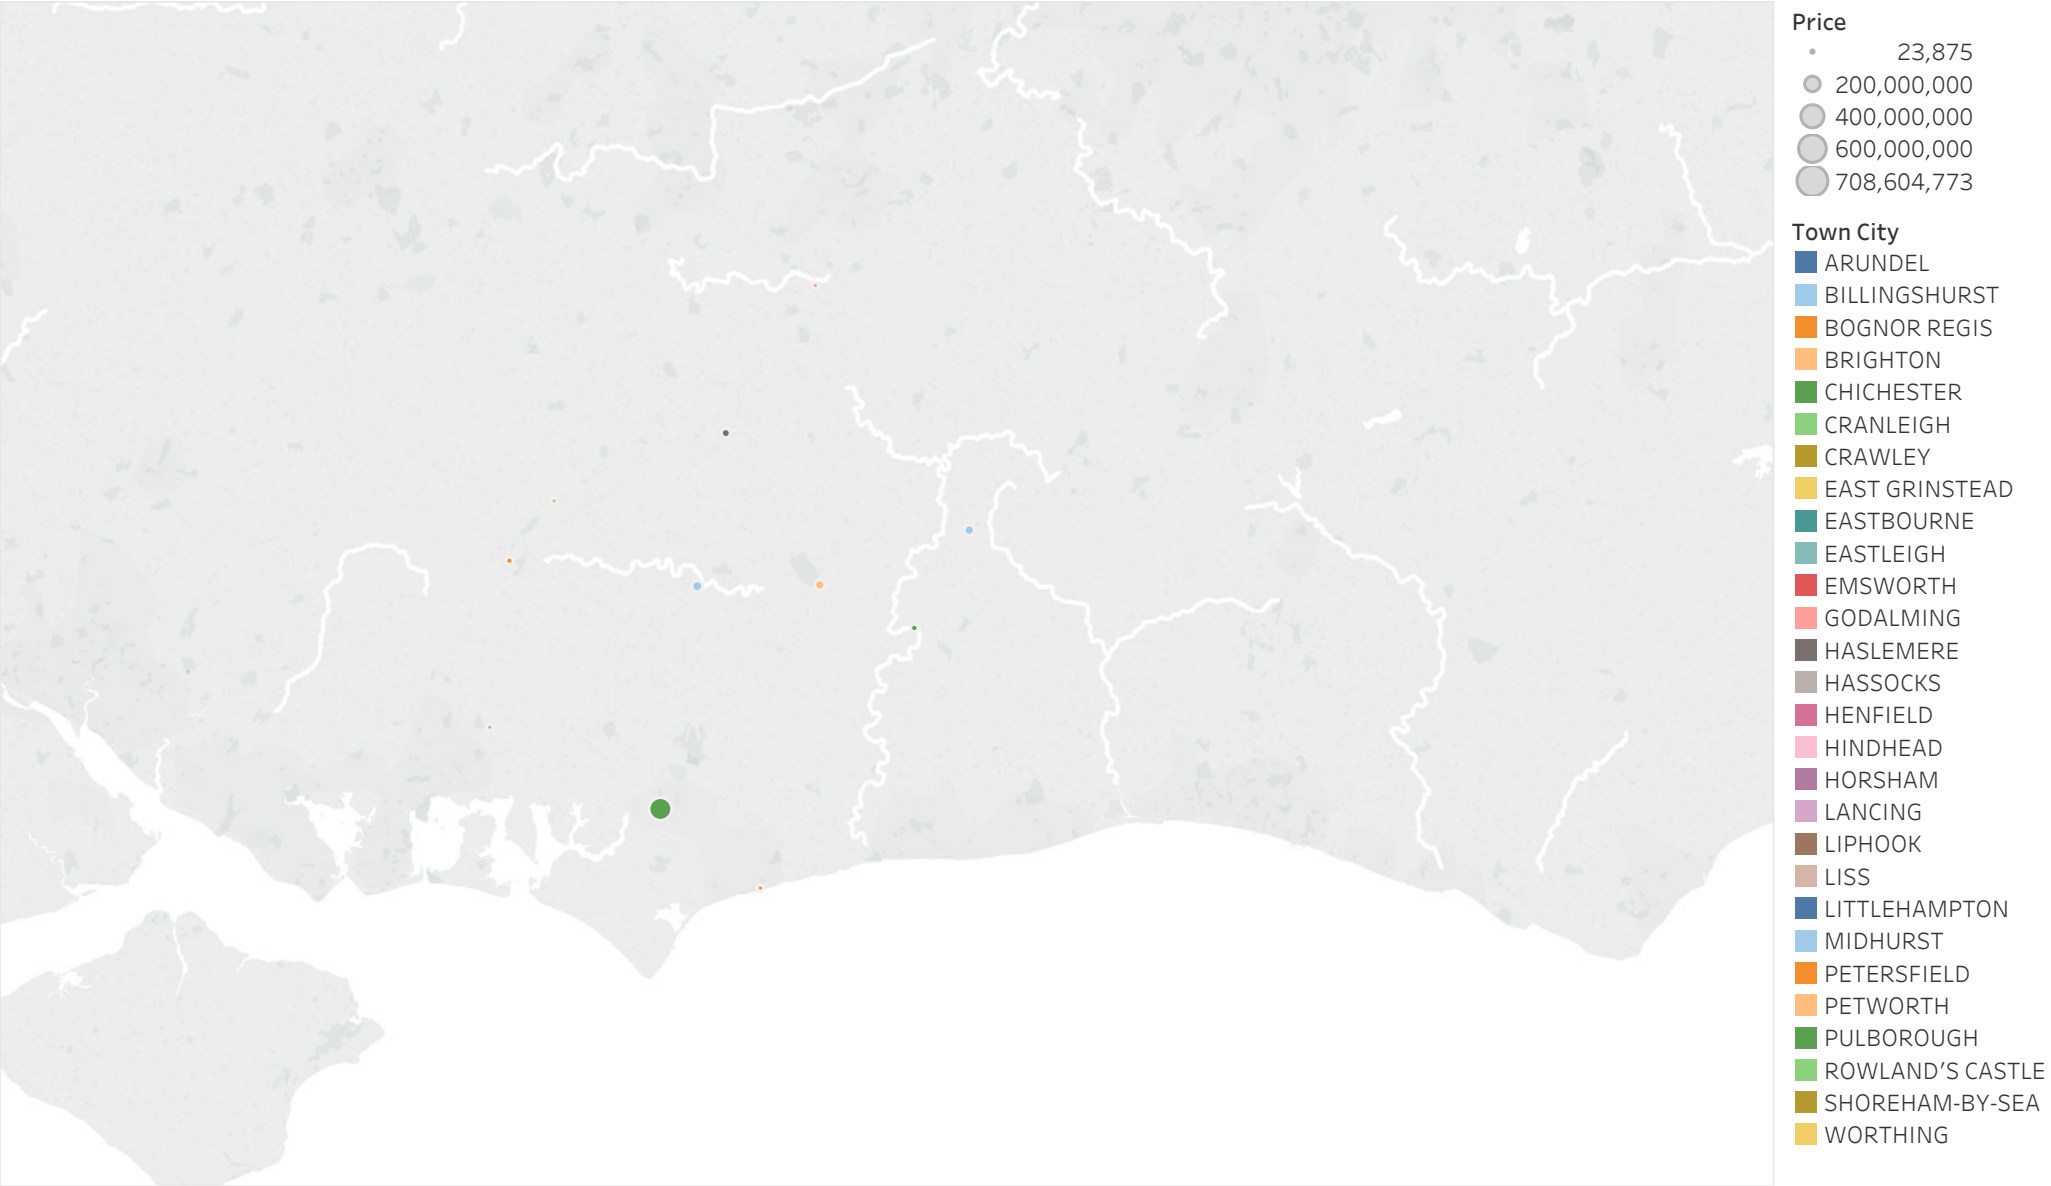

Property transfers over time. Sheet 6 - 2007

Map based on Longitude (generated) and Latitude (generated). Color shows details about Town City. Size shows sum of Price.

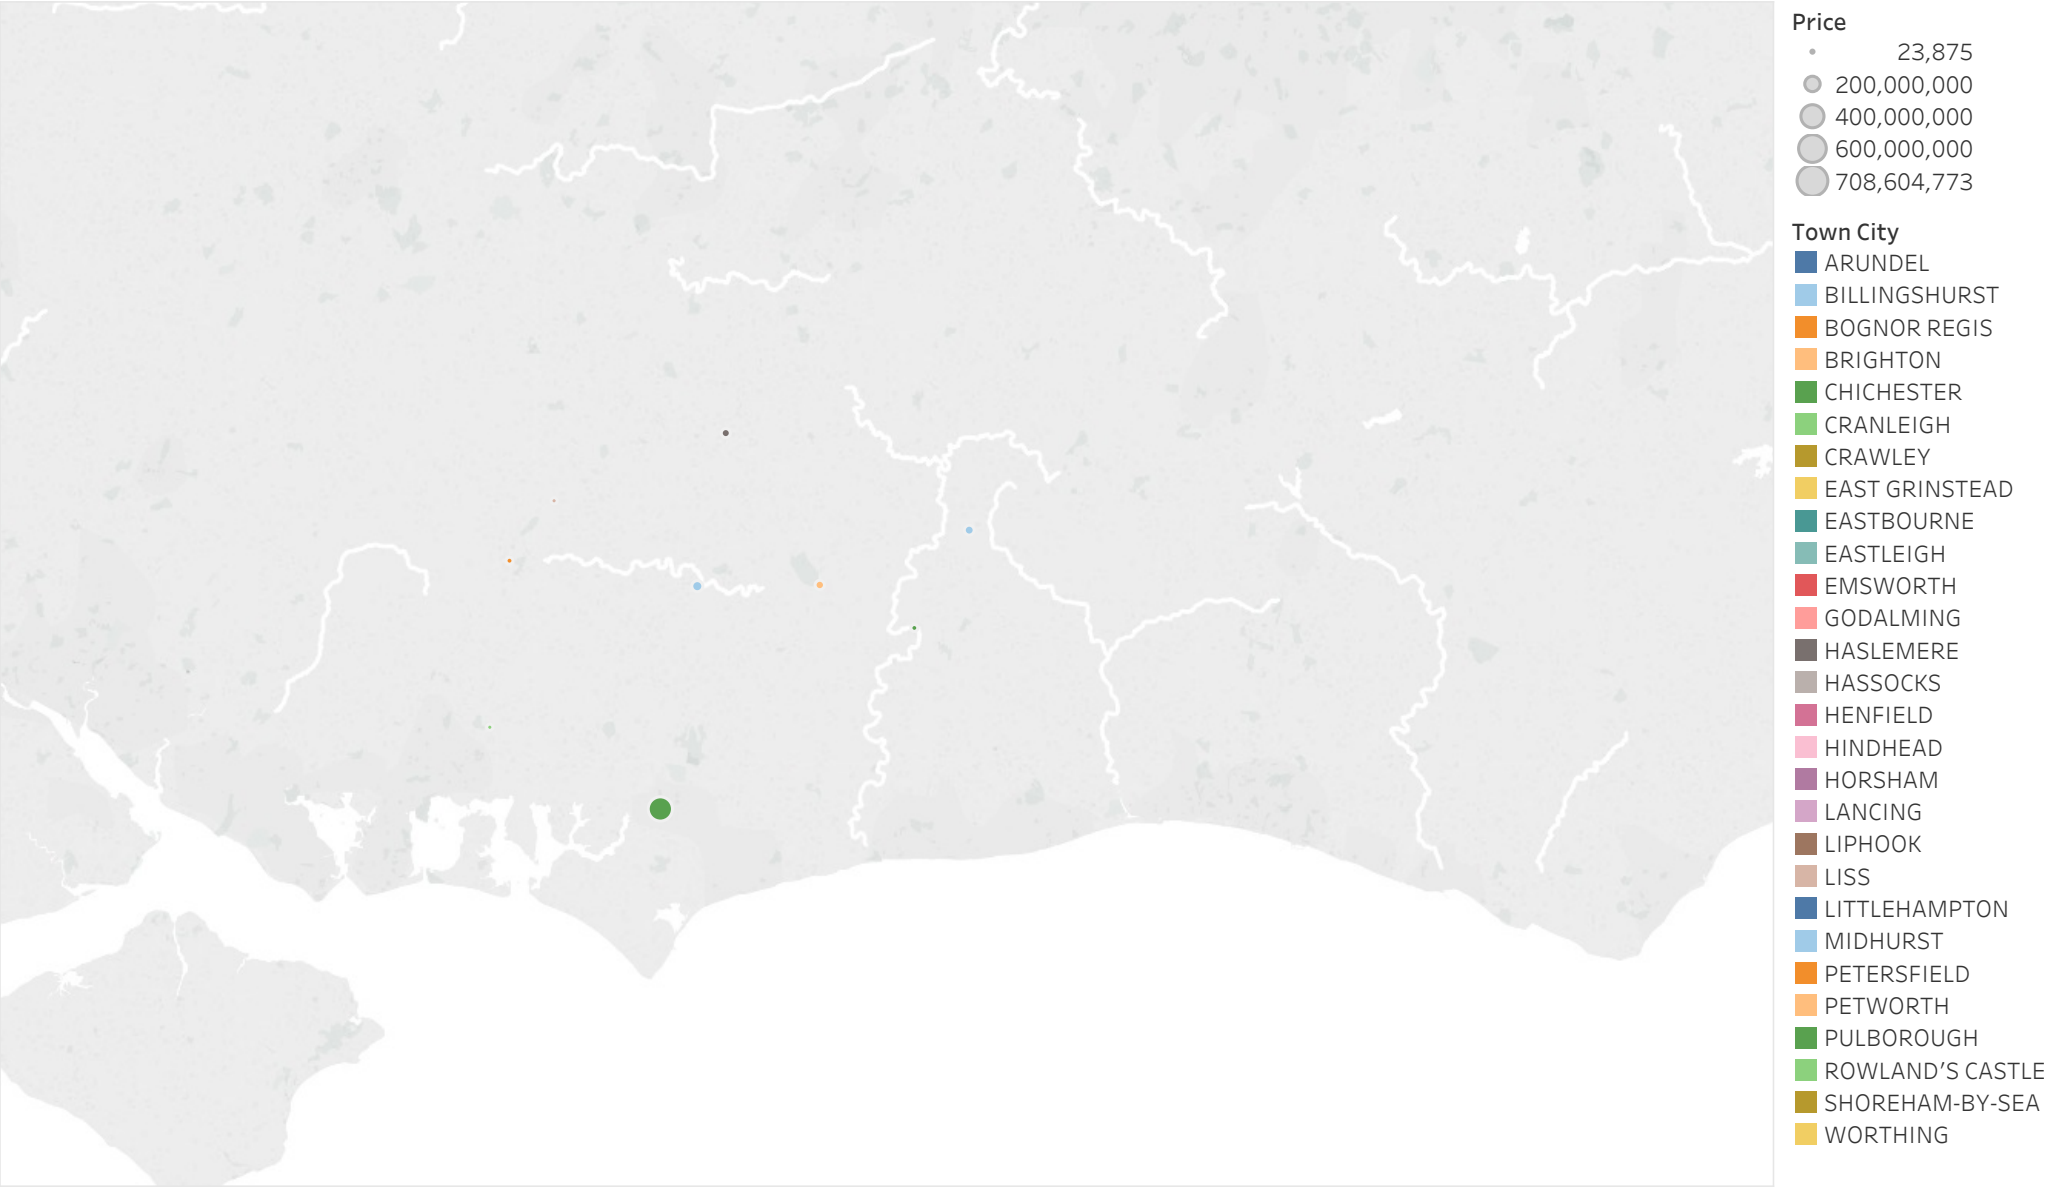

Property transfers over time. Sheet 6 - 2008

Map based on Longitude (generated) and Latitude (generated). Color shows details about Town City. Size shows sum of Price.

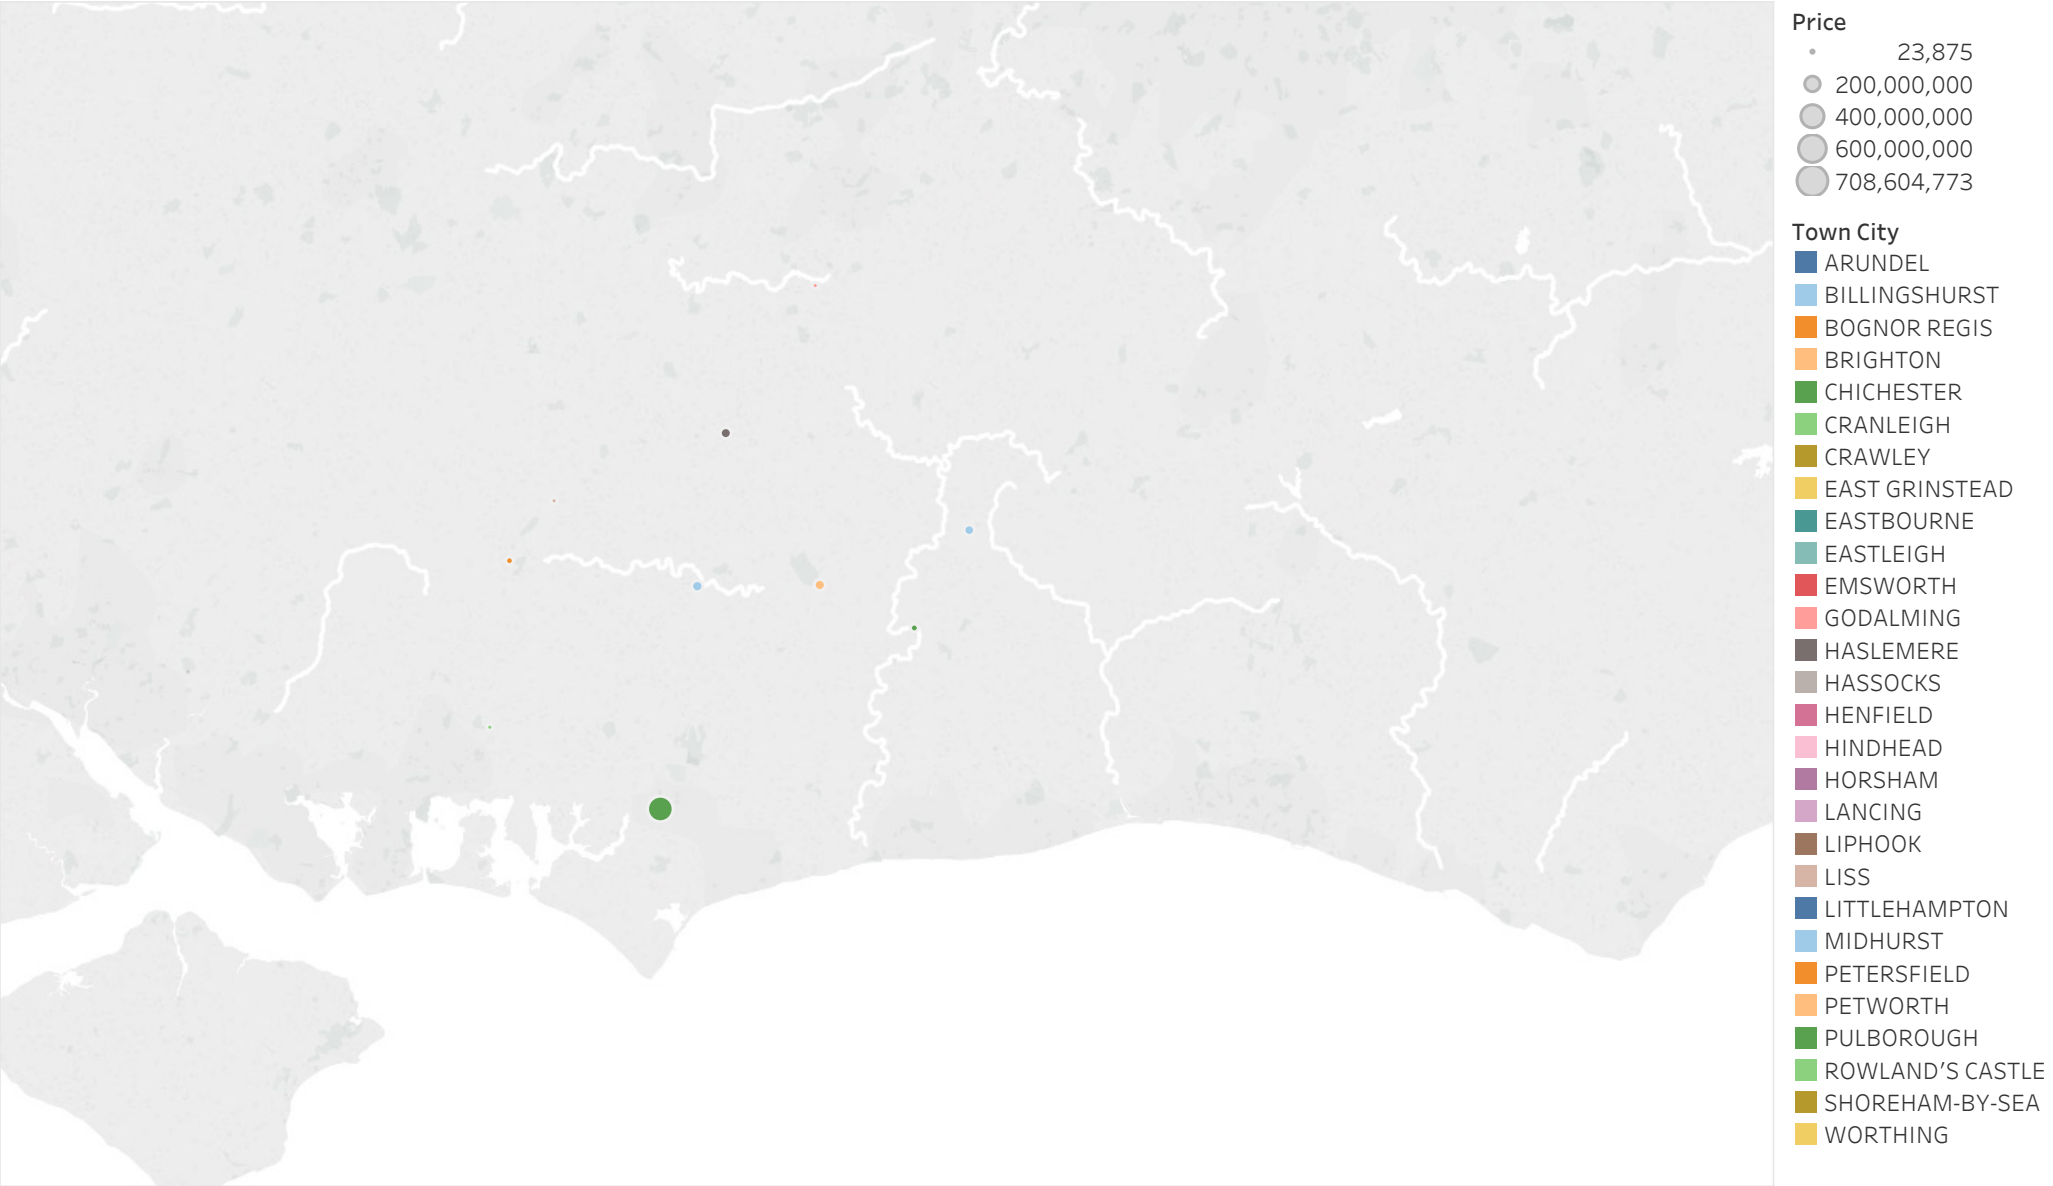

Property transfers over time. Sheet 6 - 2009

Map based on Longitude (generated) and Latitude (generated). Color shows details about Town City. Size shows sum of Price.

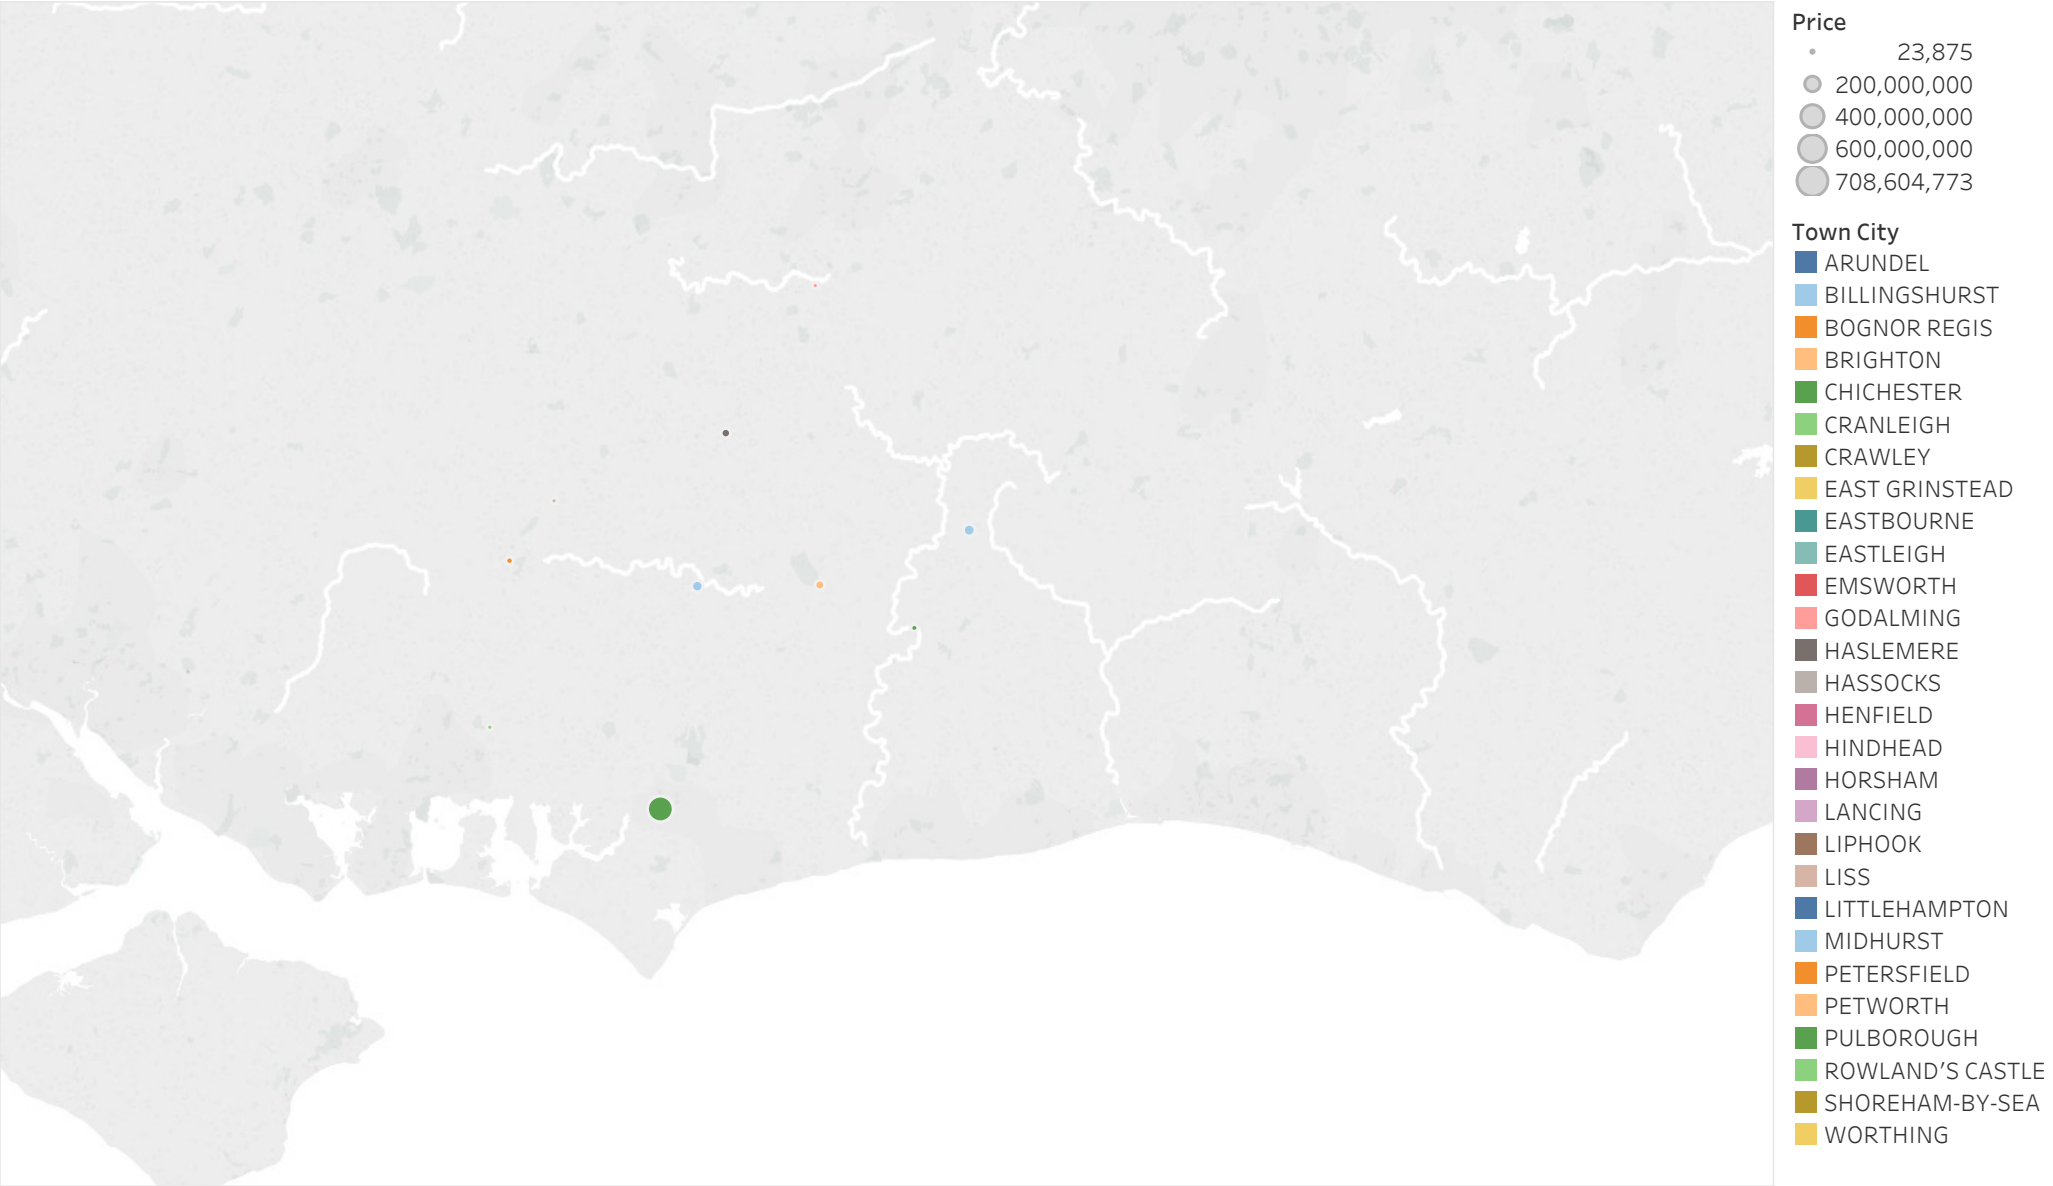

Property transfers over time. Sheet 6 - 2010

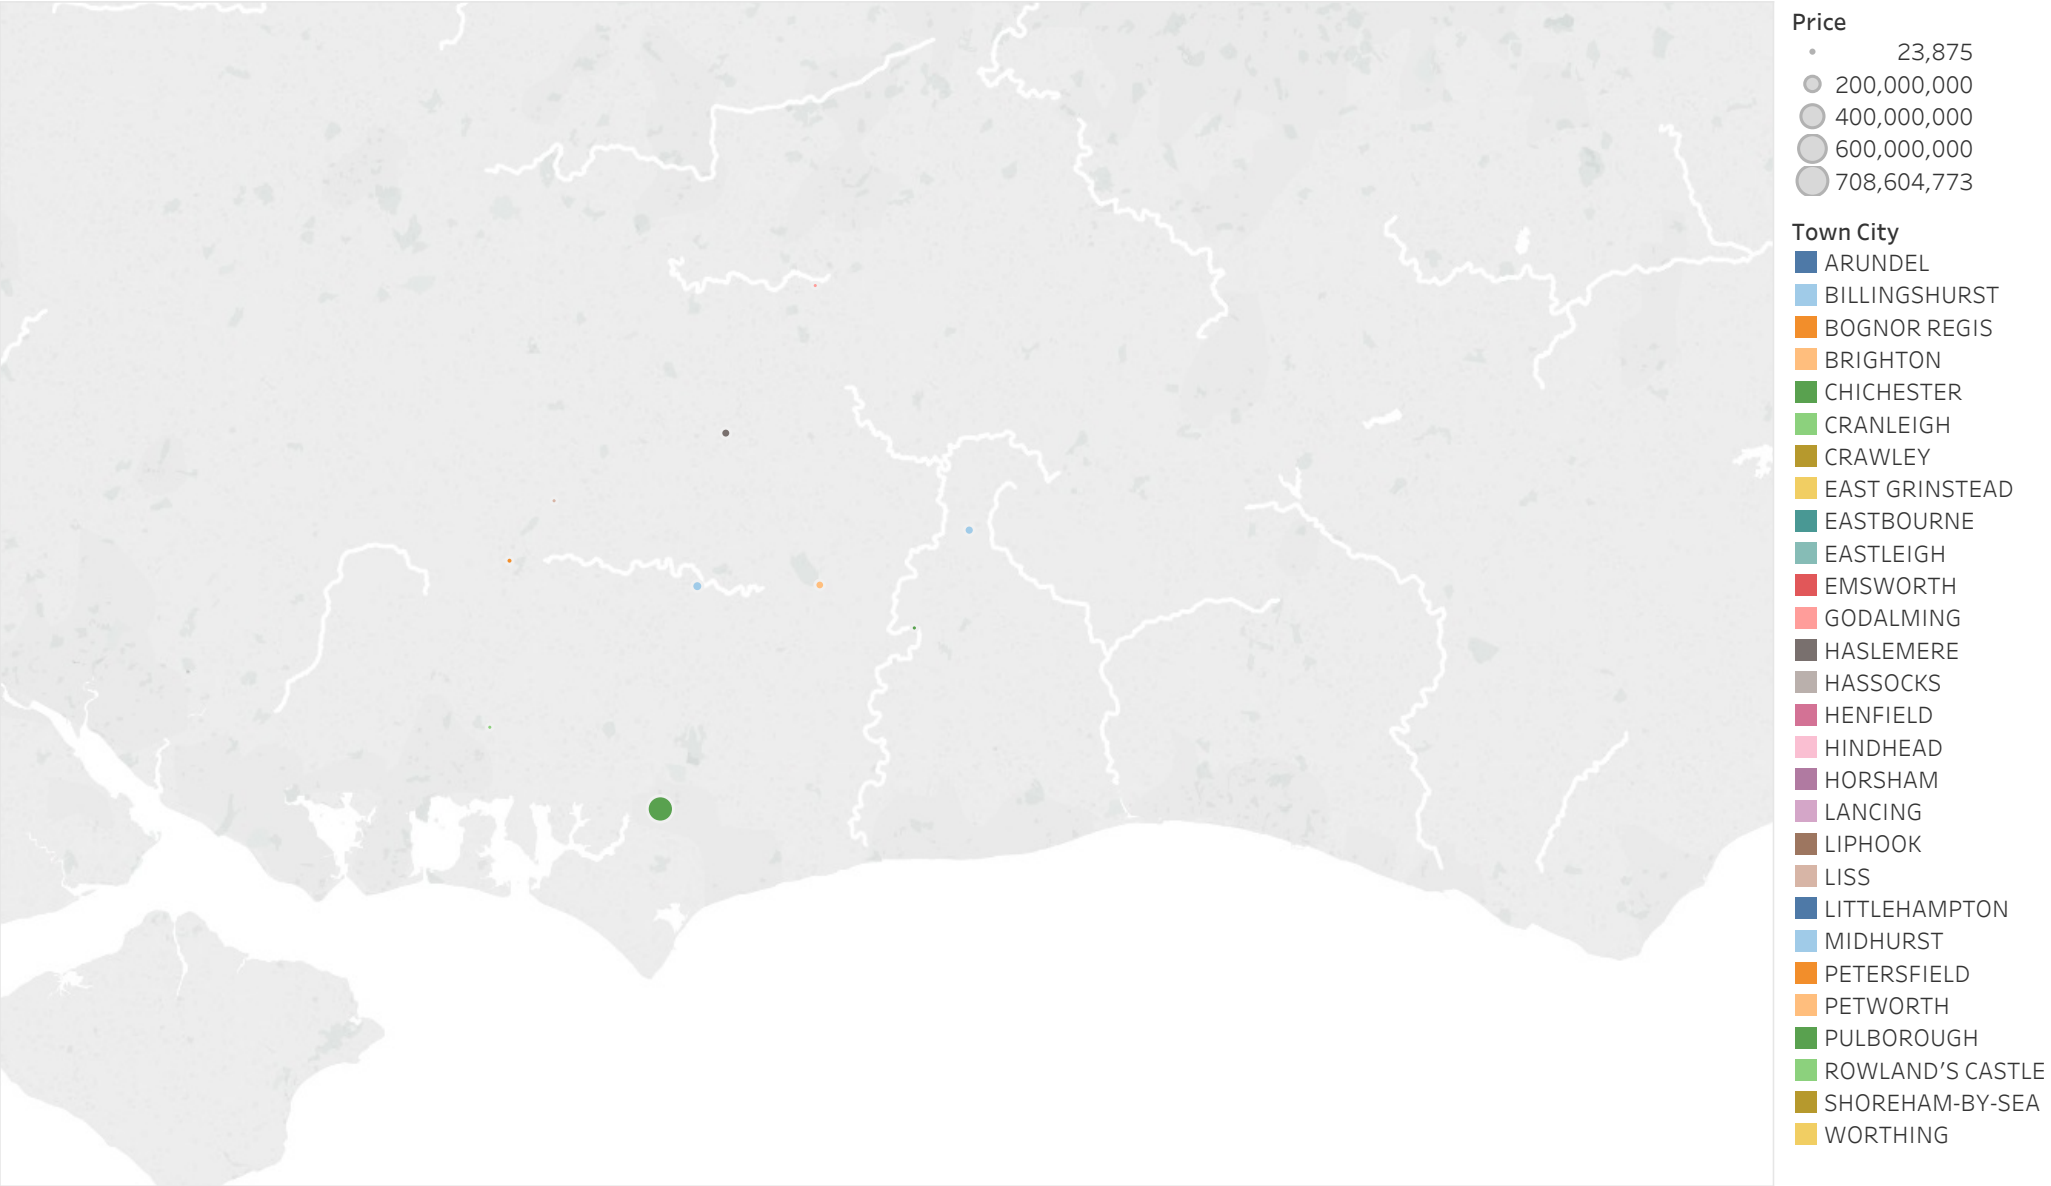

Map based on Longitude (generated) and Latitude (generated). Color shows details about Town City. Size shows sum of Price.

Property transfers over time. Sheet 6 - 2011

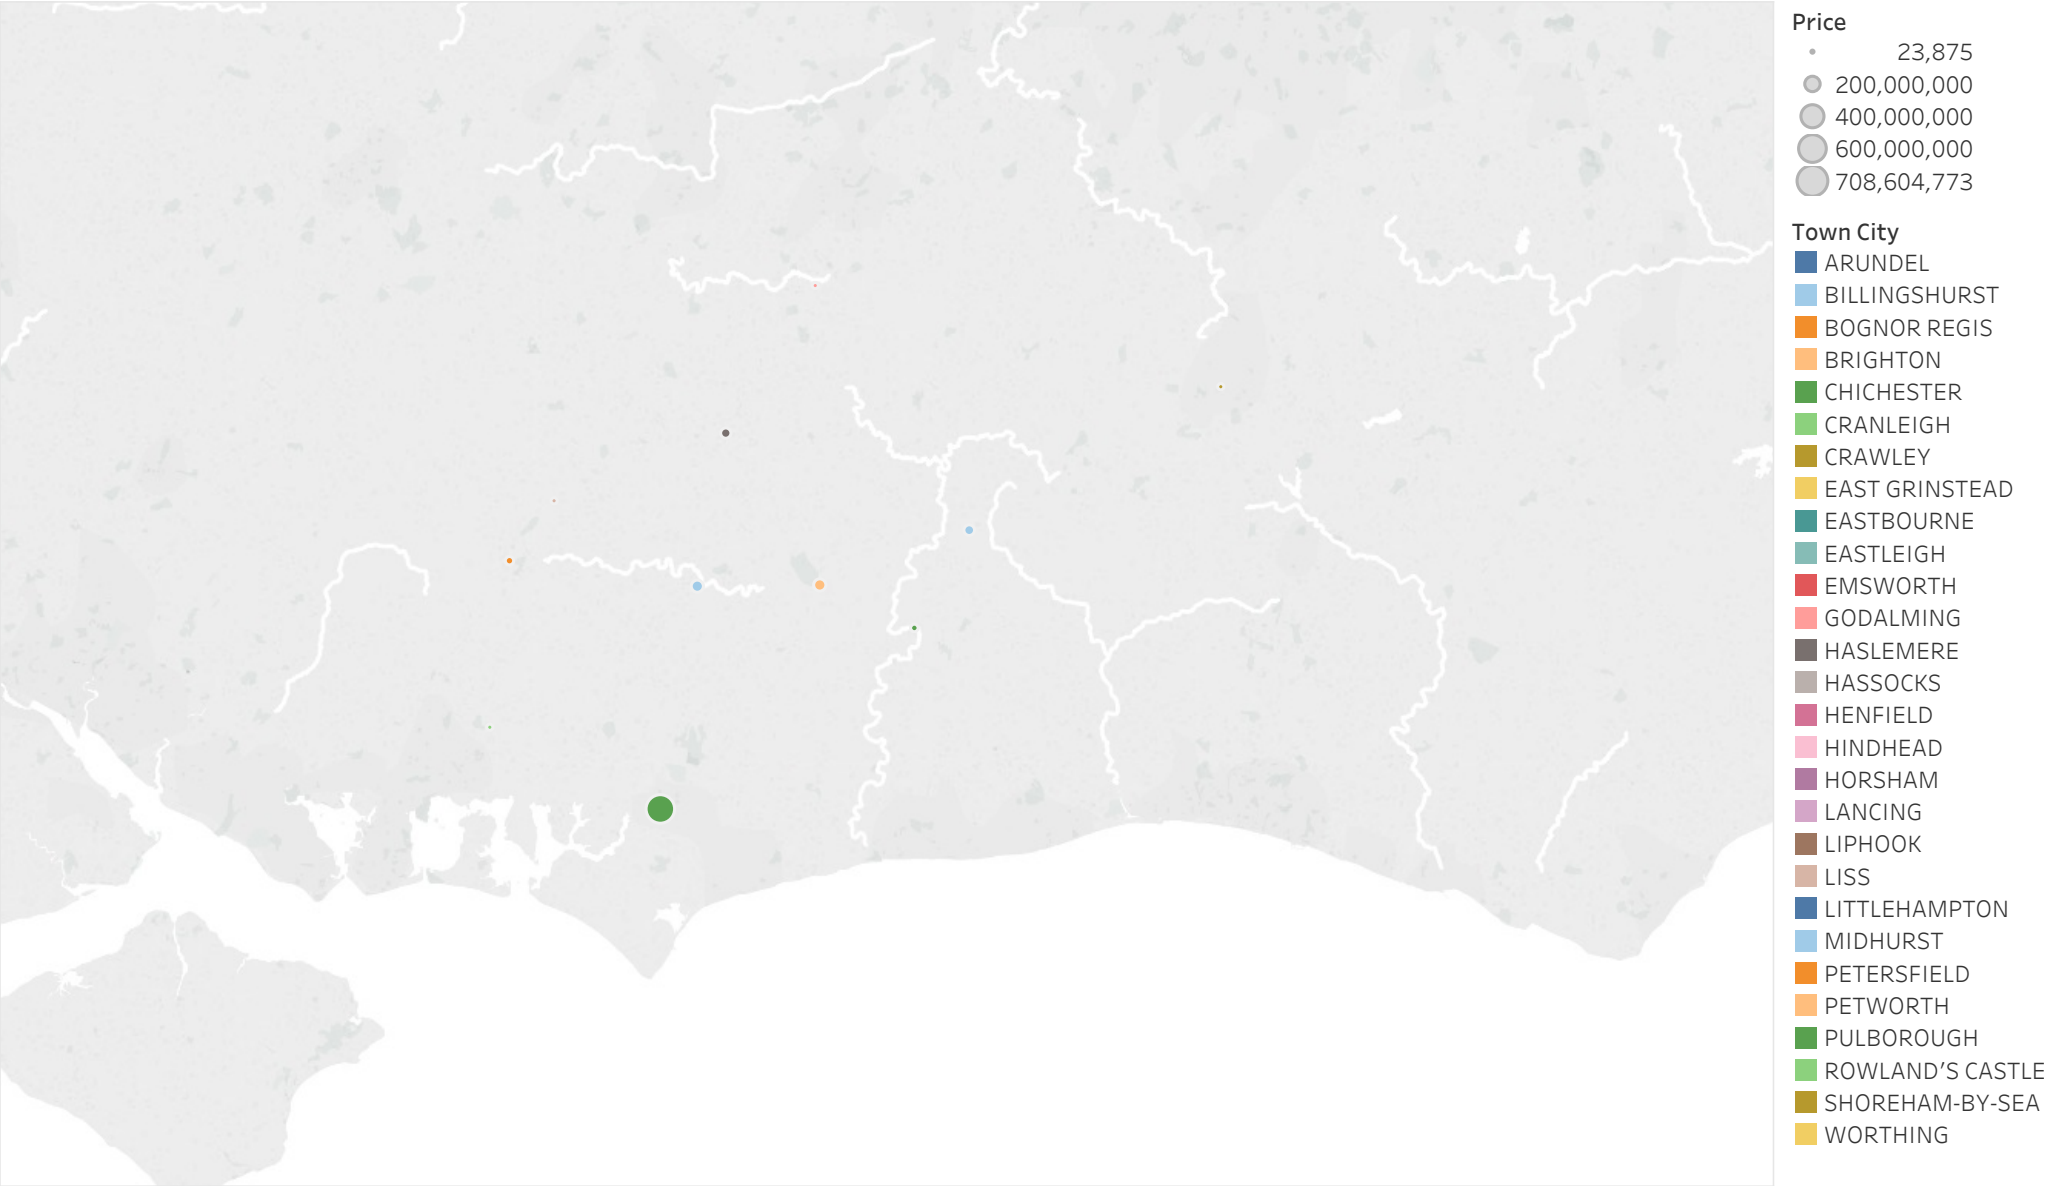

Map based on Longitude (generated) and Latitude (generated). Color shows details about Town City. Size shows sum of Price.

Property transfers over time. Sheet 6 - 2012

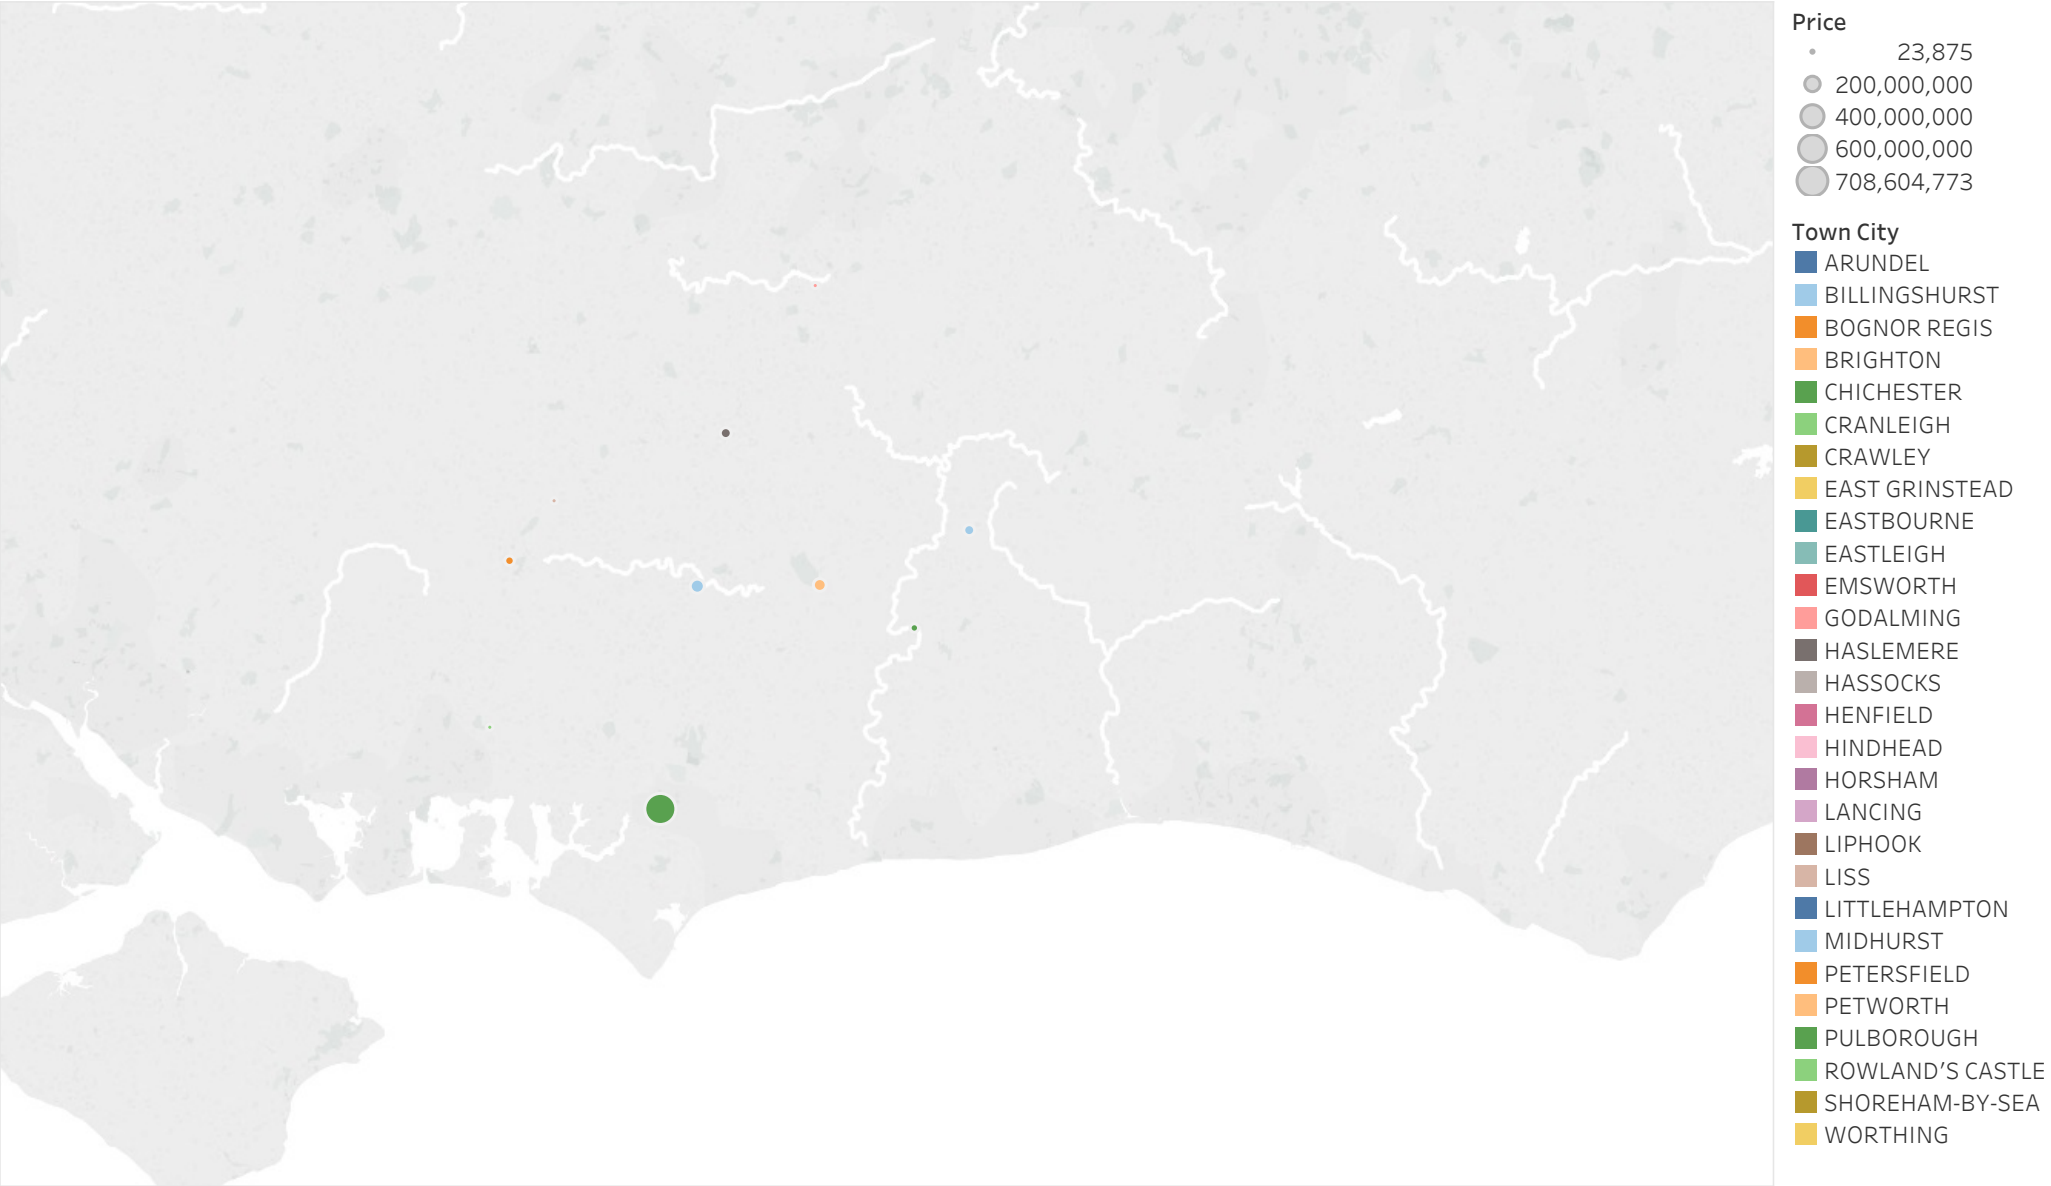

Map based on Longitude (generated) and Latitude (generated). Color shows details about Town City. Size shows sum of Price.

Property transfers over time. Sheet 6 - 2013

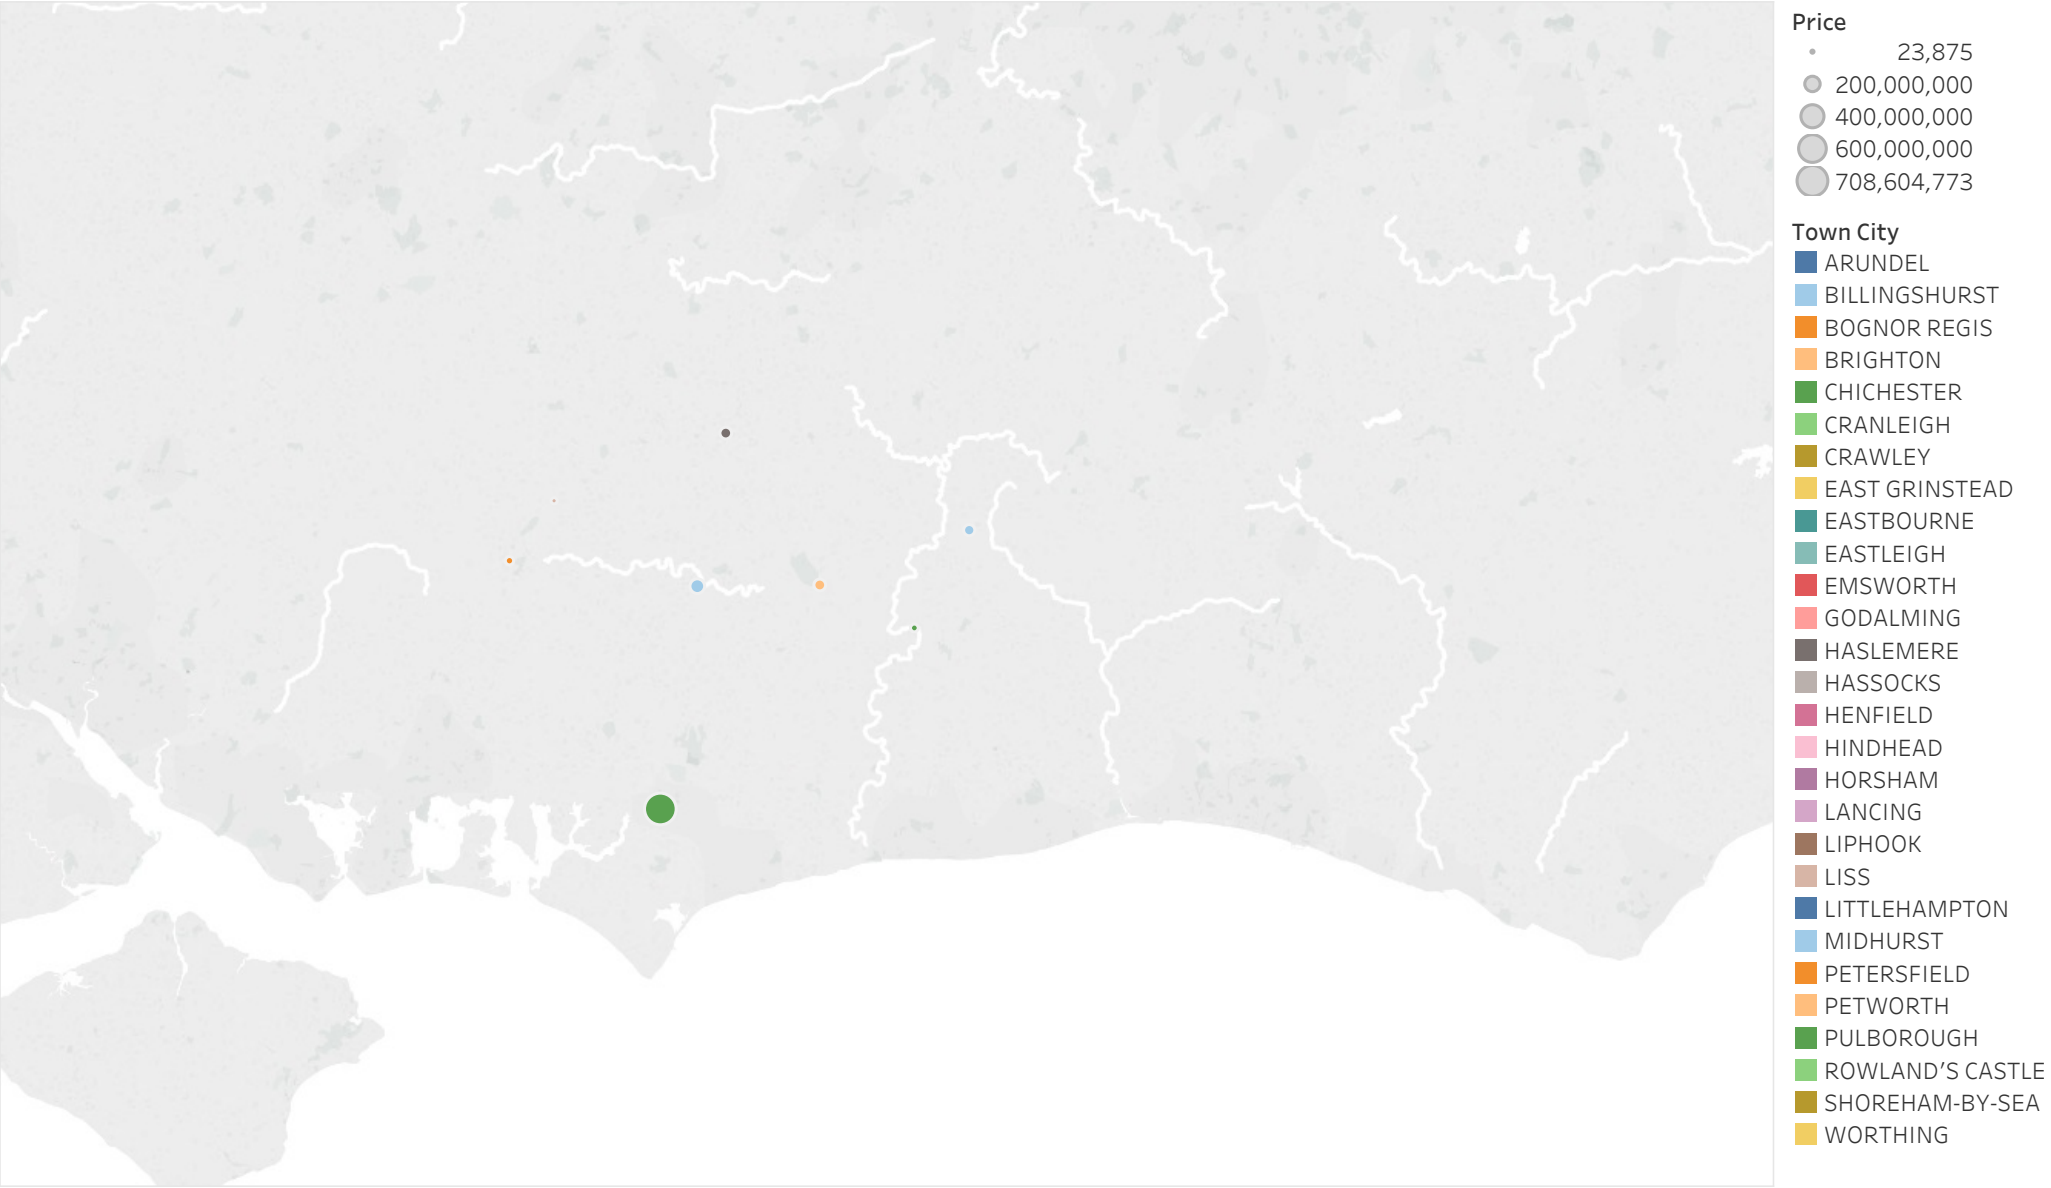

Map based on Longitude (generated) and Latitude (generated). Color shows details about Town City. Size shows sum of Price.

Property transfers over time. Sheet 6 - 2014

Map based on Longitude (generated) and Latitude (generated). Color shows details about Town City. Size shows sum of Price.

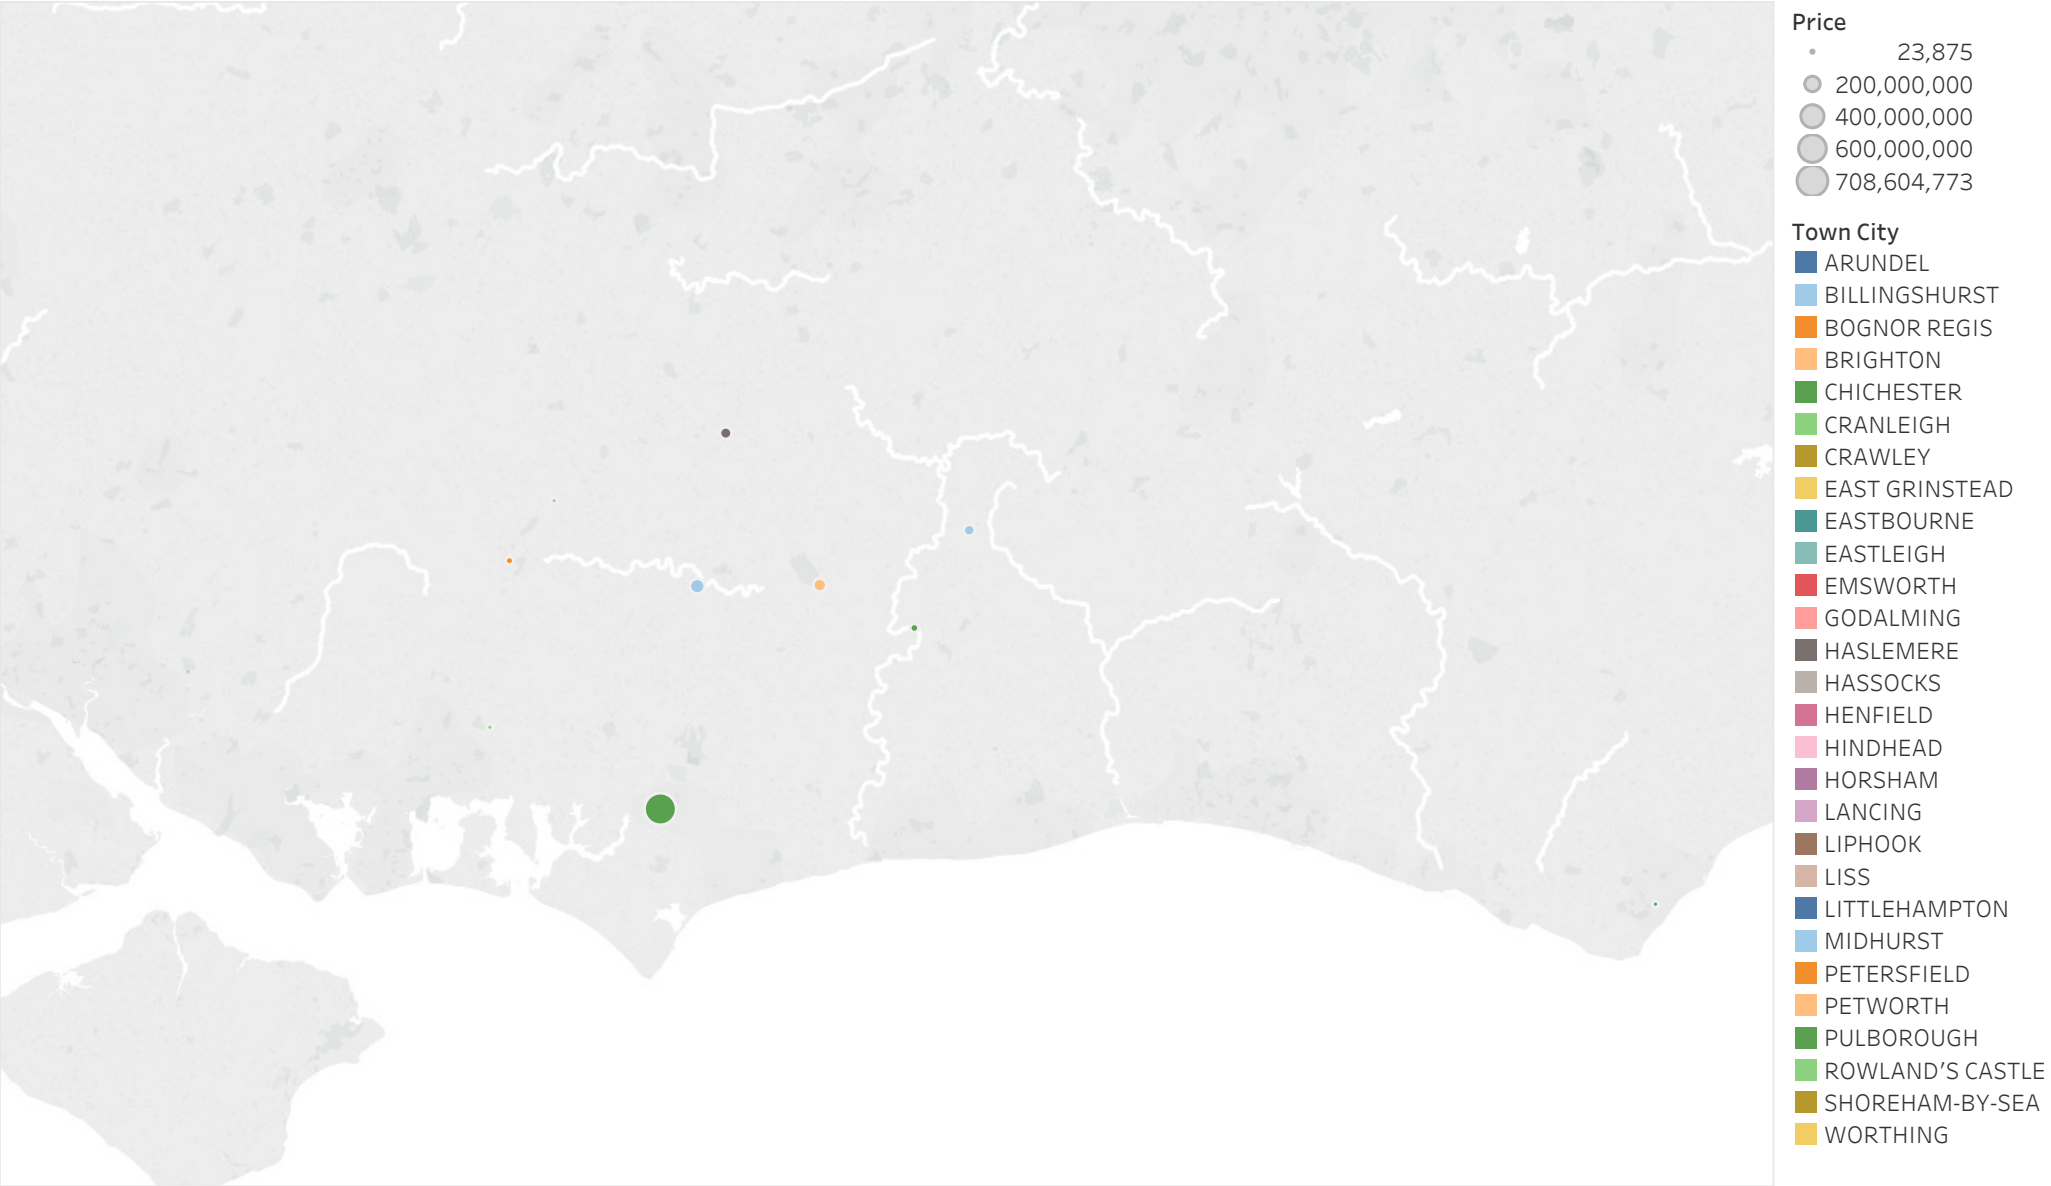

Property transfers over time. Sheet 6 - 2015

Map based on Longitude (generated) and Latitude (generated). Color shows details about Town City. Size shows sum of Price.

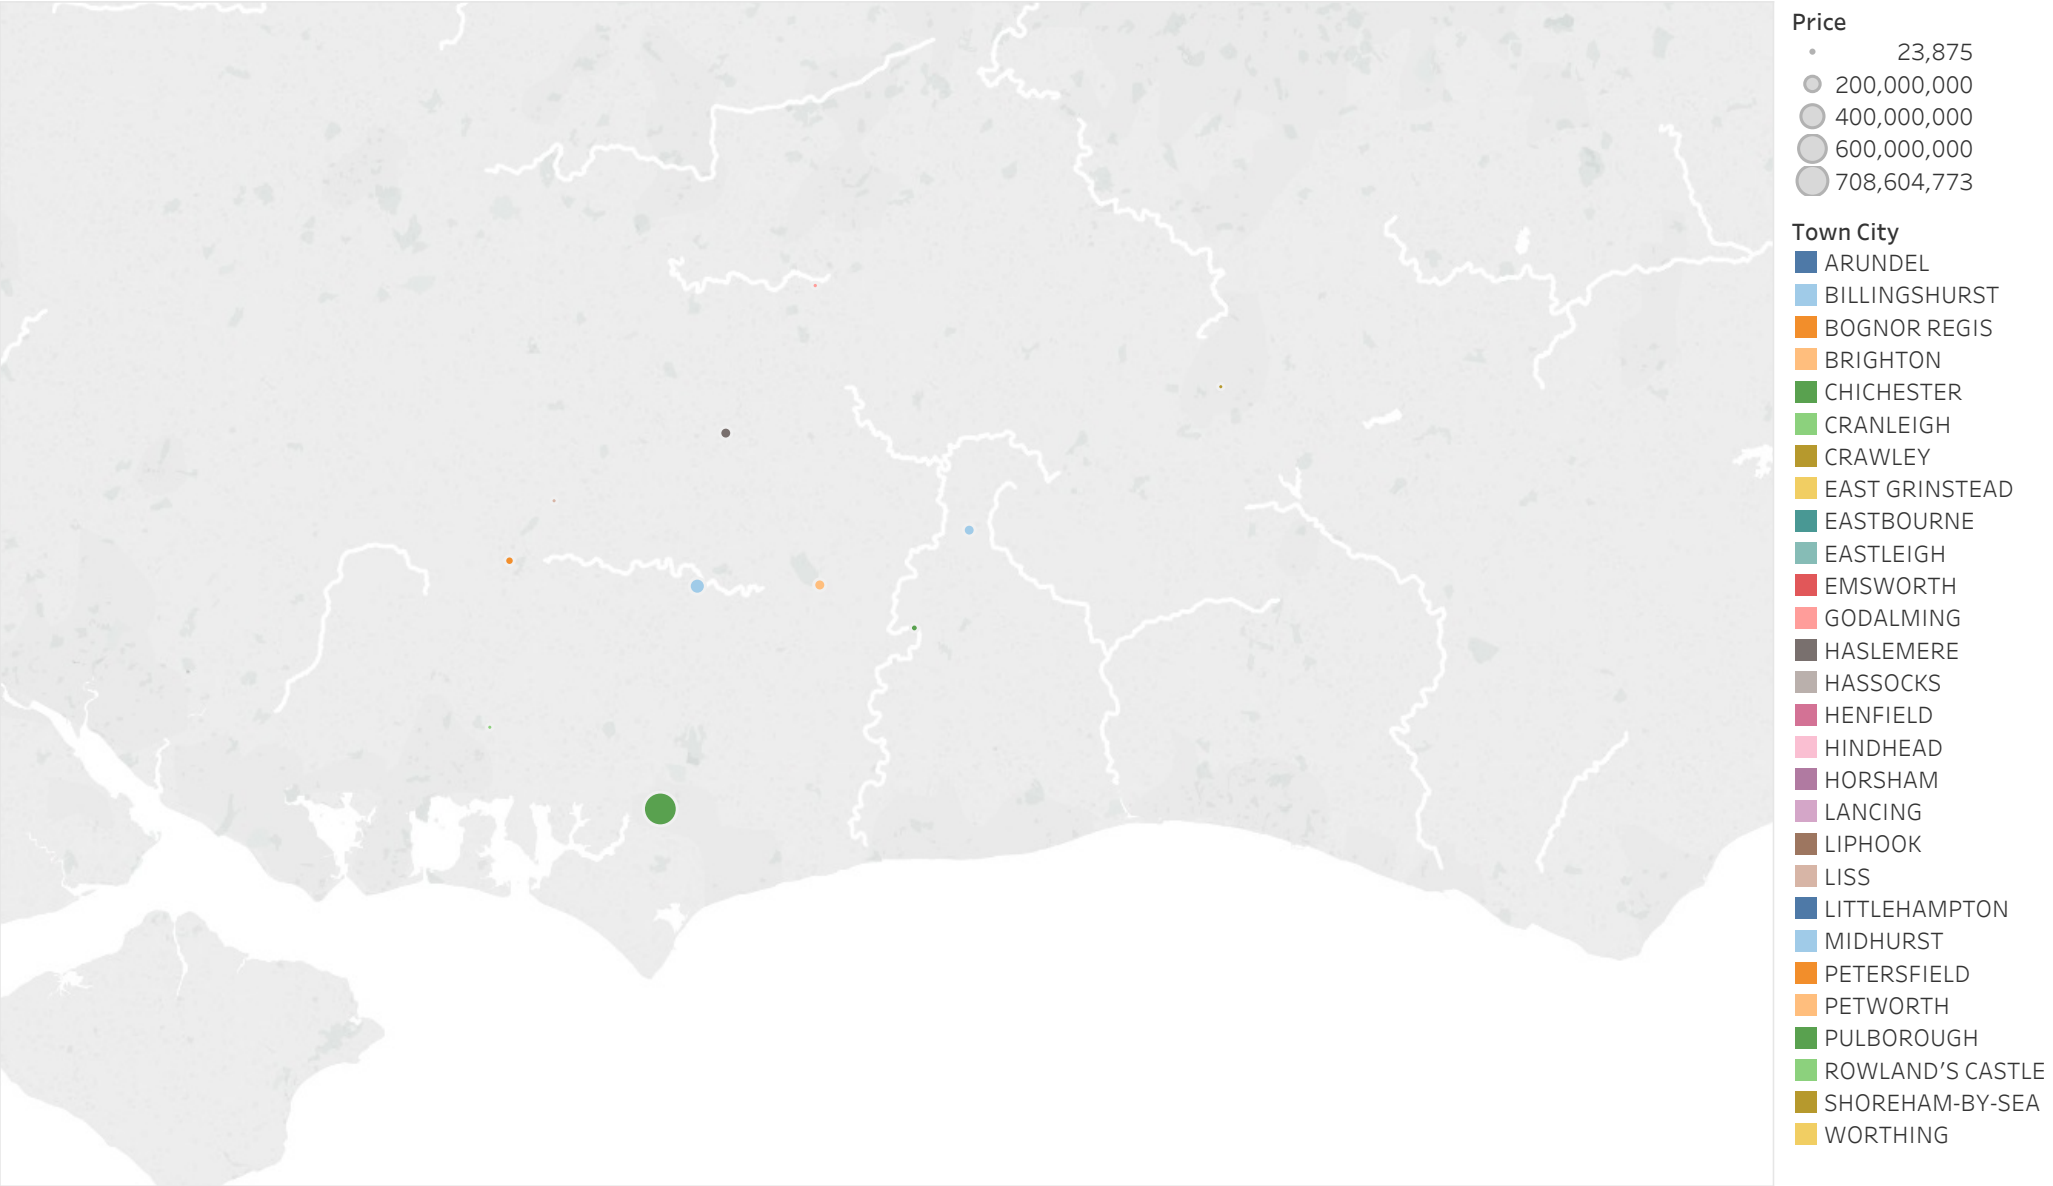

Property transfers over time. Sheet 6 - 2016

Map based on Longitude (generated) and Latitude (generated). Color shows details about Town City. Size shows sum of Price.

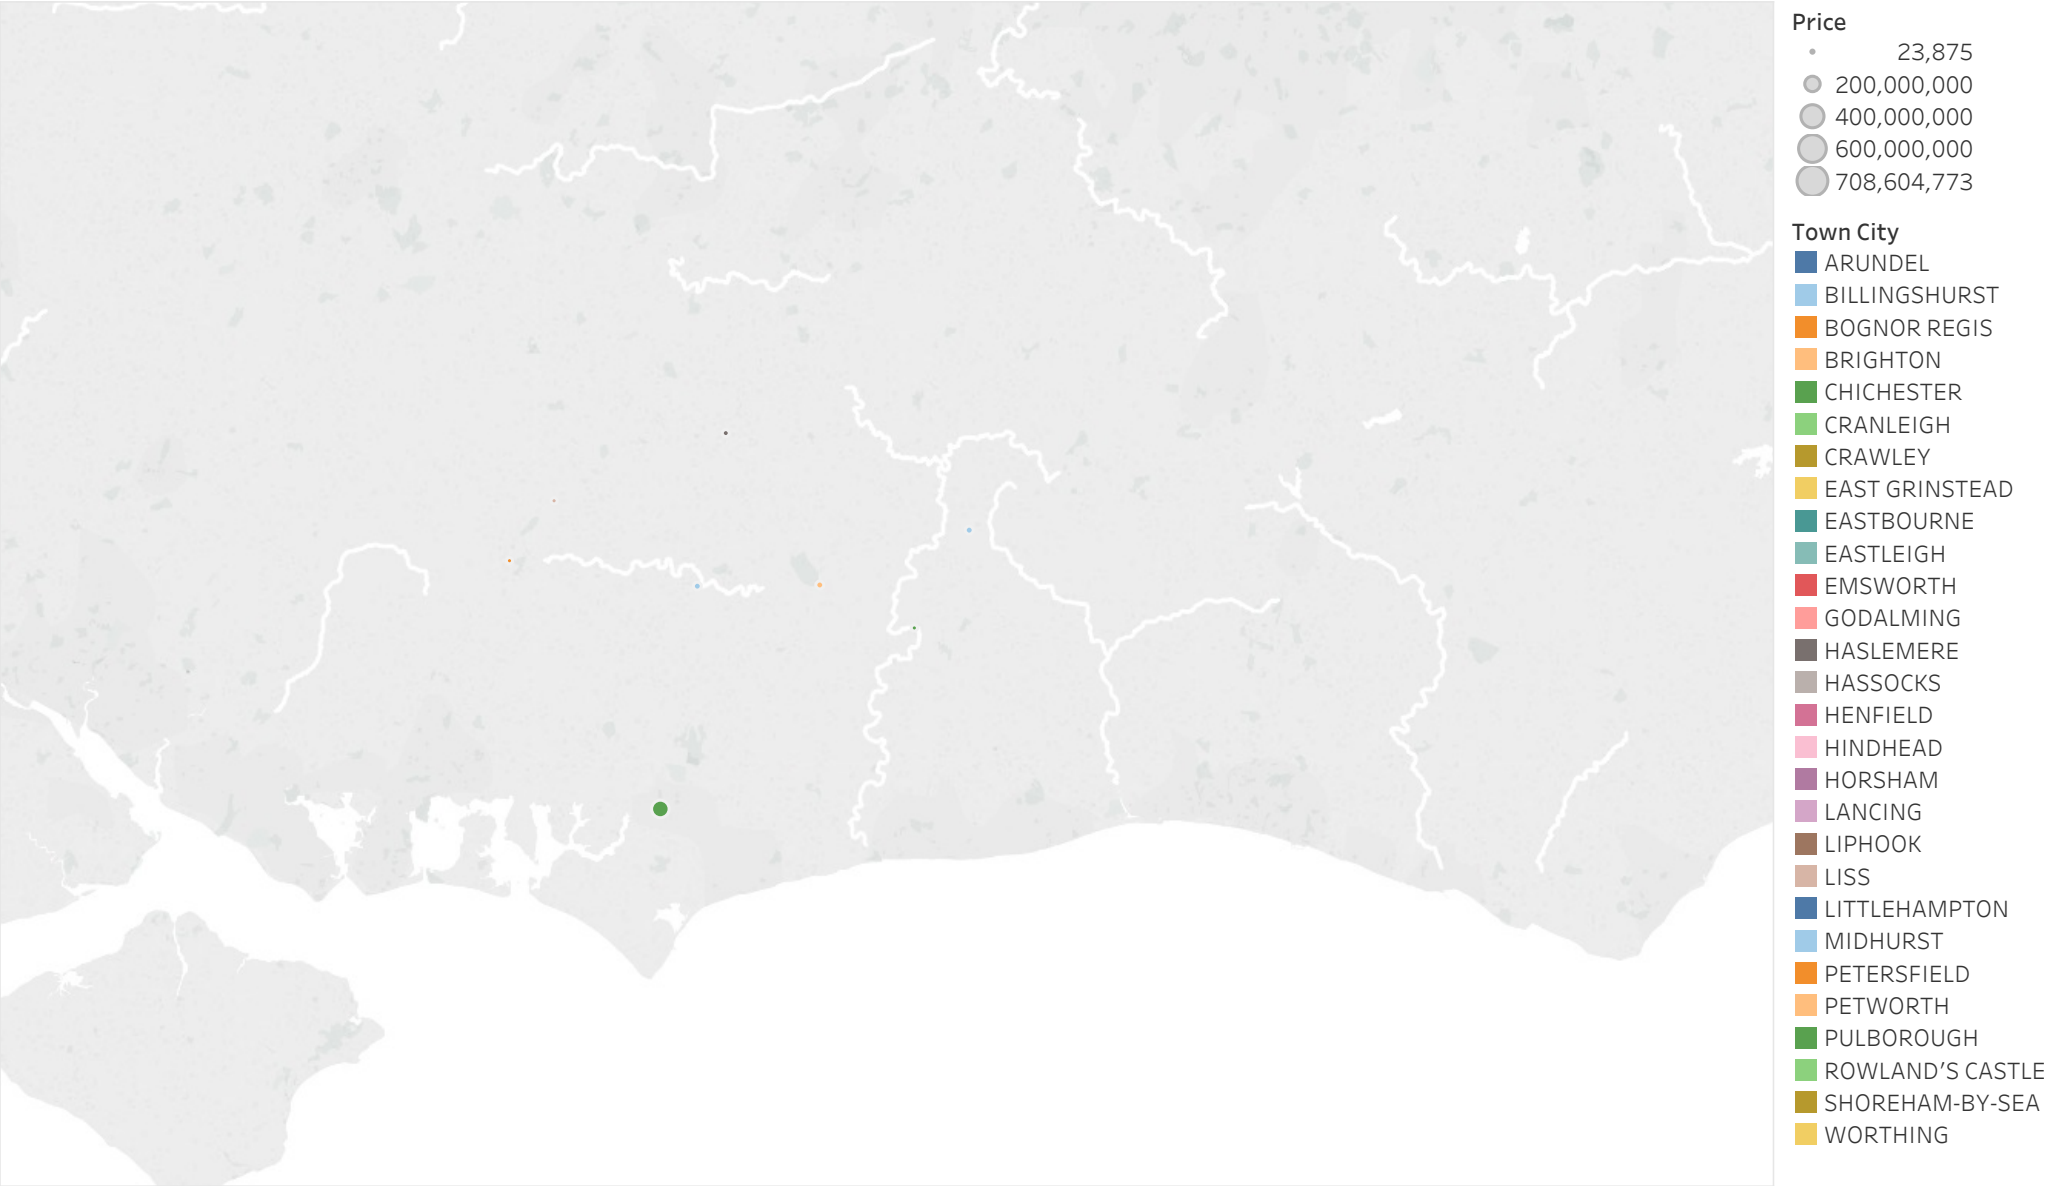

Property transfers over time. Sheet 6 - 2017

Map based on Longitude (generated) and Latitude (generated). Color shows details about Town City. Size shows sum of Price.

Property transfers over time. Sheet 6 - 2018

Map based on Longitude (generated) and Latitude (generated). Color shows details about Town City. Size shows sum of Price.
